He may issue his Warrant to any General or other Officer under his command, having the command of any body of Troops in the service of Her Majesty, empowering such Officer to appoint District or Garrison Courts Martial, as occasion may require, for the trial of any offence committed by any Officer, or Soldier, or Follower in the Service of Her Majesty, not being a European British subject of Her Majesty; and to confirm and mitigate, or commute or remit the sentence of any such Court Martial. No sentence, adjudging or involving forfeiture of additional pay, or of claim to pension on discharge, or of any prospective advantage, shall be carried into effect until sanctioned by the Commander-in-Chief of the Presidency to which the offender belongs. The Commander-in-Chief may remit any forfeiture awarded, and may order the restoration of any advantage of which the offender has been deprived by such forfeiture.

Powers of the Commander-in-Chief to appoint Courts Martial.

ARTICLE 78.

A General Court Martial may sentence for any crime, which by these Articles is made liable to such sentence, any Officer to death or to transportation for life, or for any period not less than seven years, or in cases falling under Article 22 or Article 66, to imprisonment, with or without hard labor, for any period not exceeding three years, and with or without solitary confinement; or may sentence any Soldier to death, or to transportation for life, or for any period not less than seven years, or to imprisonment for any period not exceeding fourteen years, for any crimes which are by these Articles of War expressly made liable to any such sentence and for such crimes only. No Court Martial inferior to a General Court Martial shall have power to pass a sentence of death or transportation or imprisonment for any longer period than three years.

Death, transportation, or imprisonment.

Punishment of Commissioned Officers.

A General Court Martial may sentence a Commissioned Officer to be dismissed the service; or to be suspended from rank and pay allowances for a stated period; or to be placed one or more steps lower in the list of his rank, by an alteration of the date of the Commission, and such Officer shall lose the corresponding benefit of length of service.

Dismissal, suspension, or reduction to ranks.

No Court Martial, inferior to a General Court Martial, shall have power to try a Commissioned Officer.

Punishment of Non-Commissioned Officers and Soldiers.

A General, or District, or Garrison, or Regimental Court Martial may sentence a Non-Commissioned Officer to be reduced to the ranks; or may sentence a Non-Commissioned Officer or Soldier to be dismissed the service; or to be placed one or more steps lower in the list of the rank which he holds, whereby such Non-Commissioned Officer or Soldier shall lose the benefit of the corresponding length of service; or to suffer corporal punishment not exceeding fifty lashes; or to imprisonment which may be with or without hard labor, and which may include solitary confinement for any portion or portions of such imprisonment, not exceeding fourteen days at a time, nor eighty-four days in any one year, with intervals between the periods of solitary confinement of not less duration than such periods of solitary confinement.

Reduction to ranks, corporal punishment, imprisonment, or solitary confinement.

No Soldier shall be kept in solitary confinement more than eighty-four days in any one year, whether by the sentence of one or more Courts Martial, or by order of the Commanding Officer of the Regiment or Corps to which such Soldier belongs.

No sentence of imprisonment shall be awardable by a General Court Martial for any period exceeding two years (except when otherwise expressly provided); nor by a District or Garrison Court Martial for any period exceeding one year; nor by a Regimental Court Martial for any period exceeding six calendar months.

No Non-Commissioned Officer shall be sentenced to imprisonment or corporal punishment without being first reduced to the ranks.

Punishment for "Disgraceful Conduct."

A General, or District, or Garrison Court Martial may in addition to corporal punishment or to imprisonment, sentence a Soldier convicted of disgraceful conduct to forfeiture of all advantage as to additional pay and claim to pension on discharge, which otherwise might have accrued from the length or nature of his former service; or to forfeiture of

Forfeiture of pay or pension in addition to corporal punishment or imprisonment.

such advantage absolutely, whether it may have accrued from past service, or might accrue from future service.

No Soldier shall be tried for disgraceful conduct by any Court Martial inferior to a District or Garrison Court Martial.

Forfeiture and stoppages in addition to dismissal.

A Court Martial may, in addition to any punishment involving dismissal or discharge, sentence any Officer or Soldier, whom it is authorized to try, to forfeiture of arrears of pay and allowances due at the time of dismissal or discharge, or of such portion thereof as may be required to make good any loss or damage arising out of his misconduct. A Court Martial, in addition to any punishment not involving dismissal or discharge, may sentence any Officer or Soldier to be put under stoppages not exceeding, in the case of an Officer, two-thirds of his pay and allowances, and in the case of a Non-Commissioned Officer or Soldier one-half of his pay and allowances until any loss or damage arising out of his misconduct be made good.

Forfeiture of pay during confinement.

Every Soldier sentenced to confinement in the Quarter Guard or Defaulter's Room, or in a Solitary Cell, or in any other place of imprisonment, shall forfeit all claim to pay and allowances during such confinement, and shall be entitled to receive subsistence only according to the rates laid down in the Regulations.

ARTICLE 82.

Powers of Officers Commanding Detachments in punishing offences.

An Officer Commanding a Detachment of his own Regiment or Corps may assemble a Regimental Detachment Court Martial; and an Officer Commanding a Detachment, consisting of men of different Regiments or Corps, may assemble a Detachment or Lane Court Martial. Every Court so assembled shall be constituted in the manner provided for a Regimental Court Martial under the provisions of these Articles of War, and shall have the like powers.

The provisions of these Articles of War which relate to a Court Martial held in a Regiment or Corps shall, in all practicable cases, be taken to apply to a Court Martial held in a Detachment.

No Officer on detached command of less than three Troops or Companies, or of a Detachment not numerically equal to three Troops or Companies, and not being on the line of march or on board a ship or other vessel, shall carry into effect any punishment awarded by a Court Martial held by his order until the sentence shall have been confirmed by the Officer Commanding the Regiment or Corps to which the offender belongs, or by any other nearest Superior Officer holding a command of not less than a Regiment, who is hereby authorized to confirm every such sentence in like manner as an Officer Commanding a Regiment or Corps might do. Provided that in detached situations beyond the Sea, or out of the British Territories in India, or when on service in the field, or in cases where an immediate example is necessary, and reference cannot be made to such Commanding or Superior Officer without detriment to the service, the Officer Commanding such Detachment may exercise the powers which are vested in an Officer Commanding a Regiment or Corps.

Clause 2.

The Commanding Officer of any Detachment of not less than three Troops or Companies, or of any Detachment numerically equal to or greater than three Troops or Companies; and the Commanding Officer of any European Detachment to which native details are attached (of whatever strength or number such European Detachments or such native details may be); and any Commissary of Ordnance or other Commissioned Officer in charge of any Arsenal, Ordnance Establishment, or any Camp Equipage Depôt, may summarily try any offence against these Articles of War, committed by any person under his command or who is subject to such Articles (not being a Commissioned Officer); and may on conviction sentence such offender and carry out such sentence without confirmation or any further authority; provided that such sentence shall not exceed the powers of a Regimental Court Martial.

In detached situations beyond the Sea, or out of the British Territories in India, or when on service in the field, or in cases where an immediate example is necessary, and a Court Martial cannot be convened under Clause 1 of this Article without detriment to the service, and reference cannot be made without such detriment to the Officer Commanding the Regiment or Corps to which the offender belongs, or to any other Superior Officer holding a command not less than that of a Regiment who is hereby, in case of such reference, authorized summarily to try, and in case of conviction to sentence the offender and to carry out such sentence under this Clause as if the offender had been under his command; the Officer Commanding any Detachment, though of less than three Troops or Companies or not numerically equal to three Troops or Companies, may exercise the powers, of summary trial, of sentencing the offender, and of carrying out such sentence described in this Clause.

Any Commanding Officer or other Officer holding a trial under this Article shall be deemed a Court Martial, and the words "Court Martial" in these Articles of War, shall be deemed to include such Commanding Officer or other Officer holding a trial.

The proceedings of such summary trial shall be conducted, so far as may be practicable, and shall be recorded in the same manner as is provided in Article 81 for summary trials by an Officer Commanding a Regiment or Corps, and shall, in like manner, be signed and forwarded to the Officer Commanding the Division within which such Detachment shall be at the time, who is hereby authorized to set aside the trial for the same reasons that an Officer Commanding a Division is authorized by Article 81 to set aside a trial by an Officer Commanding a Regiment or Corps. Provided that every sentence so awarded by an Officer Commanding any such Detachment or by any other Officer holding a trial under this Article may be carried out without waiting for its approval by the Reviewing Officer.

ARTICLE 117.

No person to be tried a second time for the same offence.

No person who shall have been acquitted or convicted by a Court Martial of any offence, shall be liable to be tried a second time by the same or any other Court Martial for the same offence. Provided that any person may be tried for the offence of murder, and

punished for that offence, notwithstanding he may have been tried and punished for the act which caused death, if at the time of his conviction for the said act death shall not have resulted, or shall not have been known by the Court which passed sentence to have resulted.

When any person subject to these Articles of War shall have been found guilty by a Court Martial of any Military offence, such Court Martial shall enquire into and receive evidence of any previous conviction of such person before a Court Martial or a Court of Justice, and shall enquire into the general character of such person, if a Soldier, for the purpose of apportioning the punishment to which he is liable to be sentenced for the offence of which he has been so found guilty. And it shall not be necessary to give any notice to such person, previously to his trial that such evidence will be received.

ARTICLE 166.

Regulations respecting Bazar and Cantonment Police, and Punchayets, declared in force.

The Regulations by which in any Presidency the Office and powers of Commissariat Officers, or Officers in charge of the Police in any Cantonments, or Superintendents of Military Bazars, are at present defined and controlled; or by which Punchayets are constituted and guided, shall continue to be in full force, and to be observed at the several Presidencies respectively.

Construction.

III. This Act shall be read and taken as part of the said Act XXIX of 1861.

STATEMENT OF OBJECTS AND REASONS.

THIS Bill is intended to amend the Articles of War, Numbers 3, 82, 73, 78, 82, 117, and 166, as contained in Act XXIX of 1861, and is based on the recommendation of the Government of India in the Military Department. The accompanying papers shew the Articles as they stand in the Act, contrasted with the same Articles as proposed to be revised. The Bill takes the form of a repeal of the existing Articles, and the substitution for them, in Act XXIX of 1861, of new Articles of the same numbers. A shorter form might have been adopted, especially in respect of Article 78, but it would not have been so clear and practically useful to the Military Authorities.

In explaining the alterations, it will be convenient to follow the order of the Articles as mentioned in the accompanying papers, rather than the order in which they appear in the Bill.

Article 166.—Certain words in this Article, namely, the words, "or by which jurisdiction is given to Courts Martial over offences committed by persons amenable to the Articles of War, within certain limits beyond or around Cantonments," have effect in the Bombay Presidency alone, and appear to keep alive a Military jurisdiction under Regulation XXII of 1827 of the Bombay Code; whereas it was the undoubted intention of the Legislature, under Article 124 of Act XXIX of 1861, to provide that any offence committed by any Officer or Soldier within the jurisdiction of any Criminal Court in India, and triable by such Court, should be tried by such Court only. But these words in Article 166 appear to be inconsistent with that intention, and the Bombay Government desire the removal of all doubt by the omission of the words from Article 166, and the Military Authorities and Government of Madras, as well as the Commander-in-Chief and the Supreme Government, assent to the omission. The Honorable Mr. Erskine has also suggested, with the approval of the Government of Bombay, the repeal of parts of Regulation XXII of 1827, and the whole of Regulation II of 1829, of the Bombay Code.

Article 82.—Considerable doubt seems to have arisen as to the real meaning and intention of this Article, chiefly with respect to the powers of Officers in Command of Detachments. The subject was fully considered by the Military Authorities at the different Presidencies, and a suggested form of amendment, which was circulated by the Government of India, was assented to. The principal effect of the amendment is to define distinctly what Commanding Officer is meant in the 4th paragraph of Article 82 of Act XXIX of 1861, which now stands at the commencement of Clause 2 of the amended Article, and to give summary powers to an Officer Commanding a Detachment in a situation beyond the Sea, or out of the British Territories in India, or when on service in the Field; or in cases of emergency. In the 3rd paragraph a clerical error, which appeared in the original Draft Articles sent from the Military Department in 1860, in all other copies of the Bill, and in Act XXIX of 1861, is corrected by the introduction of the word "not" before "numerically" in the 3rd line.

Article 73.—This Article is only altered by the words "no sentence adjudging or involving forfeiture of additional pay," being substituted for the words, "no sentence including forfeiture of additional pay," and the words, "sanctioned by the Commander-in-Chief," being substituted for the words "confirmed by the Commander-in-Chief." The reasons for these changes appear in the letter from the Adjutant-General, Fort Saint George, dated 20th March 1862, to the Secretary to the Government of India.

Article 78.—The only alteration in this long Article is the substitution of the word "sentenced" for "subjected," in the last paragraph. The reasons for this change appear in the same letter of the Adjutant-General of Fort Saint George.

Article 3.—The words, "and the Commander-in-Chief shall have power to reduce any Non-Commissioned Officer to the ranks," are added, on the suggestion of Sir Hugh Rose, as conveyed in the letter of Colonel K. Young, Judge Advocate-General, dated 9th May 1862.

Article 117.—The words, "and it shall not be necessary to give any notice to such person, previously to his trial, that such evidence will be received," are here substituted, at His Excellency's suggestion, conveyed in the same letter, for the words, "but no such evidence shall, in any case, be received until the Court shall have ascertained that such person had, previously to his trial, received notice of the intention to produce such evidence on the same. And it is hereby directed that such notice shall be given to all persons previous to trial." The reason for this change is stated in Colonel Young's letter. The notice of trial is, in fact, a notice that evidence of this description will be given.

Article 82.—The only other alteration is in this Article, and consists merely in the substitution of the term "Religious feelings" for "Religious prejudices." This change is in accordance with Section 298 of the Penal Code.

Extract from the Proceedings of the Government of India, in the Financial Department, under date the 2nd January 1863.

READ a Despatch from the Right Hon'ble the Secretary of State No. 193, dated the 25th November 1862.

RESOLUTION 1.—His Excellency the Governor General in Council is pleased to resolve that the following Extract from the Despatch mentioned above be published for general information:—

"The Memorials from the Covenanted Civil Servants of the several Governments in India on the subject of their retiring Annuities, and of the Pensions of their Widows and Orphans, together with your Financial letter, dated the 7th March 1862, No. 40, the Financial letter from Madras, dated the 8th February 1862, No. 2, the public letter from Bombay, dated the 12th April 1862, No. 13, and the several Minutes of Members of the respective Governments in India in reference thereto, have been considered by me in Council.

"It does not appear to be necessary to give a detailed reply to the observations of your Government, or to the requests contained in the several Memorials, as the result of the consideration by Her Majesty's Government of those observations and Memorials will be apparent from the decision which I have now to communicate.

"In regard to the period of service which is in future to be required as a qualification for an Annuity, Her Majesty's Government see no reason for altering the period of twenty-five years service and twenty-two years residence (including one year's sick leave if such has been taken as at present), but they cannot allow any future special leave of absence from India on private affairs to count as residence.

"No sufficient ground appears to have been assigned for increasing or altering the amount of the full Annuity, which must therefore remain at £1,000, or of the amount of the percentage of deduction from salaries which will continue at four per cent., the amount of subscriptions to accumulate, as at present, at six per cent. interest.

"Her Majesty's Government are of opinion that there is ground for making some alteration in the terms on which Annuities are granted, and they have decided that a Civil Servant who has completed the prescribed period of service and residence shall be granted by Government an Annuity of £600; and that he shall have the option of taking in addition an Annuity of the amount not exceeding £400, which his accumulated subscriptions with interests will purchase according to the Table now in force, or of adding to his subscriptions such a sum as will purchase an Annuity of any amount which, added to the £600 granted by Government, will not exceed the

full Annuity of £1,000. They have also decided that Annuities, without limitation as to number, may be granted on application, at any time, to Covenanted Civil Servants who have completed the prescribed periods of service and residence and whose resignations of the Service have been accepted, and that those Civil Servants who have obtained Annuities since the Memorials were sent in be admitted from this date to the benefit of the arrangement now sanctioned.

"It must be clearly understood that in the event of the death of a Subscriber his accumulated subscriptions will lapse, and that no refund of subscriptions can, under any circumstances, be allowed.

"Her Majesty's Government are also disposed to make some provision for Covenanted Civil Servants who, having devoted a portion of their lives and energies, and especially those years during which men qualified for a profession to the service of Government, are deprived of the fruits of their labor by sickness which may compel them to resign the Service before they have become entitled to an Annuity. In any such cases, when clearly proved by a Medical Certificate, the following Pensions may be granted :—

If under five years service a grant of £500.

Of five years service and under ten an Annuity of £150.

Of ten years service and under fifteen any Annuity of £250.

Of fifteen years service and under twenty an Annuity of £350.

Of twenty years service and under twenty-five an Annuity of £450.

"Her Majesty's Government are willing to sanction the payment of all the Annuities quarterly and to the date of decease with the same option as to payment in India or England as at present."

2. His Excellency in Council is also pleased to direct the publication of the following paragraphs of the same Despatch containing Orders regarding the claim to assistance from the State preferred by the Bengal Civil Fund, the Madras Civil Fund (Charity Branch), and the Bombay Civil Fund (Provident Branch) :—

"Her Majesty's Government have no intention of withdrawing the aid which has been hitherto granted, and they see no reason for increasing it. If the Subscribers prefer it there would apparently be no objection to granting, in lieu of the present indirect aids, an annual sum equal to the average of the donations during the past five years, the future interest on the balance of the Funds being in that case fixed at five per cent., and the remittance of the sums required by the Funds in England being made at the same rate of exchange as that fixed annually for the adjustment of transactions with the British Exchequer.

"These changes may severally be brought into immediate operation, and a copy of this Despatch will be forwarded to the Governments of Madras and Bombay, respectively, for the information and guidance of those Governments."

EXTRACT from the Proceedings of the Government of India, in the Financial Department, dated 3rd January 1863.

READ again the undermentioned papers regarding the grant of Deputation Allowance to Acting Police Officers in Oude and British Burmah:—

Letter from Officiating Civil Pay Master, Fort William, No. 7, dated the 20th May 1862.

Letter from Officiating Civil Pay Master, Fort William, No. 3883, dated the 11th June 1862.

Extract, Home Department, No. 2497, dated the 17th May 1862.

Order, No. 3860, issued from this Department on the 5th June 1862.

Letter from the Honorary Secretary to the Committee of Secretaries, dated the 19th July 1862.

Resolution, No. 628G, passed in this Department on the 30th September 1862.

Read Endorsement from the Home Department, No. 4504, dated the 25th August 1862, forwarding, for favorable consideration, a recommendation from the Chief Commissioner of British Burmah, that a Superintendent of Police, acting for another in a higher grade, may be permitted to draw deputation allowance.

RESOLUTION.—The Rule which, in those Departments of administration where appointments of the same class and title are sub-divided into grades of different rank and pay, prohibits the grant of deputation allowance to an Officer acting in a higher grade of his own class was originally introduced, His Excellency the Governor General in Council observes, to meet the cases of Deputy and Assistant Commissioners in Non-Regulation Provinces, and, in the absence of any special Rule, it has been hitherto made applicable to District Superintendents and Assistant Superintendents of Police. But, considering the superior salaries and prospects of Deputy and Assistant Commissioners, and the hardships which generally attend the application of the class rule to Police Officers, His Excellency in Council is pleased to decide that all Superintendents and Assistant Superintendents of Police, when acting in higher grades of the class to which they may in their substantive appointments belong, shall receive deputation allowance.

2. In continuation of this subject, His Excellency in Council is hereby pleased to direct that in all Presidencies and Provinces to which Act V. of 1861 has been extended, the same Rule of limitation shall be observed, which, by Resolution dated 30th September last, was laid down for Oude, *viz.*, that the allowances of an Assistant Superintendent of Police acting for a Superintendent shall in no case be allowed to exceed the salary of a Superintendent of the lowest grade.

ORDERED, that a copy of the foregoing Resolution be forwarded to the Home Department for information and further orders, with a copy of the papers received from that Department under Endorsement No. 4504, dated the 25th August 1862.

No. 2G.

Ordered also, that a copy of the above Resolution be forwarded, for information and guidance, to the Civil Pay Master, North-Western Provinces.

Ordered further, that the above, and the Resolution No. 628G, passed in this Department on the 30th September last, be published for general information in the *Government Gazette*, and that copies thereof be forwarded, for information and guidance, to the Foreign Department, and the—

Governments of Madras, Bombay, Bengal, the North-Western Provinces, and the Punjab.

Civil Pay Masters in Bengal, Madras, Bombay, and the Punjab.

No. 628G.

Resolution dated 30th September 1862.

The Chief Commissioner of Oude represents that when an Assistant Superintendent of District Police in that Province is appointed to officiate for a Superintendent of the first or second grade, he sometimes draws, under existing Rules, a deputation allowance which raises his total emoluments above those of third or fourth grade Superintendents

His Excellency the Governor General in Council observes that, as the grades of salaries in the Oude Police are personal, not local, an Assistant Superintendent on his first promotion to a Superintendency would receive no more than the salary attached to the lowest grade. To allow him to draw a higher salary when only officiating as Superintendent would be anomalous, and would place the permanent Superintendents in lower grades in a disadvantageous position.

His Excellency in Council is therefore pleased to direct that the allowances of an Assistant Superintendent of Police in Oude, appointed to officiate as Superintendent, shall not exceed the salary attached to the lowest grade of Superintendent.

Government of Bengal.

Report on the present condition of the Bethune School.

From PUNDIT ESHWAR CHUNDRA SHURMA, Honorary Secretary, Bethune School Committee, to the HON'BLE A. EDEN, Officiating Secretary to the Government of Bengal,—(dated the 15th December 1862.)

SIR,—I AM directed by the Bethune School Committee to acknowledge the receipt of your letter No. 1586, dated the 25th August last, and, with reference to the several points on which information is required by His Honor the Lieutenant-Governor of Bengal, to state as follows:—

Reading, Writing, Arithmetic, Biography, Geography, and History of Bengal, with Gallery Lessons on Objects from the course of study. Needle-work and Sewing are likewise taught. Instruction is imparted to the pupils through the medium of the Vernacular. The tutorial staff consists of a Head Mistress, with two female Assistants and two Pundits. Besides general superintendence, the Head Mistress teaches Needle-work to the First and Second Classes, and revises the lessons given to them by the Pundits. The Second Mistress teaches Needle-work and Sewing to the remaining Classes, assisted by the Third Mistress. The Third Mistress teaches in addition the Class consisting of beginners in which the Phonetic system is being experimentally introduced. The Pundits teach all the Books read in the several Classes. A copy of the Rules is appended (A.)

A Statement (marked B) shewing the annual cost of the Institution is hereto annexed. It will be seen that the Return begins only from October 1851, when Lord Dalhousie took charge of the School, though the School itself commenced operations in 1849. The accounts for the intervening period were kept by the late lamented Mr. Bethune.

As regards the number of admissions, the Committee beg to observe that there has been a steady increase from 1859. The number at present on the Rolls is ninety-three. It would have exceeded 100 ere this, if the Committee had not been obliged to reject applications for admission for some time from want of the means of conveyance. This inconvenience has since been removed by the provision of a third carriage, and it is hoped that the anticipated increase will soon take place. It may be as well to mention, with reference to this third conveyance, that Rajah Pertap Chunder Sing Bahadoor presented an Omnibus, and that some of the Members of the Committee, and a few other Native freinds of female education, subscribed for a pair of horses.

Statements marked C. and D furnish the information required in your third and fourth questions.

The Statement marked E. shews the subjects taught in the First Class. As regards the proficiency attained by that Class, the Committee regret to observe that, owing to early withdrawals, the majority of the pupils are unable to prosecute their studies up to the desired standard. In cases, however, where girls are admitted at an early age, and permitted to remain at School till the age of eleven or twelve, they attain a fair amount of knowledge in the different subjects taught.

From the manner in which the number of admissions has recently gone on increasing, the Committee trust that the Institution is arising in the estimation of those classes of the community for whose benefit it was originally established. The wealthier classes of Native Gentlemen do not indeed seem as yet to be availing themselves directly of the advantages offered by the School; a very few admissions have as yet been made from those Classes. The Committee,

however, are happy to believe that home education for females is being resorted to in many families amongst the wealthier classes; and this result, they believe, is in a considerable degree owing to the beneficial influence of the Bethune School.

If a larger number of conveyances were at the disposal of the Committee, the School might be made more extensively useful. It will be understood, however, that if the number of children should exceed a certain limit, increased resources will then be required in order to supply an extra staff of instructors, &c.

The Committee take this opportunity of adding that the appropriation in detail of the allowance made to the School is in many ways inconvenient. If the detailed appropriation were left in the hands of the Committee, the distribution of funds might occasionally be altered with advantage in minor points. They beg therefore that in future the School Grant may be sanctioned in lump instead of in detail.

With reference to Rule 22, which directs that the Rules of the School can only be altered or rescinded with the sanction of Government, the Committee beg further to recommend that that part of Rule 15 which prescribes that no male person whatever except the Pundit is permitted to enter the room where the children are taught without the sanction of the President may be altered by the insertion of the words—"the Members of the Committee," and between the word "except" and the words "the Pundit."

From S. C. Bayley, Esq., Officiating Junior Secretary to the Government of Bengal, to the Honorary Secretary to the Bethune School Committee,—(dated Fort William, the 29th December 1862.)

Your Report, dated the 15th instant, on the present condition of the Bethune School, having been laid before the Lieutenant-Governor, I am desired by His Honor to express his thanks to the Committee for their careful and efficient superintendence under which the School has gradually improved and risen in the estimation of the Hindoo community of Calcutta, as well as for the liberality with which they have contributed towards its support.

2. Estimated by the numbers who attend the School, the cost of it, I am to observe, is very great. The average cost of each girl during 1861 was more than Rupees 93, and this is the more striking when it is considered that the children leave School at a very early age, and that the instruction they receive is of a very elementary kind.

3. Nevertheless the money, the Lieutenant-Governor believes, is well spent in inducing the Hindoos of Calcutta, especially those who belong to the higher classes of society, to regard the education of their daughters as an essential element of their own social elevation, in rendering the idea of educating women familiar, and the practice of it fashionable among those who lead public opinion on such subjects, and in setting a practical example which has already been followed to some extent, and which may fairly be expected to exercise a wider and daily increasing influence.

4. The Lieutenant-Governor looks forward to the time when no Hindoo of respectable family will consider that he has done justice to his daughters, or fulfilled his duty to his country in respect to them, until he has given them as good an education as the means within his reach afford.

5. The Lieutenant-Governor fully concurs with the Committee in thinking that the influence of the Bethune School is by no means confined to those who are educated within its walls, and that it has led many Hindoos, who otherwise would not have thought of educating their daughters at all, to provide instruction for them at home. It is natural that those whose means enable them to employ a Governess or a Teacher in their families should prefer this course to that of sending their female children to School; but it may be well for every Hindoo gentleman to consider whether, if it be found by experience that the girls who attend the Bethune School gain nothing but good from the instruction they receive there, and from the beneficial influence of mutual companionship and common studies under the guidance of a capable and conscientious Head Mistress, it would not be well, in the present condition of Hindoo society, to give his daughters the benefit of a more systematic education than they can obtain at home, and at the same time publicly to evince his

approval of the principle, and encourage others to follow the same course.

6. It is stated in the Report that the number of girls attending the School would have been greater if the Committee had not been obliged to reject applications for admission by want of means of conveying so many girls to School. The Lieutenant-Governor does not think that any applications for admission ought to be rejected on this ground. The Rules declare that parents are expected to send their children to School, and that a carriage and palanquin are kept up only for those who cannot afford to provide conveyance of their own. It must always be borne in mind that the School as it extends will have to support itself to a certain extent, and that, as the number of girls increases, and female education becomes a recognized necessity among Hindoos, they will have not only to send their girls to School at their own expense, but contribute something in the shape of a fee towards the expense of their education. Every child, therefore, whose admission is applied for, and who is eligible under the Rules, should be admitted on the understanding that, if the Committee cannot convey her to School, she must find her own way there.

7. The time has now come when the operations of this School may well be made more generally known than hitherto, and when its results may usefully be embodied in the Annual General Education Report. With this view Mr. Atkinson, the Director of Public Instruction, should be made a Member of the Committee, and the Committee should be requested to furnish to the Director the same Forms and Returns that are required from other Government Schools.

8. I am to convey the Lieutenant-Governor's sanction to the proposed alteration in Rule 15 of the Rules of the School, and to state that there seems no necessity for giving the Committee a general authority to distribute the salaries of the Teachers otherwise than in accordance with a sanctioned scale.

CIVIL PROCEDURE (BRITISH BURMAH.)

The Hon'ble MR. HARINGTON presented the Report of the Select Committee on the Bill to define the jurisdiction, and to regulate the Procedure of the Courts of Civil Judicature in British Burmah, and to provide for the extension of certain Acts to the said Territory.

APPEALS TO THE PRIVY COUNCIL (NON-REGULATION PROVINCES.)

Also the Report of the Select Committee on the Bill to regulate the admission of Appeals to Her Majesty in Council from certain judgments and orders in Provinces not subject to the general Regulations.

STRAITS SETTLEMENT POLICE BILL.

Also the Report of the Select Committee on the Bill to amend the Law for regulating the Police of the several Stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca.

TREATY WITH THE KING OF BURMAH.

The Hon'ble MR. MAINE moved for leave to introduce a Bill to give effect to certain provisions of a Treaty between His Excellency the Earl of Elgin and Kincardine, Viceroy and Governor-General of India, and His Majesty the King of Burmah. He said that the Council were aware that a Treaty had been negotiated with the King of Burmah after considerable effort, and the exhibition of considerable diplomatic skill, by Colonel Phayre. The Treaty promised great advantages, not only in the improvement of the commercial relations between the British and Burmese Territories, but also in affording facilities of communication through Burmah with the Chinese Provinces. The principle on which the Treaty was based was that of equivalent concession on each side. Some of the provisions would require legislative action, and the Bill was intended to give effect to them. The first of these was Article 4, which was as follows:—"When goods are imported into Rangoon from any British or Foreign Territory, and declared to be for export by the Irrawaddy River to the Burmese Territory, the English Ruler shall, provided bulk is not broken, and he belives the manifest to be true, charge one per cent. on their value, and if he so desires shall allow them to be conveyed under the charge of an Officer until arrival at Maloon and Menhla. The Tariff value of goods shall be forwarded yearly to the Burmese Ruler. If such goods are declared for export to other Territories and not for sale in the Burmese Territories, the

"Burmese Ruler shall, if he believes the manifest "to be true, not cause bulk to be broken, and "such goods shall be free of duty." The Bill would recite this Article and enact its provisions in more full and somewhat more technical language. The other was Article 8—"Should "the British Ruler, within one year after the "conclusion of this Treaty, abolish the duties now "taken at Thayet Myo and Tounghoo, the Bur-"mese Ruler, with a regard to the benefit of the "people of his country, will, if so inclined, after "one, two, three, or four years, abolish the duties "now taken at Maloon and Tounghoo (in the "Burmese Territory".) In this Article there was not the appearance of perfect reciprocity. But the ideas of the King of Burmah as to the advantages of the remission of taxes were probably not the same as ours. Colonel Phayre, however, considered that the most effectual method of inducing the Burmese Ruler to remit his Frontier duties was to exhibit on our part a readiness to remit ours. And the Bill, therefore, would authorize the Governor-General to remit the duties now levied at Thayet Myo and Tounghoo.

The Motion was put and agreed to.

Administration of Civil Justice (Darjeeling) Bill.

The Hon'ble Mr. Maine moved for leave to introduce a Bill to improve the administration of Civil Justice in the Settlement of Darjeeling. He said that this Bill was introduced at the instance of the Bengal Government, who represented to the Governor-General in Council that no appeal was allowed from the decisions of the Superintendent of Darjeeling, and that it was desirable to place the Judicial Administration of that Settlement under the Sudder Court. In considering the question the Government of India sought to determine the best mode of giving effect to the main object of the Bengal Government without adding unnecessarily to the business of the highest Court of appeal. It was the opinion of that Government that the jurisdiction of the Sudder Court, on its Civil side, should be confined, as much as possible, to the settlement of disputed points of law and practice, or usage having the force of law, and that, as a rule, its appellate jurisdiction should be exercised in respect of questions of fact only in cases in which the amount or value of property in dispute was comparatively large. The Government of India also suggested, at the same time, that the administration of Civil Justice in Darjeeling might be placed on a satisfactory footing by vesting the Superintendent with a final jurisdiction on points of both law and fact in all cases of the nature of those described in Section III. of Act XLII. of 1860 (the Small Cause Court Act), with power to grant a new trial subject to the provisions contained in Section XIII. of that Act, and of stating a case to the Sudder Court under Sections XIV. to XIX. Also by allowing, in all other suits not exceeding Rupees 5,000 in amount or value, a regular appeal from the decision of the Superintendent to the Judge of Dinagepore, who, on the Criminal side of his Court, tries commitments of the Superintendent, and hears appeals from his orders as Magistrate; and, lastly, by allowing, in the regular appeals so decided by the Judge, a special appeal from his decisions to the Sudder Court at Calcutta under the rules for the admission and decision of special appeals contained in the Code of Civil Procedure. In suits exceeding Rupees 5,000 in amount or value (it was observed by the Government of India) the rule obtaining in Regulation Districts might be followed, which would allow a regular appeal from the decisions of the Superintendent to the Calcutta Sudder Court. It was intimated at the same time that, in the opinion of His Excellency the Governor-General, the Code of Civil Procedure, with necessary modifications, might, simultaneously with the introduction of the measures abovementioned, be extended to Darjeeling. The views above stated met with the concurrence of the Secretary of State for India, who stated, however, that legislation to extend the jurisdiction of the High Court, which would doutless have been established meanwhile, should be undertaken by the Council of the Governor-General. A draft Bill had since been prepared by the Bengal Government in conformity with the views of the Government of India, and it was proposed to adopt the same with some few modifications. It was intended that the Code of Civil Procedure shall be extended to Darjeeling so as to come into operation when this Bill becomes law.

The motion was put and agreed to.

Municipal Assessment (Straits Settlement) Bill.

The Hon'ble Mr. Maine introduced the Bill to authorize the extension of the term of office of the Municipal Commissioners in the Settlement of Prince of Wales' Island, Singapore, and Malacca, and moved that it be referred to a Select Committee, with instructions to report in three weeks.

The Motion was put and agreed to.

Emigration to Saint Croix.

The Hon'ble Mr. Maine introduced the Bill relating to Emigration to the Danish Colony of St. Croix, and moved that it be referred to a Select Committee, with instructions to report in three weeks

The Motion was put and agreed to.

The following Select Committees were named:—

On the Bill to authorize the extension of the term of office of the Municipal Commissioners in the Settlement of Prince of Wales' Island, Singapore, and Malacca,—The Hon'ble Messrs. Harington, Erskine, and Roberts.

On the Bill relating to the Emigration to the Danish Colony of St. Croix.—The Hon'ble Messrs. Erskine, Fitzwilliam, and Ellis.

Navigation of the River Indus.

From the Agent and Superintendent, to the Deputy Consulting Engineer for Railways in Sind, Kurrachee,—(dated 28th June 1862.)

ACCORDING to your instructions, I have now the pleasure to place before you the information which has been gleaned from the records of Her Majesty's Flotilla from the time of its first establishment concerning all the Government Vessels which have been on the river.

2. It will be seen from Statement A. that the first Steamers placed on the Indus were the *Snake* and *Rove* in the year 1835, since which time the Flotilla has steadily increased in strength.

3. The only accident which resulted in total loss befel the *Meteor* in 1853 on the rocks opposite Jerruck. In connection with this mishap I must state that it is universally believed to have happened through the carelessness of those to whom the Vessel was entrusted. Even after she had struck it was the opinion of experienced men that, had a little common intelligence and energy been called forth, the Vessel might have been saved; the Master who was in command of the *Meteor* at the time of her disaster was tried by Court Martial and has never since held command of another boat, while the Pilot who was on board was summarily dismissed the Service. At the time of this accident the set of the river was towards these rocks, consequently some care was required on the part of the Master and Pilot, but this does not appear to have been bestowed. The spot where the wreck occurred has since been called "Meteor Rocks."

4. The next accident on record occurred in April 1859, when the *Sir H. Lawrence* ran upon a snag in the Delta some five and thirty miles from the river's mouth, which ripping open her bottom caused her to sink; she was recovered in a short time, and after the necessary repairs were made she again resumed her duties, and still continues an effective boat. The place where this injury was received has since been known as the "Lawrence Reach."

5. In the year following 1860 the *Chenaub* met with a similar fate from precisely the same cause some twenty miles or so above Kotree. This boat also sank, and, as in the case of the *Lawrence*, was got up and repaired. Towards the middle of the same year this ill-fated Vessel missed the channel at the mouth of the Hujamra during flood tides, when from the spread of water the place was almost a sea, and on the tides receding she was left lying on an inclined plane with her back broken; she was got off at the next rise of tide and taken into the Kurrachee Dock, where she was repaired and placed on the line.

6. These are the only accidents of any importance that have occurred on the Indus since the establishment of the Flotilla. Running aground is a common occurrence, for a single night often brings a change in the river, but for the vexatious delays which sometimes attend these groundings they would be undeserving of even passing notice.

7. The river has lately been put under conservancy, and there will now be less danger of Vessels running against snags.

8. The Flotilla can boast of a really efficient body of Pilots, men who have spent the greater part of their lives on the river and who have found it to their interest to make themselves acquainted with the peculiar nature of the stream, and who, when not upon actual duty, go up and down their boats marking the changes which chance may bring, and so almost making certain of guiding the boats free of all great danger. As I said before a single night may bring a change in the river, but this is only in the way of sand banks which may cause the Vessel to ground for a time.

9. Since 1859, when private Companies began to ply Steamers upon the Indus, none of their boats have met with any very serious accident in the river.

10. A Tug Steamer belonging to this Flotilla was injured by grounding in one of the Creeks in the Delta; and the train Steamer *Indus*, the property of the Oriental Inland Steam Company, foundered during the same year (1860) at sea, between Kurrachee and the mouth of the River Indus.

11. It may be remarked that the only total loss which has yet occurred, that recorded in paragraph 3, was in the Delta, and that the only very serious accident above the Delta since 1839 was that of the *Chenaub*, of which particulars are given in paragraph 5.

12. From Kootree to Mooltan there is not, as far as it is known, with two exceptions, a rocky piece of bank or a stone in the river's bed. The banks that fringe the river throughout are on both sides composed of alluvial deposit, while the bed of the stream consists of sand, ooze, and mud.

13. The exceptions noted are at Sukkur and Schwan, at the latter place the western or right bank is rocky for a distance of about two miles. At Sukkur for three miles both banks of the river are formed of a limestone ledge. In mid-channel stands a small islet upon which the Fort of Bukkur has been built. This portion of the river is known as the Sukkur Pass.

14. The facts noted in the two last paragraphs have doubtless something to do with the comparative safety with which, for so many years, a river so fluctuating in its channels and varying in its depths has been navigated by Steamers.

15. For detailed information of the Government Steamers which have been at work upon the river from 1839 to date I refer you to Table A.

LEGISLATIVE.

The following Report of a Select Committee was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 7th January 1863 :—

HOME DEPARTMENT.

Legislative.

We, the undersigned, the Members of the Select Committee of the Council of the Governor General of India for the purpose of making Laws and Regulations, to whom the Bill to define the jurisdiction, and to regulate the Procedure of the Courts of Civil Judicature in British Burmah, and to provide for the extension of certain Acts to the said Territory was referred, have the honor to report that we have considered the Bill and the papers mentioned in the margin.

1. Resolution, Foreign Department, dated 4th November 1862.
2. From Officiating Under-Secretary, Government of India, Foreign Department, to Commissioner of Pegu, dated 4th November 1862.
3. Statement of Appeal and Original Suits ●
4. From Secretary to Chief Commissioner, British Burmah, to Secretary, Government of India, Foreign Department, dated 29th March 1862.
5. From Secretary, Government of India, Home Department, to Chief Commissioner, British Burmah, dated 26th April 1862.
6. From Ditto, to Advocate General, dated ditto, and enclosure.
7. Opinion of Advocate General, dated 5th July 1862.
8. From Chief Commissioner, British Burmah, to Secretary, Government of India, Foreign Department, dated 31st July 1862.
9. From Secretary, Government of India, Home Department, to Chief Commissioner, British Burmah, dated 29th August 1862.
10. From Secretary, Chief Commissioner, British Burmah, to Secretary, Government of India, Home Department, dated 18th September 1862, and enclosures.

We think that some modifications may be made in Section VII, with the view of limiting a second appeal to the Divisional Commissioner to cases in which the decision of the Court below may appear erroneous, or deserving of further consideration, on a point material to the merits of the case. We also recommend that provision be made for copies of the judgment appealed against being filed, and for a rejection of an appeal by a Commissioner having the effect of a confirmation of a decree of the Court below.

This Section, therefore, we recommend should be passed in the following form :—

"The Court of the Commissioner shall have "power to hear and determine appeals from the "original decisions, and where an appeal is allowed "by the Code of Civil Procedure, or by this Act, "from the orders passed by the Courts of the Deputy Commissioners in the Division of such "Commissioner. The Commissioner may also "receive a second appeal from the decisions of the "Courts of the Deputy Commissioners in his "Division, passed in regular appeal, reversing or "modifying the decision of the Court of original "jurisdiction on a point material to the merits of "the case, if on a perusal of the grounds of "appeal and of the judgments of the Courts below, copies of which judgments shall be filed with "the petition of appeal, a further consideration of "the case shall appear to him to be requisite for "the ends of justice. The decision of the Commissioner on such second appeal, whether for "confirming, modifying, or reversing the decision "of the lower appellate Court, shall be final, and no "special appeal shall be allowed in such case to the "Chief Commissioner from the decision either of "the Deputy Commissioner, passed in regular "appeal, or of the Commissioner of the Division "passed on such second appeal. The rejection of "an appeal by the Commissioner on a second "appeal shall have the same effect as a confirmation of the decree of the lower Court."

In Section VIII we recommend that the words "and in Section XVIII of this Act" be inserted after the word "Section" in line 4.

Major Sparks in his Memorandum, dated the 12th September 1862, adverts to a point on which he considers some modification of the Code of Procedure, as regards the hearing of appeals in British Burmah, desirable. He says "in my "former remarks I abstained from noticing one "point in which, in my opinion, the Bill might "be materially improved. I did so because I left "a diffidence in proposing a return to an old practice which the Legislature, doubtless for some "good reason unknown to me, abrogated in "passing Act VIII of 1859. I mean the power "of an Appellate Court to confirm a decree "without summoning the respondent. Every

" day, however, strengthens my conviction of the " hardship the present law inflicts upon many " suitors in this province; and as the Govern- " ment is about passing an exceptional Act speci- " ally adapted to the peculiar circumstances of " British Burmah, I consider that I ought to " take the opportunity of bringing this subject to " notice. I have several times already had appeals " from the Districts of Prome and Tounghoo, " not to mention the others, where there were no " grounds for appeal whatever, nevertheless I have " been obliged to delay the decision of the case " until a notice could be served on the respondent " and a return to it received; this alone, in cases " from Tounghoo, occupies from a month to six " weeks. In many cases the respondents, not " knowing how to appoint a pleader of my Court " to appear for them and fearing that if they fail " to appear they may lose their cause, have come " down themselves all the way to Rangoon, at " a fearful expense and loss of time, merely to be " told that the appellant's appeal is groundless, " and they may go back again. In other cases " they have retained pleaders of my Court to " appear for them, but as the pleaders always in " small cases demand more than the fee allowed to " be charged as costs of suit, the respondent does " not recover from the appellant nearly the " amount the appeal has cost him. Most of the " appeals before me are in suits for land, the value " of which at a year's tax is generally under 50 " Rupees, the pleader's fee allowed as cost of suit " upon this sum is 2 Rupees, whereas a respondent " retaining a pleader of my Court would certainly " not have to pay the most moderate of them less " than 25 Rupees, and the greater number of " them much more. The difference in this case " between 2 Rupees and the sum paid to the " pleader would be a dead loss to the respondent."

Concurring with Major Sparks, we recommend that the following Section be introduced as Section XV:—

" In cases of appeal preferred to a Deputy " Commissioner under Section VI, or to a " Commissioner under Section VII of this " Act, it shall not be necessary to summon " the respondent in the first instance, and if " upon the perusal of the judgment of the " Court below of the whole or any part " of the record of the original suit, and of the " petition of appeal in the presence of the " appellant, or of his duly constituted agent, the " Deputy Commissioner or the Commissioner, as " the case may be, shall see no reason to alter the " decision appealed from, it shall be competent to " him to confirm the same, recording his reasons " for rejecting the appeal. In such case the " Deputy Commissioner or the Commissioner shall " cause the order for confirmation to be made " known to the respondent through the Court from " whose decision the appeal was made."

In Section XVI of the Bill, we recommend the substitution, in line 5, of the words " Section XIV" for " the last preceding Section."

The Chief Commissioner and Major Sparks concur in recommending certain modifications of Act XIV of 1859 (the Limitation Act) on its extension to Pegu under Section XXIV of the Bill. The first point to which they advert is Clause 13 of Section I, relative to the limitation of time to enforce the right to share in family property. The custom of Pegu, as stated by Major Sparks, is to make family arrangements for the cultivation of ancestral property by the heirs in turn, or by the payment of separate portions by a cultivator to the heirs, and these arrangements continue for many years.

Major Sparks therefore fears that the limitation of twelve years provided by Clause 13 would cause a revolution in the law affecting immoveable property, and the Chief Commissioner concurs with him in recommending " the retention of the law on this head laid down in Section 60 of the Civil Code of Pegu," which provides that " land which has remained in the possession of the descendants of the original proprietor without being divided may be made the subject of a suit among the co-heirs for division without limitation of time."

We observe that the period of twelve years, to which objection is made, would run only from the commencement of a cause of action. So long as property remained " in the possession of the descendants," according to the terms just quoted, there would be no cause of action; but if any right of one of the descendants were invaded or infringed in violation of the family arrangement, or otherwise, a cause of action would arise; and we do not think that the period of twelve years limited by Clause 13 of Section I of Act XIV, for the commencement of a suit, would in such a case be too short.

The second point is the limitation by Clause 15 of Section I of Act XIV of 1859, of thirty years in the case of moveable, and sixty years in the case of immoveable, property deposited, pawned, or mortgaged. Major Sparks states that, under the Pegu Revenue Code, Rule 5, Section XV, " land which has been mortgaged, with possession to the mortgagee, without specification of time, and not redeemed for twelve years, becomes at the expiration of twelve years the absolute property of the mortgagee." In order to obviate injustice in respect of rights that may have been acquired under this Rule, we recommend the addition to Section 24 of the following words:—" Provided also that Clause 15 of Section I of the said Act XIV of 1859 shall not apply to any claim to foreclosure arising under any deed or instrument of mortgage of immoveable property in Pegu executed before the date aforesaid, but every such claim arising under any such deed shall, so far as the law of limitation is concerned, be governed by the laws or rules of limitation now in force in that Province."

We recommend that the 1st May 1863 be inserted in the last Section of the Bill as the period for it to come into operation, and with these amendment we recommeed that the Bill be passed.

The Chief Commissioner and Major Sparks recommend that the Chapter on Insolvency in Major Sparks' Code be retained in use. But we are not prepared to recommend that this important subject should be dealt with in the present Bill. The Code of Civil Procedure contains provisions under which the Courts can give relief in certain circumstances to indigent judgement-debtors, and we think that the expansion of these provisions into an Insolvent Law will require very

mature consideration, and that any Insolvent Law which may be passed should not be confined in its operation to British Burmah.

By Order of the Board of Revenue,

J. P. GRANT,
Offg. Junior Secretary.

FORT WILLIAM,
The 2nd January 1863.

No. 20.

Notice.

IT is hereby notified, that the following Rules for the issue of Excise Licenses to manufacture Salt have been approved by the Lieutenant Governor of Bengal, and that they must be held to supersede the Excise Rules, dated 25th September 1854, heretofore in force.

By Order of the Board of Revenue,

J. P. GRANT,
Offg. Junior Secretary.

FORT WILLIAM,
The 9th January 1863.

Amended Excise Rules.

LANDS which have been in occupation of the Salt Department, and which are not required for the Government manufacture of 1269 S. S. (1862-63), will be available to parties willing to take out License for the manufacture of Salt under the Excise system on the following terms:—

RULE I.—Lands suitably situated will be divided into convenient allotments and leased at fair market rates to licensed Manufacturers engaging to manufacture not less than maunds 10,000 of Salt per annum. Any number of allotments may be assigned to a single individual on his satisfying the Board of Revenue of his ability and *bond fide* intention to work them. The rent of the lands must be paid, half at the beginning and half at the end of the season.

II. Licenses will be similarly given to persons wishing to establish the manufacture on private lands, should the proposed site be approved by the Executive Department.

III. The supervision of the manufacture will be entrusted to the Superintendent of Salt Chowkeys, assisted by an Establishment, whose duty it will be to take an account of the daily manufacture of each Khalary and to prevent mal-practices. The cost of any extra or special preventive Establishment required to watch the works during the manufacturing season must be borne by the Manufacturers.

IV. Applicants before receiving their Licenses will be required to bind themselves to accept and abide by the conditions embodied in these Rules, for breach of which the License of the party offending will be liable to immediate withdrawal, and in the event of smuggling, or connivance at smuggling, being proved against the Manufacturer, or his duly authorized Agent, the whole of the Salt manufactured or stored by him will be liable to confiscation.

V. Manufacturers must store their Salt in their own Golahs, whether on the Aurungs or elsewhere, the site being subject to the approval of the Excise Preventive Department. Excise Establishments will be appointed by Government to the supervision of these Golahs at the charge of the Manufacturers. Every Golah used for the storage of Salt must be licensed in the same manner that private Warehouses for bonding imported goods are licensed.

VI. When Salt is to be removed for the purpose of being stored in the Golahs it must be packed for transport in the presence of one of the Supervisor's Officers. It will then be transported to the Golahs, by a certain prescribed route, under Passes specifying the estimated quantity. The Passes will be numbered and signed and the boats passed by the Aurung Assistant, who will keep a Register of the Passes. On arrival at the Golahs the despatch will be examined by the Officer in charge of the Golahs, the condition of the stamps noted, and the Pass registered. The Salt will then be weighed into store, and the result of the weighment entered in the Pass

Register as well as in the Store Account to be kept by the Golah Darogah. The expense of weighing the Salt into store will be borne by the Manufacturer.

VII. Each Manufacturer's Salt will be piled in a separate heap and stamped with his own stamp. When a whole Golah is stored with Salt of a single Manufacturer, the Golah will be secured with two locks, one key being kept by the Manufacturer and the other by the Golah Darogah. When a Golah contains the Salt of more than one Manufacturer, one key will be kept by the Golah Darogah and the other by the person in whose name the Warehouse is licensed.

VIII. The Register of Passes kept by the Aurung Assistant and the Officer in charge of the Golahs will be carefully compared by the Superintendent, for which purpose extracts will be sent to him weekly, and if any despatch be not duly accounted for, or if any despatch appear to be tampered with, and the quantity received at the Depôt from such despatch be deficient, no Salt belonging to the same owner will be allowed to be delivered from the Depôt until the duty chargeable on the deficient quantity shall have been made good.

IX. When a Golah, or one or more Golahs belonging to the same Manufacturer have been stored with Salt, the Manufacturer will enter into a Bond for the amount of duty and charges leviable upon such Salt, and shall further bind himself to pay without objection any penalty duty which may be adjudged against him on account of excess or deficiency of Salt found in his Warehouse under Rule XII. and Rule XIII. And the owner of Salt bonded in this manner may, on application to the Board of Revenue, be permitted to remove the same from one licensed Warehouse to another. No Bond shall be taken for a period exceeding thirty months.

X. The Excise Officers in charge of the Golahs must be allowed at any time to enter the Golahs after giving one hour's notice to the owner of the Salt, in order that he may have some one in attendance on his behalf.

XI. Salt will be delivered to purchasers from the Golahs on the production of Permits, to be obtained from the Office of the Board of Revenue, which will be granted for the protection of the Salt in the same manner as in the case of Salt imported by Sea, that is to say, on the production of receipts for the full amount of duty leviable thereon. Payment of Excise Duty must be made into the Bank of Bengal, or such local Treasuries as the Board may from time to time permit. No Rowanah, or Permit, will be issued for a less quantity than fifty maunds in the case of Salt sold from Warehouses on the manufacturing tracts. The weighment on delivery must be made in the presence of the proper Preventive Officer, and the Permit must be endorsed by the Aurung Assistant. When any quantity of Salt is removed from a Bonded Warehouse licensed under these Rules, the Preventive Officer in charge of the Warehouse shall cause to be noted on the back of the Bond the quantity removed, whether for clearance or transfer to another Warehouse, date of removal, name of the person removing it, the number and date of the Permit or Transfer Pass upon which it has been removed.

XII. Duty on Salt stored in any Warehouse licensed under these Rules shall be levied on the quantity registered at the time of storage. Provided that if at the time of clearing any Salt for a licensed Warehouse it shall appear that a deficiency exists, an allowance on account of wastage shall be made in adjusting the duty thereon to an extent not exceeding 2½ per cent, or such other rate as may hereafter be prescribed on this behalf by the Local Government.

XIII. If any Salt lodged in a licensed Warehouse shall be found to be deficient at the time of delivery therefrom beyond the allowances provided in the last preceding Rule, or if the Salt be found to exceed the quantity registered, and if such deficiency or excess be not accounted for to the satisfaction of the Board of Revenue, the Board shall be entitled to recover on the Bond a penalty duty equal to five times the ordinary duty chargeable on the quantity of Salt thus found to be deficient or in excess, or, if the Board prefer it, a sufficient quantity of the Salt may be detained and sold after ten days in satisfaction of any duties, penalty duties, or charges leviable under these Rules.

XIV. The Salt of each year's manufacture will be kept separate, in order that the accounts of each year's store may be duly made up.

XV. The manufacture will be closed on or before the 31st May, and no Salt can be left unstored in the Aurungs later than the 15th June. Any Salt so remaining after that date will be liable to be destroyed by the Supervisor's Officers.

J. P. GRANT,
Offg. Junior Secretary,
Board of Revenue.

Government of Bengal.

Railway Feeders in Nuddea.

From V. H. SCHALCH, Esq., Commissioner of the Nuddea Division, to the Officiating Secretary to the Government of Bengal, in the Public Works Department,—(No. 1Ct., dated the 8th December 1862.)

I HAVE the honor to report, for the information of His Honor the Lieutenant-Governor, the result of my inspection of the four chief Railway Feeders under construction.

2. I left Kishnaghur at 6½ A. M. and reached Bogoolah at 10½, riding slowly over the Kishnaghur and Bogoolah Feeder.

3. In the Estimate for this Feeder no account was taken of the connecting road between the Station of Kishnaghur and the commencement of the Feeder at the end of the Nowabazar, a distance of some two miles; but arrangements were last year made for metalling it with old brick purchased in the town, and for making a pucca drain along that portion of it which passes through the Bazar, and where the houses built on the edge of the road would not admit of its being widened. The metalling has been completed by the Magistrate, but though fairly done, the material not having been specially prepared for the purpose, is not of the best description, and it will require a layer of three inches of liver-colored ballast to complete it thoroughly.

4. The earthwork of the entire road up to the Railway Station has been completed, with the exception of two breaks and of the approaches to the bridges now under construction.

5. The first break occurs in a Bheel between Dukhinpara and Chittrasal; work on it is now in progress, and the break should be filled in within the next fifteen days.

6. The second break is at the Bheel close to the Station of Bogoolah and extends over a distance of about 1000 feet. There are seven feet of water at present in the Jheel and nothing can be done to fill in the break until the water has diminished, which will not be within the next two or three months, but this will not affect the traffic, as there is a fair-weather road which joins the Station with the Feeder just below the break. This will at once be put into thorough order.

7. At the bridges which are in progress of construction, I have directed the embankments round the foundations to be lowered and widened, with good slopes leading to and from them to the main road so as to admit of the passage of wheeled vehicles until the bridges can be crossed.

8. *Masonry.*—There are thirteen bridges on the line. Of these

1. Nowabazar Bridge. One arch of six feet span just out of Kishnaghur is completed.

2. Kuddumtollah. One arch of eight feet span has the foundations in and the masonry raised just above the flooring.

3. Culpee Bheel. Two arches of eight feet span just level with flooring.

4. Pootkale. One arch of eight feet span up to the springing.

5. Heleyah Khall. Three arches of twenty feet span the same. The construction of this bridge has been much delayed owing to the difficulty of keeping the foundations clear of water, but just before the rains the foundations were completed at a good depth and have stood well; about 2½ lacs of bricks are still required for this work, of which 25,000 are now burning, half lac moulded, and the remainder in hand, and the entire quantity will be burnt and ready for use within three weeks.

6. Manicktollah. One arch six feet span, arch turned, but platform to be completed.

7. Chittrasootee. One arch of five feet turning.

8. Onmulla. Two arches of eight feet, arches turning.

9. Singhia Bazar. Two arches of six feet span complete.

10. Dingamara. A large massive bridge of one arch of twenty feet span complete, with the exception of the pointing.

11. Mooragatcha. One arch six feet span complete,

12. Bogoolah Bheel. Two arches of eight feet span, foundations in.

13. Bogoolah Bheel. Three arches of ten feet span, not commenced.

For these two latter bricks are in course of preparation, and will be ready as soon as the subsidence of the water will permit of the continuance of the work.

9. The bridges inclusive of the Heleya Khall should be finished within six weeks, or by the 1st of February at the latest. For the completion of those over the Bogoolah Khall I can at present fix no date, but this is of the less consequence, as the old road will, when the repairs now on it are completed, suffice for the traffic until the rains, before which date the entire road will be, I undertake to promise, thoroughly completed.

10. The masonry work throughout is good and firm, though not so neat in appearance as that of the Railway; but it must be borne in mind in making the comparison that our rate is 18 Rupees per 100 cubic feet while the Railway Company pays 30, and that our cost of superintendence has been within 10 per cent, and theirs for the Contractor's work alone, exclusive of the Engineering Staff, 27 per cent.

11. The progress on the masonry and earthwork is satisfactory, taking into consideration the many difficulties we have had to contend with in fradulent and unsuccessful Contractors, the hurried and unsystematic manner in which this road was undertaken, and the insufficient Establishment which was at first allowed the Civil Divisional Engineer, notwithstanding his earnest entreaties for effective supervision.

12. For the metalling some nine lacs of cubic feet of metal are required, the dimensions of the roadway having been fixed at sixteen feet by one foot.

13. Of this amount more than six lacs are ready, of which however one lac will be rejected as insufficiently burnt. The metal has been laid down in many places along the line either in lengths of some extent, or in patches, and not well laid down, the pieces being too large and mixed with bad stuff. The Civil Divisional Engineer would not allow what had been commenced to be completed until I could inspect the line, I have directed him to have the metal where laid down in length carefully examined, the bad extracted, and the rest broken up into smaller sized pieces and well rolled and broken down so as to admit of immediate traffic, where in particles to be at once taken up, collected in three heaps on the side of the road, one for rejection, another for the under layer, and the third composed of the best burnt jhama for the top.

14. I have further ordered that in no case is any more metal to be laid down until the whole quantity required for the road has been burnt, and then carefully broken and laid along the side of the road in two heaps as above described, when, after inspection and approval, it will be laid down along the whole line.

15. The preparation and burning of the remaining quantity of the metal is in progress under the immediate supervision of the Civil Divisional Engineer, who will continue to watch the execution of the work on this road until completed

16. I shall be in this neighbourhood for some time, and will again report progress at the close of the month.

17. The arrangements I have made will open the road for traffic throughout as a fair-weather road in excellent order, though unmetailed, and I feel confident that by the 20th instant I shall be able to drive a buggy the whole thirteen miles within one hour and a half.

18. At the Station I met Captain Perkins on his way to join me at Kishnaghur, as my arrangements had been completed for dâking out to Kotechandpore during the night, and as no palkee or bearers could be procured for Captain Perkins, he agreed to meet me the following day with a view to accompany me to Chogdah, whither I at once dispatched an order for an additional palkee and bearers to be in attendance.

19. I reached Kissengunge at 12, and leaving again at 8 P. M. arrived at Kotechandpore, accompanied by the Civil Divisional Engineer, at a little before day-light.

20. After inspecting the Sub-Divisional Buildings in progress at Kotechandpore I walked over the Feeder as far as Khalishpore on the Cobbaduck, a distance of six miles, thence in the palkee over the remainder of the road, reaching Kissengunge at 3½ P. M.

21. From Kotechandpore to the Cobbaduck the earthwork is heavy, the embankment being in some places nine feet and averaging throughout about six feet. All has been thrown up with the exception of two breaks, one near Kotechandpore and the other in some low lands near Khalishpore. The first was caused by my having determined late in last season to alter the line of road into Kotechandpore and thus avoid a very long and unnecessary bend in the line of the old road. In the second break work could not be commenced until the Bheel had dried up.

22. From Khalishpore to Kissengunge, fourteen miles, the entire earthwork is completed, with the exception of about three miles, where the existing water will not yet admit of work.

23. The earthwork generally requires dressing, but this should not be done until we are prepared to lay the metal The entire earthwork can be finished easily within three months.

24. None of the masonry has been commenced, but brick burning for that purpose and for metal is in progress, and all the coal required for the kilns and clamps has been collected.

25. There are some heavy masonry bridges to be constructed on this road, and I cannot expect to do more before next rains than complete the entire earthwork, burn all the bricks and metal, and put in some if not all the foundations of the bridges, so that we may be able to proceed with them and with laying the metal during the rains.

26. I have in a former letter reported that the backward state of the road is entirely owing to the misconduct of the Engineer in whose charge it was for the best portion of last working season, and whom I was obliged to dismiss.

27. At half-past 5 P. M. I accompanied Captain Perkins down to Chogdah, and started from thence at 10 P. M. accompained by him and the

Civil Divisional Engineer, for Bongong, which we reached at day-light. We then returned inspecting the road, reaching Chogdah at 3 P. M.

28. But little of the earthwork remains to be thrown up; there are a few occasional breaks here and there, it is not quite up to section, but two months should see it thoroughly completed.

29. The masonry is, I regret to say, backward. Fortunately, the bridges are all culverts of small span, with the exception of two double arch bridges of ten and eight feet span, respectively. The foundations of these have been laid, and three of the smaller culverts completed, and the foundations of others laid. The masonry is good, with the exception of that in the unfinished foundation of two small culverts, but it is wanting in neatness owing to insufficient supervision.

30. Though a large number of the smaller culverts have still to be constructed, the whole masonry should be completed by the 1st March, if not by the 1st of February, for the bricks required for them are in hand, and each contains but a small amount of masonry.

31. In estimating for the metal to be used on the road broken bricks and not vetrified liver-colored metal was specified at the rate of Rupees 42 per 1000 cubic feet. The specification was approved, subsequently we were directed to use in all the Feeders a top layer of liver-colored metal, but previous to the receipt of these orders the contract for metalling this road had been entered into, and the Contractor had burnt a considerable portion of his metal.

32. His clamps extend nearly the entire length of the road, but those towards Bongong were burnt in the rains and have turned out badly, consequently but a small portion of them will be available for the lower layer. The clamps burnt previous to the rains are of a better description and contain a considerable quantity of liver-colored metal, but the contents have not been carefully sorted and have been thrown indiscriminately on the road and badly packed. I have therefore directed that the whole shall be again taken up, the bad stuff thrown away, and the remainder carefully sorted by the side of the road.

33. After inspection and approval by the Civil Divisional Engineer it is to be broken up and carefully and closely packed. This should be done by the 1st of February, and we shall then ascertain whether there will be any necessity to burn fresh metal; probably, we shall require some well burned liver-colored ballast to the extent of three inches in depth along the whole line.

34. I see no reason why the bridges should not be completed, as well as the entire earthwork before the beginning of the rains, simultaneously with the classification and spreading of the metal along the road side, leaving us the rains for laying and consolidating the metal.

35. In the meantime the same measures will be taken as in the case of the Kishnaghur and Bogoolah Feeder for rendering the entire road fit for wheeled traffic within the next month.

36. On Saturday morning we proceeded to inspect the Santipore Feeder, leaving Chogdah before day-light and reaching Santipore at 1 P. M. With the exception of two lengths of five high level land the entire road is heavily embanked, the height of the embankment in one instance reaching to sixteen feet. The amount of earthwork may be said to be complete, there being but one continuous break (through a Bheel) with the exception of the approaches to the bridges, what remains to be done should be finished by the 1st of February.

37. Three large bridges and seven smaller have to be constructed for this Feeder. The foundations of the greater number have been raised above water, but only one bridge (a drain culvert) has been thoroughly completed. Bricks have however been prepared and are under preparation, and all the masonry should be completed before the rains.

38. Little has yet been done towards the metalling of this Feeder. At the commencement of last working season we were directed to leave the metalling for the following year, and when this order was countermanded in April, the early setting in of the rains prevented the burning of much of the metal; some clamps were however fired, and I have directed their content to be sorted by the side of the road for inspection and approval before they are to be allowed to be laid down. Immediate steps will be taken for burning the remainder of the metal, and with the experience we have acquired in this work on the Chogdah Road we may hope to turn out metal quite up to the mark. It should be burnt before the commencement of the rains and laid down previous to their close.

39. The result of my inspection of these roads is, that the Kishnaghur and Bogoolah Road should be completed thoroughly by the 1st April, the Kishnaghur and Kotechandpore not before the end of the year, the Bongong and Chogdah by the end of the rains, as also the Santipore and Ranaghat, but that all should be rendered available for traffic as fair-weather roads by the 1st of February at the latest.

40. I am further convinced that I have erred in keeping down the cost of supervision to the low rate at which the work was last year performed. We worked within 10 per cent. though allowed 15 per cent, and this is, I am satisfied, false economy, and I shall in future not hesitate to expend the full allowance of 15 per cent.

41. I should here mention that we experience great difficulty in procuring good subordinate supervision. Unable to offer collateral advantages in the way of pension, furlough, and leave of absence on reduced allowances in case of ill health, I find it difficult to obtain good men on the salaries I can offer, where the various Railway and other private Companies connected with similar work are ready to pay far higher rates of salary, and where good men are obtained they do not hesitate to leave the Department if reprimanded, being certain of obtaining better appointments elsewhere. As an instance, I may mention that one of our Overseers whose salary was lately raised for good conduct has been offered a much higher salary by the Orissa Irrigation Company, and will probably leave us.

42. I would strongly urge the advisability of placing the Civil Divisional Engineering Staff throughout Bengal on an acknowledged footing in regard to salaries and privileges; for it must be borne in mind that the works they have now to superintend are not mere petty repair and works of a trivial description, such as previously were conducted by the Ferry Fund Committees, but works of considerable magnitude requiring engineering skill and constant attention and integrity, qualities which cannot be secured except at high remuneration.

From Lieutenant-Colonel J. P. Beadle, Officiating Secretary to the Government of Bengal, in the Public Works Department, to the Commissioner of the Nudden Division,—(dated Fort William, the 30th December 1862.)

In acknowledging the receipt of your letter No. 1Ct., dated the 8th instant, reporting your inspection of the four roads as per margin, which are under construction as "Feeders" to the Eastern Bengal Railway, I am instructed by the Lieutenant-Governor to convey to you his thanks for the information so clearly afforded, which, with this reply, will be published in the *Gazette Supplement*.

1. Kishnaghur to Bogoolah.
2. Kotechandpore.
3. Chogdah to Bongong.
4. Santipore.

2. The progress made in the construction of the roads, although it may not have wholly equalled your own expectations, is, I am instructed to say, quite satisfactory and deserving of the favorable notice of this Government.

3. The construction of these roads, His Honor is satisfied, could not, as local works, have fallen into more able hands; and it has afforded him pleasure to see that, under all the difficulties of your other more important duties, and notwithstanding your long absence, you have been able by the vigorous character of your administration to forward the advancement of these works so successfully.

4. I am to add that the Lieutenant-Governor trusts that your continued close attention will be given to these important roads, so that they may be completely finished and available for traffic by the time assigned for each.

5. The subject of your last paragraph is under consideration.

Government of India, Public Works Department.

Singrowlee Coal Field.

From Captain R. de Bourbel, Officiating Under-Secretary to Government, North-Western Provinces, in the Public Works Department, Railway Branch, to Secretary to Government of India, Public Works Department,—(dated 7th August 1862.)

I am directed by the Hon'ble the Lieutenant Governor to forward, for the consideration and orders of His Excellency the Viceroy and Governor General in Council, the accompanying correspondence from the Officers of the East Indian Railway Company, with the copy of a Note by the Officiating Consulting Engineer to this Government, on the working of the Coal found in Eastern Rewah, and the roads proposed to be constructed thereto.

2. His Honor approves of all the suggestions contained in the Note, in view of the great importance of the object to be secured, and he is of opinion that the Government may be equitably charged with the cost of constructing the proposed road from Mirzapoor to and over the Rajghat Pass of the Kymore Range, estimated roughly at Rupees 70,000.

3. It is beyond the competency of the Local Government to sanction an expenditure of more than Rupees 50,000 on any single work, and as much of the scheme sketched hinges on this point, I am to request that the provisional sanction of the Government of India to the expenditure on the construction of the road to the extent of Rupees 70,000, to be drawn by assignments in the Public Works Budget, as required, may be given, before negotiations for the extension of the road, or for the occupation of the Keryle Mines, are opened with the Rewah State, or any Surveys are commenced by the Railway Company.

4. The Deputy Agent of the East Indian Railway Company has been requested to obtain fair samples of all known Coals which might possibly come to the markets of the North-Western Provinces, and to have a careful test and chemical analysis of each made at Allahabad under the direction of the Locomotive Superintendent, and to communicate a copy of the latter's Report on the subject for the information of Government.

Note by Captain R. de Bourbel, Officiating Consulting Engineer to Government, North-Western Provinces, Railway Department, on the subject of the working of Coal in Eastern Rewah,—(dated 26th July 1862.)

In May 1862 the Deputy Agent of the East Indian Railway Company submitted, for the orders of Government, a Report by the Chief Engineer, upon his recent journey into Eastern Rewah and Western Singrowlee, to examine the Coal Fields of those Districts, and the means of access thereto, and enquired, in case of the Company being disposed to work the Keryle Coal, which is pronounced as excellent, whether the Government will construct the road to the north of and over the Rajghat Pass of the Kymore Range.

He informed me at the same time that he had referred this question of working the Coal Field to the Chief Agent, and on the 9th June communicated a copy of the latter's reply. The papers have been detained since in the hope of hearing the result of other trials which were to be made at Allahabad with the Rewah Coals, a quantity of which were ordered up for the purpose, in order that their quality might be compared with that of other known Coals; and also in the hope of obtaining a decisive reply from the Rajah of Rewah regarding the terms on which his Coal Field could be worked, but as neither seem to be forthcoming, the papers are now submitted for His Honor's orders

It will be remembered that the late Mr. C. B. Taylor was employed by the East Indian Railway Company to search for Coal in the southern part of Rewah in the beginning of 1860, but he unfortunately died almost immediately after his return to Mirzapoor, from illness contracted by exposure to the hot weather during his explorations. His son, Mr. W. B. Taylor, who had accompanied him on the search, reported the discovery of thick seams of Coal at Keryle in Eastern Rewah, and at Emilia in Western Singrowlee, besides of thin seams in other places, and he sent up samples of the two former to Allahabad, where they were tried on a Locomotive Engine with a Train of 190 tons weight in the presence of the Chief Engineer, the Locomotive Superintendent, and the Consulting Engineer. The trial shewed satisfactorily that either specimen was suited for Locomotive purposes, the Emilia gave the most favorable result, though in outward appearance the Keryle Coal looked the most valuable.

As difficulties were at that time apprehended in the way of obtaining a Mining License on reasonable terms from the Rajah of Rewah, and as it was questionable whether the East Indian Railway Company should undertake the working of these Coal beds situated in the Native territory, if Coal of good quality could be obtained from the proprietors of the neighbouring Mines situated in British or Eastern Singrowlee, the latter were asked at what price they could supply Coal from their own Mines and deliver it at Mirzapoor, if a connecting cart road were opened out along the direct track, the southern portion of which passes through the Rewah State. Enquiry was also made from the Political Agent at Rewah whether the Rajah would have any objection to the formation of this road, and whether he would contribute a moderate sum towards its construction.

Messrs. Hamilton, Brown and Co., the proprietors, stated that they would supply Coal at Rupee 1-3 per maund delivered at Mirzapoor. The price of wood fuel at Allahabad was then under 3 annas per maund green, and four maunds green wood, that is. three maunds when dried, the equivalent in effect to one maund of Coal would cost only 12 annas, and wood was supposed to be procurable in the vicinity of Mirzapoor for the same price. (In all previous calculations regarding fuel this loss of the weight of wood in drying was omitted.)

Major Osborn, C. B., wrote that he thought the Rajah would not make the road to the British Mines, as he had Coal in his own territory and would prefer making the road to his own Coal Fields, if ascertained to be worth working after examination by the Geological Survey.

As Messrs. Hamilton, Brown and Co.'s demands appeared exorbitant, and Major Osborn's reply about the road was unfavorable, there seemed to be no prospect at the time of securing a regular supply of Coal from the British Mines for the Railways in the North-Western Provinces.

The report and the facts ascertained by the Messrs. Taylor were then, by direction of His Honor, communicated to Mr. Oldham, the Superintendent of the Geological Survey, with a request that the Coal beds recently discovered might receive early notice from the Geologists engaged in the approaching survey of the Rewah country. His opinion in respect to the quality and value of all the known deposits of Coal in the Native Territory was asked for, and his advice sought in regard to the best means of procuring therefrom a constant supply of good Coal at reasonable cost for the use of the Railways in the North-Western Provinces.

In June 1861 Mr. Oldham submitted a Report by Mr. Medlicott on that Coal Field to the following effect:—

There is a considerable area stretching all across the southern part of the Rewah Territory occupied by rocks of Coal bearing formation; this area has for its northern boundary a straight line, speaking in a general way, nearly parallel to the Kymore Range and about fifteen to twenty miles south of it, along which occurs a geological fault; to the north of this fault there is no chance of finding Coal, and as the dip of the Coal strata is towards the north, the newest beds will be found nearest to this line of fault, and the older and better beds as it is receded from, that is the farther south we go from the places to which we want to carry the Coal.

Coal has been found in some places in the south-west and south-east portions of this Territory.

In the former, six localities, where it had been found, were visited by Mr. Medlicott; three of these on the Mahanuddee, two on the Sohilla, one at Sohagpoor. At the four first mentioned there were mere streaks of Coal among shale and lignite, the whole very pyritous, and the rocks in which it occurs are not those in which useful Coal has ever been found. At one of the places on the Sohilla the true Coal measures are found, but the seam discovered is 18 inches thick only, and very poor. At Sohagpoor is a more promising seam, which it may at some future day be worth paying more attention to.

In the south-east portion of Rewah, sixteen places where Coal has been found were visited. Of these seven are not worthy of notice, five are somewhat better; at two, Emilia and Dudenia, there is good Coal, but the best seam of all is at Keryle, where the Coal is excellent and should unquestionably be the first to be worked. Mr. Medlicott in conversation with Captain Hodgson said, that he had never seen Coal so good in the Raneegunge Field.

On the question of bringing it to market, Mr. Oldham observed that it might more easily be carried to the Great Deccan Road south-west of Myhere; but that the market for it was no doubt Mirzapoor, between which and Keryle lie the difficult Passes of the Kymore Range, the crossing of the Soane River, and the hilly and intricate country south.

Enquiry was thereupon made by order of His Honor from the Political Agent at Rewah whether the Rajah would be willing, after Mr. Medlicott's favorable report upon his Coal Field, to make the road through his Territory to Keryle, provided the Railway Company should make the necessary examination of the country, and furnish the agency for making the road, and can shew that it may be made at reasonable cost. It was also asked at what rate it would be proposed to levy royalty upon Coal mined in that Territory.

In March 1862 Mr. Sibley, the Chief Engineer, set out from Mirzapoor to inspect these Coal beds and the country intervening, and on his return reported as follows:—

He has no doubt in his mind that the Keryle Coal is the best yet found, that it is a first class Coal, and that the sample previously sent to and tried in Allahabad was a fairly selected one; the single seam yet opened is nearly six feet thick, with a band of shale one foot thick in the middle, leaving nearly five feet of useful Coal. Keryle is in latitude 23° 57′, longitude 82° 14′. He considers that this place should be the first worked, but that as further detailed researches may disclose Coal of equal quality on the other or north side of the Gopat River, he would not propose erecting any expensive machinery during the first season's work.

The Coal seam in the bed of the Goomtee Nullah near Kelgong, latitude 24° 1′, longitude 82° 12′, presented such favorable indications, that he has directed Mr. Taylor to sink a trial shaft in that neighbourhood, and another also near Goorwanee, latitude 24° 1′, longitude 82° 20′. Both of which places are north of the Gopat.

The best Coal will probably always be found in the basin of the Upper Gopat, and if good Coal be found beyond that basin to the north, it will

probably be at a much greater depth below the surface.

The Emilia Coal, as shewn in the shaft sunk, is so decidedly inferior to the Keryle, the thin seams of Coal being closely intermingled with shale, and it is so unfavorably situated for working, being in a gorge at the foot of a high Pass, that he does not hope much from that quarter.

Coal is visible in the glen at Pereeree Ghat, latitude 23° 55′, longitude 82° 29′, also in the waterfall above the Beyhar Mara Temple caves, latitude 23° 54′, longitude 82° 30′; but neither the character of the Coal indicated, nor the conditions for working, are in either case favorable, and the appearances are of interest only as shewing the extent of the Coal Fields.

The most northern point at which Coal is seen is about two miles south-east from Padari, latitude 24° 11′, and longitude 82° 36′; this Coal was worked as an open quarry by the late Mr. Burke, and, as far as visible, namely, to the water level, was of exceedingly inferior character.

As regards the means of communication northwards, whatever portion of the Field may be worked, Kujurda, in latitude 24° 7′, longitude 82° 27′, would be a point through which the road would pass.

Having gone to this by Lalgunge, Hullior, Rajghat, Burdee, Jukarul, and Jugainee, and having returned from Burgowa by Puduri, Bugdery, Kuperday, Mowharry, Gograhur Ghât, Gopalpoor, and Godootwa, Mr. Sibley is of opinion that the aggregate difficulties to be overcome in making a road are less on the former route than on the latter.

Having examined seven Ghâts or Passes over the Kymore Range, namely, Kurye, Mohadeo, Rajghat, Buchee, Puveree, Khootaee, and Gograhur, he is of opinion that Rajghat presents the greatest facilities for making a road fit for carts; there are several which are at present better Ghâts, but none which have the same capabilities. Keryle and Buchee are both at present better Ghâts for bullock traffic, but neither could be rendered fit for carts without heavy expense. Gograhur is of all the easiest as far as first ascent is concerned, but the extent of bad ground is great, and the crossing of the Suksoee Nullah, a tributary of the Belund, is nearly as bad as the first ascent.

He thinks therefore that a road should be made from Mewdee, about thirteen miles from Mirzapoor, on the Great Deccan Road, southwards by Durbar, on the meridian line of 82° 28′, crossing the Belund River at Dudree Ghât, and passing by Makardah, Aoouree, Chowra, Kuronudeea to Rajghat.

The length is thirty miles, and the cost of a road not metalled, but on which the minor streams would be bridged would be about Rupees 15,000.

The passage of Rajghat is quite easy on the north side; the first third of the descent on the south side would require a prolonged road to be made; the remaining two-thirds present no difficulty. The cost of this work is estimated roughly at Rupees 25,000.

To determine the direction of the road after crossing the Soane River below the junction of the Gopat, opposite Rajghat, would require a careful detailed examination of the country, and at least three lines of levels to be taken.

The route from Burdhee by Cossar, Dhamee, Hurfuree to Jukarul, passes over a continuous succession of hills and dales, in which a very careful selection of the route would be necessary, but presenting no obstacles till the descent of the Goordha Ghât and the passage through the Delta Ravine north of Jukarul.

If no better passage be found through the Hill Range in that neighbourhood, two alternative lines present themselves, each about six miles longer than the direct route, namely, one from Burdhee by Nugamee, Cromunah, rounding the hills and passing south-west down the valley to Jukarul; the other from the Soane crossing opposite Rajghat by Burhut, Sirira, Peneria, Bugdery, Kurkutta to Burgowa.

From Burgowa or Kujurdah to Goorwanee and the Gopat presents no serious difficulty.

The length of road in Rewah would be about sixty miles, and would probably cost about Rupees 30,000.

The Chief Engineer suggests that the East Indian Railway Company should agree to pay to the Rewah Durbar two pice or half an anna per maund as royalty for Coal carried away, and that the Durbar should allow the Company to spend the amount due for royalty in making the road from Burdhee to Keryle, until the sum due reach Rupees 30,000; the Railway Company providing the engineering superintendence, and, if necessary, advancing so much of the above amount as may be required before the payment for royalty be due. The Durbar also putting the Company in possession of such land as may be required at the present rental. He also suggested for consideration of Government—

I. That the Local Governments should make the Road from the Deccan Road near Lalgunj to the frontier near Rajghat.

II. That the Government should sanction, as an imperial work, the making a Pass over the Kymore Range at Rajghat, for which there is a precedent in the Deccan Road.

III. That Government should request the Political Agent at Rewah to aid, as far as possible, the arrangement of satisfactory terms with the Rewah Durbar.

The Chief Agent wrote as follows:—

Trial shafts should be sunk at Keryle in view to the Coal being worked, and to ascertain the extent of the Coal bed, as soon as arrangements for so doing can be come to with the Rewah Durbar. The Coal, however, should not be worked by the East Indian Railway Company, except in the absence of private enterprise.

On its being generally known that good Coal is available in unlimited quantity in the neighbourhood of the Jubbulpoor Railway, and that the terms upon which it may be worked have been arranged between the British Government and the Rewah Durbar, he doubts not that a Company would soon be formed willing to embark capital in the undertaking. Offers might with advantage be invited in the *Government Gazette* from those prepared to treat with Government for the working of the Mines, and he suggested that the road proposed by Mr. Sibley, from the Great Deccan Road near Lalgunj to the Soane River at Rajghat, should be immediately undertaken by Government.

The Deputy Agent in forwarding the above opinion added, that if this Coal is to be worked at all, the preliminary arrangements, if not the first working of the Coal, must be undertaken by the Railway Company, and therefore he does not think

that the expression of the opinion of Government upon Mr. Sibley's proposals, nor the subsequent completion of arrangements with the Rewah Durbar, need be postponed until the private enterprize be forthcoming.

It appears that Mr. Sibley's proposals have been communicated to the Political Agent at Rewah, for the latter writes, 28th June, that he is very anxious to bring the Coal negotiation to a close, but could not do it until the question of the passage of Rajghat was decided.

Mr. Taylor has been sinking additional shafts at Keryle and at other places on the north side of the Gopat River, but was about to be withdrawn, as it would not be right to have him in that country during the rains without shelter.

I accompanied Mr. Sibley on the march into Eastern Rewah in March and April last, and visited all the localities mentioned in his Report.

I agree with most of what he has written in his description of the Coal Fields, and the best means of communication northwards to Mirzapoor. I am dubious, though, regarding the size of the Coal bed at Keryle, the out crop is seen at the foot of some trap-hills, and it is not known whether the trap overlies or protudes through the Coal measures. Mr. Taylor was to continue sinking in some of the old shafts, and to commence others, in order to ascertain the extent of that bed.

If, however, the Coal obtainable north of the Gopat at Dudinia, Belgong, or Goorwanee, turns out to be of fair quality, and fit for Locomotive purposes, it would be preferable to establish Mines on this bank of the river, to working at Keryle, which is on the north side of that large stream. This river is not navigable owing to the rocky rapids which obstruct the bed at intervals. A thorough examination might perhaps show that the course is capable of improvement.

Assuming that good Coal is to be had at one or other place, in quantity sufficient for a few years' consumption, the next point to consider is whether it is worth while to work it.

It is quite certain that the use of wood fuel for Locomotives must sooner or later be abandoned, and that Coal must be substituted for it; for, notwithstanding all the precautions and care that are taken, the losses by fire in Trains from lighted wood sparks still continue, and were so heavy during the last half-year as to affect the profits of the East Indian Railway in the North-Western Provinces sensibly.

Even if Coal were 20 per cent dearer than wood, it would be better to use the former as Locomotive fuel than to incur the constant risk entailed by the use of the latter in this dry climate.

The American chimneys are not much in fault; they answer their purpose fairly, but it is very difficult to prevent the escape of sparks from the ash-pans of the Engines; large upright iron plates to baffle the sparks emitted from the ash-pans of the engines have been placed between the wheels, but they cannot arrest the sparks wholly, and in a high wind these are blown up upon the Train.

I think that it may be taken for granted that the Railways in the North-Western Provinces will be supplied with Coal from that Field which produces the best and cheapest fuel. In the following calculations the cost of raising Coal to the pit's mouth is taken at 3 annas per maund, except in the case of the Nerbudda Coal and Iron Company, who, perhaps, might be inclined to charge as much as 4 annas per maund for Coal raised at Mopani:—Royalty to the Rajah of Rewah, ½ anna per maund; cost of carriage by the East Indian Railway, ¼ pie per maund per mile; cost of carriage by Great Indian Peninsula Railway, about ⅛ of a pie per maund per mile, including terminal charges; cost of traction by country fair-weather roads, 1 pie per maund per mile, which is the result of actual experience gained on the cross road, eighty miles in length, between Kurhurballie and Luckeeserai. Raneegunge Coal could then be delivered at Allahabad at 15 annas 7 pie per maund; Kurhurballie Coal at 16 annas per maund; Mopani Coal *vid* Jubbulpoor at 11 annas per maund; Rewah Coal *vid* Mirzapore at 13 annas per maund.

As the Kurhurballie Coal is said by Mr. Turnbull, the Chief Engineer of the East Indian Railway in Bengal, to be superior in quality to the Raneegunge Coal, the latter may be left out of consideration as far as the Railways in the North-Western Provinces are concerned. Kurhurballie Coal will be available at Allahabad when the East Indian Railway is completed in a year's time; Mopani Coal, when the Jubbulpore Extension is finished, say in five years' time; Rewah Coals, if a road from Mirzapore to the Coal Field be made, in two years' time. Whether the Kurhurballie, Mopani, Rewah Coals will ultimately be consumed on the Railways in the North-Western Provinces, will depend upon their relative degrees of fitness for Locomotive purposes, the quantity of supply, the extent of labor, and means of transport available, convenience to market, and their prices when delivered.

I would suggest in the first place that a large and fairly selected sample of the Raneegunge, Burrakur, Rajmahal, Kurhurballie, Mopani, Keryle, Dudinia, Emilia, Puduri, and Kohtah Coals be obtained and brought to Allahabad for trial. Coal of inferior appearance has often turned out to be better suited for Locomotive fuel than a more promising looking Coal, and it is only by careful tests and accurate analysis that a comparison of the respective qualities of these Coals can be made, and their relative values be determined. If the Mopani Field be of any size, regarding which there is some uncertainty, as the soil in the vicinity is to cut up by trap dykes and faults, I should say that from its position, being connected with a Branch Railway to the Great Indian Peninsula line, and with its ample resources of labor from the fertile Valley of the Nerbudda, and with unlimited means of transport by Rail, it will be sure eventually to command the market for Coal at Allahabad and upwards, provided always that there be not much difference in quality between it and other Coals.

But below Allahabad as far down as Benares, Coal from Rewah might be employed in preference to the Kurhurballie and Mopani Coals; the several prices of the three delivered at Mirzapoor would be 12 annas, 15 annas, and 12 annas per maund. It appears, therefore, as far as present means of information go, that if a connecting cart-road were made from Mirzapoor, we might reckon upon Rewah Coal being used on the East Indian Railway in the North-Western Provinces, until the Jubbulpoor Extension be completed, and after that its use would probably be restricted to the line between Benares and Allahabad. The consumption during the first three years might possibly amount to 60,000 tons, and after that

might not exceed 8,000 tons per annum, or 2½ lakhs of maunds.

Nothing is yet known of the central portion of Southern Rewah, which on the Map is almost a blank. There is a tract sixty miles wide between Keryle and the Upper Soane River, across which the Coal measures most probably extend, and possibly good Coal may exist in this region, within fifty miles of Myhere on the Jubbulpoor Extension. We now know that good Coal cannot be had within ninety miles of Mirzapoor, and the next object should be to try and search for Coal in the country east and south-east of Myhere. Were good Coal found in the latitude of Keryle, and within a short distance of the Jubbulpoor line, it would throw the Mopani Coal out of competition in the markets of the North-Western Provinces, and I would urge that the whole of that part of the country be thoroughly explored.

Next, as regards the formation of a road between Mirzapoor and South-Eastern Rewah, its direction must be fixed by the best passage over the Kymore Range, and the best crossing over the Soane River.

Rajghat on the direct line is capable of being converted into a good Pass, though at present it is not so practicable for laden bullocks as some of the adjoining Ghâts. Eighteen-pounder Guns were taken over the Kyeahee Pass in 1811 to attack the Fort of Burdhee, but there are some very deep ravines along the foot of the Kymore Range between the Ghât and Burdhee, and the approach would be rather difficult and costly to make.

Generally speaking, the ground rises gently all along the north face of the Kymore Range up to the crest which overlooks the Soane Valley; then there is a vertical scarp down of several hundred feet, the base of which is covered by masses of debris from the cliffs above. It is only in a few clefts along the range that Passes are found.

The top of Rajghat is considerably lower than the rest of the ridge, and the rocks which have fallen below form a kind of spur, up the sides of which a winding road may be carried about two-thirds of the way up the ascent of the Pass on the south face. The remaining third will give some trouble; the track now lies over large boulders up a steep incline through a gorge or cleft in the scarp, but a zig-zag road over this length looked feasible. Rupees 25,000 would, however, hardly suffice to make a good cart-road over this Pass, and I should not be disposed to rate the expense at less than Rupees 50,000, though rough guesses are of little value in such a case.

The ford over the Soane River between Rajghat and Burdhee had too much water in march for laden carts to cross, and as it would injure the Coal to get wetted, the stream might be narrowed yearly at any convenient point along the river during the dry season, and a Ferry be established to float the Coal carts across. There would be half a mile of loose sand to get over, but a stone pavement might easily be laid over this length.

North of Rajghat there is an old road *viâ* Hulleea to Lalgunge, which crosses the Adh River twice, and the Belund River by a bad ford at Kotah. The line now selected by the Chief Engineer is the most direct and favorable that could be adopted; it avoids the Adh River and its deep ravines altogether, and crosses the Belund by a good ford at Dudree Sal. His Estimate of Rupees 500 per mile ought to suffice to make a good fair-weather road along this section, with all minor streams bridged.

South of Rajghat, the country between Burdhee and Keryle, is hilly, covered with scrub jungle, and most intricate. The ground rises towards the high plains to the south, and is streaked with several parallel ranges of Hills extending in an east and west direction, with numerous spurs projecting on either side. The villages are situated in the hollows, but are much scattered, thinly populated, and very poor. The inhabitants are chiefly of the Cole Tribe, small, active, truthful, and rather wild; a wheel is an unknown thing among them, and what little traffic there is in gum, lac, cotton, and hemp from Rewah, Sirgoojah, and Ruttunpoor, and in sugar, tobacco, brass-ware, and cloth from Mirzapoor, is carried on pack-bullocks. The country, however, appears to be richly endowed with minerals; iron, copper lead, coal and slate have been found, and there are indications of other valuable ores.

There are three tracks from Burdhee which thread through these Hills to Burgowa, a large village and central mart on some high ground to the south. I went along the direct route and returned along the half of another, and though the country is difficult, I should not say that the construction of a cart-road was impracticable. But it will require a careful survey and levels to be taken, and some judgment in selecting the best line. The country is very stony and waterless, and fodder and water for draught cattle would be indispensable if a Coal traffic were to spring up. I regard this, the small size of the cattle and the scarcity of labor, as the chief obstacles to any extensive working of the Eastern Rewah Coal beds. South of Burgowa to the Gopat River there would be no trouble in making a road. Rs. 500 per mile would probably suffice to open out a rough cart-road along the whole distance from the Soane River.

This road from Mirzapoor to Eastern Rewah might serve as a feeder to the East Indian Railway, and would be the natural highway connecting the uplands of the eastern portion of Central India with the market of Mirzapoor, and would open up the Districts of Southern Rewah, Ruttunpoor, Sirgoojah, and other Districts south, as yet but imperfectly known.

The formation of a practicable Pass at Rajghat over the Kymore Range, and of a road through the intricate and hilly country south, would also, in a Military point of view, be of great advantage. It will be remembered that a portion of the rebels, who, under the guidance of Rummest Sing, attacked and slew Messrs. Evans and Limnell, the Railway Engineers at Eutowah, took refuge in these parts, and it is supposed that some are still lurking in the jungles further south. At Padari we saw a large stack of Coal that had been burnt by them en route, and the people said that they took shelter for a while in the caves of Marra. Had the road now contemplated then existed, these jungles would not have afforded so secure a retreat.

His Honor has already expressed an opinion favorable to the formation of this road, and to the cost of that portion which lies between Mirzapoor and the Kymore Range, inclusive of the Pass being borne by Government, on condition that the Railway Company should survey the country, select the best line, and provide the agency for construction; also that the road further south

should be undertaken at the same time by the Rajah of Rewah, but intimated that the local funds could not be debited with the cost of a road having purely Imperial objects in view.

When His Honor wrote the above Minute, it was uncertain to what portion of the Kymore Range the road would lead, the most frequented Passes, Silpee, Soorhon, Dhoba, and Aikpowah Ghâts being situated in British Territory Rajghat, however, belongs to Rewah, and being near the Frontier, the cost of a road over this Pass ought properly to be divided between the two States; but as this may be looked upon as an Imperial road, connecting the North-Western Provinces with the British possessions south of Rewah, and as any contribution for this purpose from the Rajah is not likely to be forthcoming, I would respectfully suggest, for His Honor's consideration, that the British Government should offer to pay the whole cost of road over the Rajghat Pass, provided that the Rajah of Rewah will on his part undertake to construct at the same time a good road passable for wheeled traffic from the Soane River at Burdhee, southwards, passing by the Coal Mines to Ruttunpoor *throughout* his Territory, and that he will engage to maintain it in good repair, and not to levy any impost or toll of any kind on the traffic along the road. Blackmail is now levied by the Killadars at the Rewah Passes over the Kymore Range, and the Brinjarries complained much of the extortion practiced.

The outlay which would thus be incurred by Government would be, say—

Mirzapoor to Rajghat	...	Rupees	15,000
Rajghat Pass	...	„	50,000
Crossing over Soane	...	„	5,000
Total Rupees		...	70,000

and by the Rewah State not much under Rupees 60,000. It would take about two years to render the road practicable for carts, and one year more to complete it.

The foregoing considerations will be sufficient to shew that, under present circumstances, it would not be advisable to look to the Coal beds of Eastern Rewah as permanent sources of supply of fuel to the East Indian Railway in the North-Western Provinces, except to a very limited extent. The scarcity of labor, the wretched means of transport, the distance to market over a hilly road, would, I fear, present very serious obstacles to any extensive mining operations.

The formation of a Tramway, however, if practicable, from the Coal Field to the East Indian Railway at Mirzapoor, or to the Jubbulpoor Extension at Myhere, would alter the present conditions materially. It would in great measure remove those obstacles, enable the Coal to be delivered at Allahabad at a price which could undersell the Mopani Coal, and might thus render the Coal beds of Eastern Rewah permanent sources of supply.

The undertaking of regular mining operations with the formation of a connecting Tramway might suitably be left to private enterprise. but the success of such a scheme would certainly depend upon the practicability of making a Tramway across the hilly country. Little can be said upon this point at present, and that little would be adverse to the project.

Under present conditions small workings might, I think, be established with advantage to the East Indian Railway Company at Keryle or Dudinia, in order to obtain a supply of fuel during the next few years, and to prevent its becoming wholly dependent hereafter upon the Mopani Mines for Coal.

Private enterprise cannot be expected to engage in so small an undertaking, and the East Indian Railway Company would have to make its own arrangements for working the Coal beds, if funds are available and forthcoming for this purpose.

Three years' consumption of Coal fuel, with four Trains running each way daily over 400 miles of Railway, would amount to about 60,000 tons. One anna per maund of the price of the Coal may be taken to cover the interest on first outlay, with wear and tear of plant and machinery, and 2 annas per maund to represent the ordinary current expenses of working the Mines. These rates on 60,000 tons would amount to one lakh and two lakhs of Rupees nearly.

It might therefore be safe to venture one lakh of Rupees on first outlay for plant, machinery, &c., to work the Mines with a prospect of re-payment in the value of Coal consumed by the time the Jubbulpoor line is opened, and two lakhs of Rupees might also be spent during those five years, say Rupees 40,000 per annum for Establishment and current expenses of working the Mines.

If the East Indian Railway Company and the Government should agree to work the Coal in Eastern Rewah temporarily on this small scale, and to limit the total maximum expenditure on the Mines during the next five years to three lakhs of Rupees, this sum would properly be chargeable to the Revenue, and not to the Guaranteed Capital Account.

The amount would have to be advanced by Government on Revenue Account out of the Revenue receipts of the East Indian Railway, which are deposited weekly into the Government Treasury.

As the royalty on Coal carried away to be paid to the Rajah of Rewah would be ½ anna per maund, and would amount to Rupees 50,000 on 60,000 tons, and the estimated cost of the Rewah length of the road to the Coal Field is Rupees 30,000, there could be no objection to advance the funds for the construction of this portion of the road if the Rajah should not be able or willing to do so himself. The foregoing suggestions may be briefly recapitulated as follows:—

1*st*.—That a careful test and analysis be made at Allahabad of all known Coals which might possibly come to the markets of the North-Western Provinces.

2*nd*.—That the construction of the road from near Mirzapoor to Rajghat, of the Pass over the Kymore Range, and of the crossing over the Soane River, be undertaken as an Imperial work, at an estimated cost of Rupees 70,000, provided

3*rd*.—That the Rajah of Rewah will engage to construct a good cart-road in prolongation of the above road through the Coal Field to Ruttenpoor, so far as may be within his Territory, and to maintain it hereafter in good order,

4*th*.—Also that the Rajah of Rewah shall agree to the terms proposed by the East Indian Railway Company for working the Coal Mines, as regards royalty on Coal carried away, lease of Mines and land for occupation and protection of life and property, and shall also agree to give the land free of

cost for any Tramway to connect the Mines and East Indian Railway or Extensions which it may be found advisable to construct hereafter. If these conditions be satisfactorily settled, then

5*th*.—That the East Indian Railway Company shall survey the country and select the best line of road, both north and south of Rajghat, during the next cold season, and, on approval by Government, may then proceed at once to construct the entire road in the manner proposed, from near Mirzapoor to the Gopat River.

6*th*.—That the East Indian Railway Company shall continue its preliminary investigation of the Coal Fields, so as to ascertain the extent of the deposits, and to select the most favorable places for working.

7*th*.—That the East Indian Railway Company should then work the best Coal deposit on a small scale temporarily, so as to limit the maximum expenditure on the Mines, including first outlay for plant and machinery, and all current expenses of Establishments, labor for mining, and items for working, to three lakhs of Rupees during the next five years.

8*th*.—That this expenditure shall be chargeable to the Revenue Account of the East Indian Railway, and be advanced by Government out of the Revenue receipts at the times and to the extent required.

9*th*.—That there will be no objection to advance the funds for the construction of the road in the Rewah State, if the Rajah be unable or unwilling to do so himself.

10*th*.—That it be left open to private enterprise to undertake at any time the working of these Mines, and that special encouragement be given to any Company which may engage to form a connecting Tramway with the East Indian Railway or its Extensions.

From G. M. BARTON, ESQ., Deputy Agent, East Indian Railway Company, North-Western Provinces, to the Officiating Consulting Engineer to Government, North-Western Provinces,—(dated the 2nd May 1862.)

I HAVE the honor to hand you a copy of the Chief Engineer's No. D 481 of 14th ultimo, being his Report upon his late journey in company with you into Eastern Rewah and Western Singrowlee, for the purpose of examining the Coal Fields in those localities, and the means of access thereto.

I am not prepared at present to say whether the Railway Company will be disposed to work the Keryle Coal, which Mr. Sibley pronounces to be of such good quality; but if it be decided to do so, I trust that the Government will not object to construct the portion of the road on this side of the Kymore Range, and also the road over the Rajghat Pass.

If, however, this cannot be done without a toll being levied, it would be satisfactory to know what this charge would be likely to be upon Coal.

From G. SIBLEY, ESQ., Chief Engineer, to Deputy Agent, East Indian Railway Company, North-Western Provinces,—(dated the 14th April 1862.)

HAVING just returned from an examination, in company with Captain R. de Bourbel, of the Coal Fields in Eastern Rewah and Western Singrowlee, and the means of access thereto, I have to report as follows:—

My No. D 989 of 27th August 1860 communicated the result of the exploration made in 1860 by the late Mr. C. B. Taylor and his son Mr. J. B. Taylor; it also related the successful result of the trial of the Keryle Coal in a Locomotive drawing a Train.

Mr. Medlicott, of the Geological Survey, in his Report on these Coal Fields in May 1861, states that "this Mr. Taylor's Keryle" bed gives not only the best Coal, but furnishes Coal of really "excellent quality; it is favorably situated for working, and it ought unquestionably to be the first tried."

My own examination of the country leaves no doubt in my mind that the Keryle Coal is the best yet found; that it is a first class Coal; and that the sample sent (30 maunds) was a fairly selected one; the single seam yet opened being nearly six feet thick, separated into two parts by a bund of shale less than one foot in thickness, and leaving nearly five feet of useful Coal. I am of opinion that this should be the scene of our first operations. Keryle is in latitude 23° 57′, longitude 82° 14′.

As, however, further detailed researches may disclose Coal of equal quality on this side of the Goopat River, I would not propose erecting any expensive machinery during our first season's work.

The Coal seam in the bed of the Goomtee near Belgong, latitude 24° 1′, longitude 82° 12′ (Mr. Medlicott's No. 13), presents such favorable indications that I have directed Mr. Taylor to sink a trial shaft in that neighbourhood, and another also near Goorwanee, latitude 24° 1′, longitude 82° 20′.

The best Coal will probably always be found in the basin of the Upper Gopat, and if good Coal be found beyond that basin to the north, it will probably be at much greater depth below the surface. The Emilia Coal, as shewn in the shaft sunk, is so decidedly inferior to the Keryle, the thin seams of Coal being closely intermingled with shale, and it is so unfavorably situated for working, being in a gorge at the foot of a high Pass, that I do not hope much from that quarter.

Coal is visible in the glen at Pereeree Ghât (latitude 23° 55′, longitude 82° 29,′) and also in the waterfall above the Beyhar Mara Temples, (latitude 23° 54′, longitude 82° 30′,) but neither the character of Coal indicated, nor the conditions for working, are in either case favorable, and the appearances are of interest only as showing the extent of the Coal Fields.

These last, with Emilia, Penery, and Nowanuggur, form part of the Singrowlee Basin.

The most northern point at which Coal is seen is about two miles south-east from Puduri (latitude 24° 11′, longitude 82° 36′); this Coal was worked as an open quarry by the late Mr. Burke, and as far as visible, namely, to the water level, is of exceedingly inferior character; that which is quarried and stacked is certainly not worth carriage to so distant a market as Mirzapoor.

As regards the means of communication, whatever portion of the Field may be worked, Kujurda, in latitude 24° 7′, longitude 28° 27′, would be a point through which the road would pass.

Having gone to this by Lalgunge, Hullior, Rajghat, Burdhee, Jukarul, and Jugainee, and having returned from Burgowa by Puduri, Bugdery, Kuperday, Mowharry, Gograhur Ghat, Gopalpoor, and Godootwa, I am of opinion that the aggregate difficulties to be overcome in making a road are less on the former route than on the latter.

Having examined seven Ghâts over the Kymore Range, namely, Kurye, Mahadeo, Rajghat, Buchee

Pureree, Khootace, and Gograhur, I am of opinion that Rajghat presents the greatest facilities for making a road fit for carts; there are several which are at present better Ghâts, but none of which have the same capabilities Keryle and Bachee are both at present better Ghâts for bullock traffic, but neither could be rendered fit for carts without heavy expense. Gograhur is of all the easiest as far as first ascent is concerned, but the extent of bad ground is great, and the crossing of the Suksoee is nearly as bad as the first ascent.

I think therefore that a road should be made from near Mewdee, about thirteen miles from Mirzapoor on the Great Deccan Road, by Durbar, on the meridian line of 82° 28′, crossing the Belund River at Dudree Ghât, and passing by Mukardah, Aoouree, Chowra Kuronudeea to Rajghat.

This, as opening up a part of the country, at present without a cart-road, and as facilitating the thorough traffic with the south, the Local Government may fairly be asked to execute.

The length is thirty miles, and the cost of a road, not metalled, but on which the minor streams were bridged, would probably be about Rs. 15,000.

The passage of Rajghat presents no difficulties on the north side, nor does the ascent from the south present any difficulty for the first two-thirds of the ascent, up to which point a prolonged ascent is easily obtainable.

It is true that this Ghât is just within the Rewah Territory, but the Kymore Mountain Range forming the boundary between British Territory and Rewah (as in the case of a river separating two Territories), both parties might reasonably be asked to contribute towards the expense of connecting the several countries, and should the Rewah Rajah consent to construct a road in continuation southernly through his Territory to the Ruttunpoor Frontier, I would suggest that the Imperial Government might be respectfully requested to provide the funds for this public work, which will facilitate the interchange of the gums, lac, grains, and cotton from Rewah, Sugorjah, and Ruttunpoor, with the sugar, tobacco, and Manchester goods from Mirzapoor.

Without a detail survey, it is not possible to form any very approximate Estimate of the cost of this work; but as it may be desired to know the sum which should be set apart, I would name Rupees 25,000.

To determine the direction of the road after crossing the Soane River opposite Rajghat will require a careful detailed examination of the country, and at least three lines of levels to be run.

The route by which I travelled from Burdhee by Cossor, Dhamee, Gilliner, and Hurfuree to Jukarul, passes over a continued succession of hills and dales, which will necessitate very careful selection of the route; but it presents no serious difficulty till the descent of the Goordha Ghât, and the passage through the Delta Ravine north of Jukarul.

It is possible that a better passage through the Hill Range may be found in that neighbourhood, but if not, two alternative lines present themselves, the one proceeding from Burdhee by Nugamee and Cromunah, rounding the Hills and passing south-west down the valley to Jukarul, the other proceeding from the crossing opposite Rajghat by Burhut, Sirira, Devery, Peneria, and Bugdery, thence by Kurkutta to Burgowa.

The portion of the latter from Burgowa to Bugdery is very favorable; I saw myself that the portion between Bugdery and near Peneria was quite feasible, and was told by the Natives that there was no great difficulty on the remainder.

This latter route would have the advantage of avoiding the Mircha Ghât, south of Jugninee (not a very formidable one), but it would be six miles longer than the direct route, and about the same length as the route by Crominla.

From Burgowa or Kujurda to Goorwanee and the Gopat presents no serious difficulty.

The length of road in Rewah would be about sixty miles, and would probably cost about Rupees 30,000.

I would suggest that the Railway Company should agree to pay the Rewah Durbar 2 pice per maund as royalty for Coal carried away; the Durbar agreeing to let us spend the amount due for royalty in making the road from Burdhee to Keryle, until the sum due reach Rupees 30,000; the Railway Company providing the engineering superintendence, and, if necessary, advancing so much of the above amount as may be required before the payment for royalty be due; the Durbar also putting us in possession of such land as we require at the present rental.

I have written to the Political Agent at Rewah to know if such terms would be acceptable, and am in hopes of a favorable reply, as by the above proposal the Rewah Durbar will have an important road made without any expenditure on their part, in exchange for a mineral which, without a road, is nearly valueless, and from which, when 35,000 tons have been taken, it will derive a considerable revenue from the royalty.

The road in question will also open access to the slate of very useful quality which exists in the neighbourhood of the Gotan.

I would therefore suggest, for the favorable consideration of Government, that—

1*st.*—The Local Government should make the road from the Deccan Road near Lalgunj to the Frontier near Rajghat.

2*nd.*—That the Government should sanction as an Imperial work the making a Pass over the Kymore Range at Rajghat, for which there is a precedent on the Deccan Road; and

3*rd.*—That Government should request the Political Agent at Rewah to aid, as far as possible, the arrangement of satisfactory terms with the Rewah Durbar.

From Captain R. de Bourbel, Officiating Consulting Engineer to Government, North-Western Provinces, to the Officiating Consulting Engineer to Government of Bengal, Railway Department,—(dated the 7th May 1862.)

Coal of good quality has been found at Keryle, in Rewah, about 100 miles south of Mirzapoor, and there is some idea of having the Mines worked for the use of the East Indian Railway Company, provided it will pay, and money can be found to make a connecting road.

2. I have lately read Mr. Turnbull's last half-yearly Report, in which he speaks in favorable terms of the quality of the Kurhurballie Coal, and I should be much obliged if you will give me more information regarding the working of this latter Coal Field, in order that Government may be enabled to judge of the soundness of the proposals made in regard to the Rewah Coal bed.

3. How far are the Kurhurballie Mines from the Railway, and what sort of connecting road has been made? Is it over rough hilly ground? Are there any rivers to cross, and what are the

worst gradients to be met with? What kind of carts and bullocks are employed for the transport of Coal? How many bullocks go to each laden cart? What weight does each usually carry, and what is the ordinary hire per diem? What is the cost to the Railway Company of the Coal per maund raised to the surface at the pit's mouth, and what is the expense per maund of transport along the road, from the pit's mouth to the Railway? What is the lowest rate per maund per mile at which the East Indian Railway Company could afford to convey the Kurhurballie Coal upwards along the line.

4. With these data founded on actual facts, some notion could be formed of the prizes at which the Rewah and Kurhurballie Coals could be delivered at Mirzapoor, and the result of comparison would probably determine whether it would be worth while to work the Rewah Coal Field. Is the Kurhurballie Coal Field of unlimited extent, or is the supply likely to become exhausted in a few years? A reply is solicited at your earliest convenience.

From Captain F. S. Taylor, Officiating Consulting Engineer to the Government of Bengal, to the Officiating Consulting Engineer to Government, North-Western Provinces, Railway Department,—(dated the 26th May 1862.)

I have the honor to forward herewith copy of a letter from the Chief Engineer, Bengal Division, supplying in brief the information asked for in your No. 1097 of the 7th instant.

But I must remark that the cost of raising, as set down, is rather what it may be reduced to than what it is at present.

From S. Power, Esq., Chief Engineer, to Agent, East Indian Railway Company,—(dated the 21st May 1862.)

Yours of 19th, No. 5894.

I beg leave to communicate the following information in reply to the enquiries made by the Consluting Engineer:—

1*st*.—The distance of the Kurhurballie Colliery from the Railway is about eighty miles.

2*nd*.—The road is not generally better than the common country roads.

3*rd*.—The ground is not rough or hilly, except for a distance of about four miles to the Bettiah Pass

4*th*.—The Knell in the upper part of its course, or one of its large tributaries, is the only considerable stream crossed.

5*th*.—The gradients are easy, except in the Bettiah Pass, and even there by slight change of route they might be rendered easy, and at all events are in favour of the traffic, which is altogether a descending trade.

6*th*.—Ordinary country carts drawn by the common bullocks are used.

7*th*.—They draw the usual load of about 12 maunds.

8*th*.—The hire of carts is usually about 8 annas per day, or Rupees 15 per month

9*th*.—The cost of raising the Coal is about 8 annas 8 pie, but it can easily be reduced to 2 annas or 1 anna 10 pie by increased demand.

10*th*.—The cost charged to the public for transport by Rail is 0·27, or about one-fourth of a pie, but the actual cost of traction is not more than one-eighth part of a pie.

The extent of the Coal Fields is at least six miles; they will therefore last for many years.

From G. M. Barton, Esq., Deputy Agent, East Indian Railway Company, to the Officiating Consulting Engineer to Government, North-Western Provinces,—(dated the 9th June 1862.)

In continuation of my No. 1914 of the 2nd ultimo, I have the honor to enclose copy of the Chief Agent's No. G 5890 of the 30th idem, on the subject of the Rewah Coal Fields, and of my No. 2217, to which it is a reply.

You will notice that Mr. Palmer considers that trial shafts should be sunk at once in view to the Keryle Coal being worked, but he does not think the Mines should be worked by the Railway Company, except in the absence of private enterprise.

I think, however, there can be no doubt that if this Coal is to be worked at all, all preliminary arrangements, if not the first working of the Coal, must be undertaken by the Railway Company, and therefore I do not think an expression of the opinion of Government upon Mr. Sibley's proposals, nor the subsequent completion of arrangements with the Rewah Durbar, need be postponed until the private enterprise is forthcoming.

The estimated cost of the various descriptions of Coal mentioned in my letter to the Agent must merely be taken as an approximation, but I believe the relative prices at Mirzapoor of Raneegunge, Kurhurballie, and Rewah Coal will be found pretty correct. In calculating the cost of Rewah Coal, I have assumed 2 annas a maund for raising, and from 10 annas to 12 annas for transport by bullock hackeries, including the royalty of 2 pice per maund to the Rewah Durbar.

From E. Palmer, Esq., Agent, to Deputy Agent, East Indian Railway Company, North-Western Provinces,—(dated the 30th May 1862.)

I am in receipt of your letter No. 2217 of the 20th instant, enclosing a copy of Mr. Sibley's Report, No. D 431 of the 14th ultimo, on the subject of his late tour of the Rewah and Singrowlee Coal Fields.

It is most satisfactory to learn that Coal of such an excellent quality is obtainable so near the Railway, and as it is perfectly certain the use of wood as fuel for Locomotive purposes must sooner or later be abandoned, it becomes imperatively necessary that a substitute should at once be found.

The Keryle Coal would appear from Mr. Sibley's Report to be in every way best adapted to the purposes of the Railway, and steps should, I consider, at once be taken to sink trial shafts in view to the Coal being worked as soon as arrangements for so doing can be come to with the Rewah Durbar.

The Coal however should not, I think, be worked by the Railway Company, except in the absence of private enterprise.

On its being generally known that really good Coal is obtainable in unlimited quantities in the neighbourhood of the Jubbulpoor Railway, and that the terms upon which it may be worked have been arranged between the British Government and the Rewah Durbar, a Company, I doubt not, would be soon formed willing to embark capital in the undertaking, and the more readily when it is known that the Railway Company would be such large consumers.

I have therefore to request you will be good enough to lay this letter before the Government of the North-Western Provinces, with my strong recommendation that no time be lost in arranging with the Rewah Durbar the terms upon which

the Coal may be worked, and offers might with advantage be invited in the *Government Gazette* from those prepared to treat with Government for the working of the Mines.

The road proposed by Mr. Sibley from the Great Deccan Road at or near Lalgunj to the Soane River at Rajghat should, I think, be made, and I would suggest its being immediately undertaken by Government as an Imperial or Local Government work; some communication of the kind in in the direction pointed out by Mr. Sibley being clearly necessary, and likely to prove highly beneficial to the country through which it will pass, and highly remunerative to the Rewah Rajah if extended throughout his territory.

From G. M. BARTON, ESQ., Deputy Agent, East Indian Railway Company, North-Western Provinces, to Agent, East Indian Railway Company,—(dated the 20th May 1862.)

HEREWITH I send you a copy of Mr. Sibley's letter No. 431 of the 14th ultimo, being his Report upon his recent visit, in company with Captain de Bourbel, to Eastern Rewah and Western Singrowlee, for the purpose of examining the Coal Fields in that neighbourhood, and the means of access thereto.

As it is now an established fact that Coal of excellent quality, and quite suitable for our purposes, is to be obtained there, and as it is also a matter admitting of no doubt that Coal must be substituted for wood fuel for our Locomotives as early as possible, it only remains for the Railway Company to decide whether they will work the Coal themselves, or leave the undertaking to others.

This Coal will cost about 2 annas per maund to raise, and the carriage to Mirzapoor (100 miles) should be done for 10 annas to 12 annas, making the Coal cost there 12 annas to 14 annas per maund.

Raneegunge Coal costing 3 annas in the Truck could not, I suppose, be laid down at Mirzapoor under 13 annas per maund.

Kurhurballie Coal costing at Luckeeseria 12 annas could not be delivered at Mirzapoor under 15 annas per maund.

The Nerbudda Coal Company's Mines are about sixty miles from Jubbulpoor, and supposing their Coal proves good and costs at the pit's mouth 3 annas per maund, I calculate we shall not get it at Jubbulpoor under 5 annas, or at Mirzapoor under 10 annas per maund.

We have thus:—

Rewah Coal at Mirzapoor	...	12 to 14 annas.
Raneegunge ditto	..	13 annas.
Kurhurballie ditto	...	15 „
Nerbudda ditto	...	10 „

The last is the cheapest, provided the Coal is equal in quality to the others, but then it must be remembered that the above Estimate is based upon its being carried by the Jubbulpoor line when open. For present purposes, therefore, it cannot be taken into account.

The wood fuel now used on this Division costs the Company about 4 annas per maund delivered on the line anywhere between this and Delhi.

This is equal to a first cost of about 12 annas for Coal, estimating 3 maunds of wood to do the work of one of Coal, but the many disadvantages connected with the burning of wood, such as risk of fire, increase of stoppages, and probable failure of supply after a few years, all point to the necessity of burning Coal at no very distant period.

I have forwarded a copy of Mr. Sibley's letter to the Consulting Engineer, North-Western Provinces, but I learn that no action will be taken with reference to the proposals therein contained, until it is determined whether and by whom the Coal will be worked.

I shall be glad to have your views on the subject for communication to the Government Authorities.

From G. M. BARTON, ESQ., Deputy Agent, to Chief Engineer, East Indian Railway Company, North-Western Provinces,—(dated the 16th June 1862.)

YOUR Indent No. 906.

I shall be glad to know fully what you propose doing in the matter of Coal exploration at Rewah. The Agent in a recent communication suggests that by sinking trial shafts at Keryle, the extent of the bed would be ascertained more satisfactorily than appears to have been done at present.

From G. SIBLEY, ESQ., Chief Engineer, to Deputy Agent, East Indian Railway Company, North-Western Provinces,—(dated the 19th June 1862.)

YOUR No. 2595 of 16th instant.

I am unable to do anything more now until I get a reply to my No. 431.

The Rewah Durbar evidently will not reply until the passage of Rajghat is settled. I heard again from Mr. Coles, Officiating Political Agent, under date 1st instant, enquiring if that point had been settled.

Since I left Rewah, Mr. Taylor has been engaged in sinking additional shafts at Keryle and at other places on this side of the Gopat.

There is ample evidence of a supply at Keryle alone for many years' consumption. I stated in my No. 431 that pending further detailed researches, I should not propose erecting any expensive machinery during our first season's work.

I now propose withdrawing Mr. Taylor, as it would not be right to leave him in that country during the rains without shelter.

From G. M. BARTON, ESQ., Deputy Agent, East Indian Railway Company, North-Western Provinces, to the Officiating Consulting Engineer to Government, North-Western Provinces,—(dated the 4th July 1862.)

WITH reference to my letter No. 2499 of 9th June last, and previous correspondence on the subject, I have the honor to forward herewith copy of Mr. Coles, Officiating Political Agent at Rewah's letter marginally noted, and to request the early orders of Government respecting the roads proposed to be constructed on this side of the Kymore Range and over the Rajghat Pass.

* Mr. Cole's letter to Mr. Sibley, dated 28th June 1862.

From C. W. COLES, ESQ., Officiating Political Agent, Rewah, to Chief Engineer, East Indian Railway Company, North-Western Provinces,—(dated the 28th June 1862.)

I AM very anxious to bring the Coal negotiation to a close, and I cannot do it till the Ghât question is decided. Would you therefore please press for any early answer and oblige?

Proceedings of the Right Hon'ble the Governor General of India in Council, in the Public Works Department, under date the 17th November 1862.

SINGROWLEE COAL FIELD.

READ letter from Captain R. de Bourbel, Officiating Under-Secretary to Government, North-Western Provinces, in the Public Works Department, Railway Branch, to Secretary to the Government of India, Public Works Department, No. 263, dated the 27th August 1862, with enclosures.

OBSERVATIONS.—The Government, North-Western Provinces, forwards correspondence relative to the working of the Coal found in Eastern Rewah, and solicits provisional sanction to an expenditure of Rupees 70,000 for the construction of a road to connect the Singrowlee Coal Fields with Mirzapoor.

2. His Excellency the Governor General in Council is of opinion that it would be premature for the British Government to undertake a road in the way suggested. The Coal is in the State of Rewah, and three-fourths of the road would be there also. There is nothing before the Government to shew that the Maharajah of Rewah would afford reasonable facilities for working the Coal; indeed, he does not appear to have been consulted on the subject, and altogether it seems questionable how far it would be expedient for the British Government directly to encourage enterprise in a Foreign State.

3. Further, the road projected is over a very difficult country, and to bring such a quantity of Coals to Mirzapoor as sensibly to affect the Railway demand would require so large a development of traffic as to make it almost certain that the Jubbulpoor Railway will be open before the projected road could give any relief. When the Jubbulpoor line of Railway is open, the Nerbudda Coal will probably be brought to Allahabad at a much cheaper rate than the Singrowlee Coal, and the probability is, that the money required for the construction of the road would then be found to have been spent to no purpose, or at least it is very doubtful whether any important result would be got.

4. Having in view the points above noted, the Governor General in Council is of opinion that it would be better, before sanctioning the expenditure proposed by the Government, North-Western Provinces, to have search made in the Districts under the British Government beyond the Rewah Frontier for the continuation of the Singrowlee Coal, which is known (geologically) to exist there, and further to have the Hills north of the Soane also examined, with a view to ascertain if a road could not be provided within British Territory at a reasonable cost to communicate from the Coal region to the proximity of Chunar or Mirzapoor.

5. His Excellency in Council is of opinion that the best way to carry out these objects will be to inform the Geological Survey Department that it is important to endeavor to find Coal in the British Provinces in this region, and in a locality accessible from the East Indian Railway on the north, and to invite them to co-operate in any way in their power in ascertaining the facts. Also that the Governments of Bengal and the North-Western Provinces should be advised to the same effect, and requested to take an early opportunity of having an examination made of the hilly country north of the Soane for the purpose of ascertaining whether any easy way can be found across to Chunar or that part of the East Indian Railway.

From THOMAS OLDHAM, ESQ., L. L. D., Superintendent of the Geological Survey of India, to A. M. MONTEATH, ESQ., Under-Secretary to the Government of India, Home Department,—(dated the 20th December 1862.)

I HAVE the honor to acknowledge the receipt of your Docket No. 7198, dated 13th December 1862, forwarding copy of Proceedings of the Right Hon'ble the Governor General in Council, (Public Works Department, Industrial Mines,) under date 17th November 1862, relative to a proposal for the construction of a road to connect the Singrowlee Coal Field with Mirzapore.

In the 5th paragraph of the Proceedings in Council it is stated that "His Excellency in Council is of opinion that the best way to carry out the objects referred to will be to inform the Geological Survey Department that it is important to endeavor to find Coal in the British Provinces in this region, and in a locality accessible from the East Indian Railway on the north, and to invite them to co-operate in any way in their power in ascertaining the facts;" and you request that I will be good enough to state how I would propose to carry out the suggestion of having "search made in the Districts under the British Government beyond the Rewah Frontier for the continuation of the Singrowlee Coal which is known (geologically) to exist there."

I have now the honor to state in reply, for the information of His Excellency in Council, that the matter here referred to this Department has not now been brought before it for the first time. The systematic examination of the Coal Fields which are known to occur at widely separated intervals, and in isolated basins, from the Burdwan Field on the east to the Nerbudda on the west, has been a steadily maintained object of our researches from the earliest date of my connexion with the Geological Survey in India; and no opportunity has been lost, consistently with the due progress of our systematic work, to press this forward. Unfortunately, however, for the greater portion of these Fields no Maps of the slightest accuracy or value exist. In the Nerbudda Valley so important was the knowledge of its Geological structure considered that the Officers of the Geological Survey constructed a Topographical Map, as they proceeded, sufficient for the record, in a general way, of their Geological examination. In the Raneegunge Field, in like manner, a large portion of the Map as now published was from original Surveys; so desirous also were we of completing the examination of the Rewah country that it was even proposed to carry out a Topographical Survey at the same time as a Geological one. Failing this, urgent request was made that the regular Survey of the country should be taken up at once. In consequence of these solicitations a party of the Topographical Survey has now proceeded into this Territory; and I have not failed to take the earliest opportunity to press upon the attention of Colonel Thuillier, Surveyor-General of India, the great importance of directing the energies of the Surveyors, in the first instance, to

the part of the district (south of River Soane) which holds out at least some prospect of proving valuable as a Mineral Field.

I have not, however, felt justified (seeing that such a valuable and careful Survey has commenced) in devoting any more time on the part of the Officers of the Geological Survey to investigating more in detail that part of the country which is now a blank on all Geographical Maps, but have deferred this until we shall have obtained some plan on which to record our labors.

I allude particularly to this, as I find Captain de Bourbel saying (p. 7) "nothing is yet known of the central portion of the Southern Rewah, which on the Map is almost a blank. There is a tract sixty miles wide between Kervle and the Upper Soane River, across which the Coal measures most probably extend, and possibly good Coal may exist in the region within fifty miles of Myhere on the Jubbulpore Extension." We now know that good Coal cannot be had within ninety miles of Mirzapoor, and the next object should be to try and search for Coal in the country east and south-east of Myhere. Were good Coal found in the latitude of Keryle and within a short distance of the Jubbulpoor line, it would throw the Mopani Coal out of competition in the markets of the North-Western Provinces; and "I would urge that the whole of that part of the country be thoroughly explored." With reference to this, I may say that all the country lying due east of Myhere has been already examined, and offers no prospect whatever of containing Coal. The country to the south-east has not been *thoroughly* explored; but arrangements are quite complete to have this portion of the country fully examined the moment we can obtain any Maps on which to record the results of such an examination. Even of this country, to the south-east of Myhere, a considerable portion has been visited so far as the banks of the Soane River, but not beyond; sufficient knowledge of the structure has, however, been obtained to enable me to say that there is extremely little chance of good Coal being found any where within fifty miles of Myhere in this direction.

Again, the counry which lies to the east of the Southern Extension of the Mirzapore District and between that and Palamow is quite unknown geographically, and the Maps of the District are almost blank. The extent, however, is not very great (not fifty miles in direct line), and it has been traversed by many seeking for such mineral wealth. And so far as their researches have been made known, we have no reason whatever to suppose that any Coal measures exist there, or that Coal to any extent will be found between the Palamow and the Singrowlee Coal Fields. I think it very possible that limited and detached patches of the Coal-bearing rocks may be found in this area; but I think it highly improbable that any extensive or valuable deposit of Coal could have so long escaped notice. And with this conviction I have not as yet thought it desirable to interrupt the steady progress of the Geological Survey work by detaching any of its qualified Officers to make traverses of this unknown District.

This can be done if His Excellency in Council should cousider it worth the time it will occupy. I am, however, satisfied that the prospects of any success in finding productive Coal Fields in this unknown space are exceedingly slight.

I have already, long before the receipt of these papers, urged upon Mr. Medlicott, who is in charge of the party of the Survey now working in that District, that it is most highly desirable that this point should be settled at the earliest practicable time, and his intention will be again directed to it.

I shall at the same time be very glad to cooperate in any way with the Officers of the Railway or of Government in undertaking any investigations they may think desirable, in order to ascertain the facts regarding these Coal Fields.

I have also desired a Sketch Geological Map to be compiled, in which all that is known of this portion of Central India will be inserted, and I shall submit this at an early date.

I would add here a few remarks on the question at large, which my general acquaintance with the facts regarding the supply and distribution of fuel in this country may justify.

I cannot help thinking that, however important (and indeed it is all important) the question of the supply of fuel may be to the Railway Companies in India, it is still far too narrow and too limited a view of the question if these be the only consumers taken into account. The consumption of the East Indian and other Railways which are supplied now from the Raneegunge Collieries, although that consumption is very large, still constitutes only a fraction of the whole amount of Coal sent to market. True the Kurhurballie Colliery at the present supplies Coal only for the use of its own proprietors, the Railway Company; but there is no question that if this Coal were available to the public at fair rates, there would be a large demand for it. And if the principle that it is not desirable that the East Indian Railway Company should (as such) work the Kurhurballie Field for their own benefit and at their own risk, be admitted in this case, I cannot see on what ground it is now proposed that the same Company should open out and work Collieries, apparently, as intended, for their own benefit, exclusively in Singrowlee.

I would also point out that in all the calculations of comparative cost which are made in the papers now submitted, the conditions as to mode of transit and cost of transport are scarcely fairly estimated. It seems a misconception to compare the transport of Coal from Kurhurballie over eighty miles of a bad road by country carts as it is now with the transport of the Raneegunge Coal over a continuous Railway, as it will be after some time; or, on the other hand, with the transport of Coal from the Nerbudda as that transport will be after the lapse of five years. If five years time is to be given to develope the bare possibility of the Nerbudda Coal competing with other Coals in the markets of Allahabad and its vicinity, the probable improvements of communication in other directions during the same five years time must, in all justice, be taken into account also. It might, perhaps, be rash to assert that five years time *will* see Railway communication opened up between Kurhurballie and the East Indian Railroad at Luckeeserai or elsewhere, and yet I feel satisfied that there is every human probability that it will; or it might be bold to assert that a Railroad communication will be opened out to Singrowlee from Mirzapoor or that neighbourhood within the same period. But unless it be established that the conditions of transport remain at the end of the five years, which it will require to

complete the Jubbulpore Extension Line, the same as they are now, or are likely to be in a few months, the arguments as to Mopani or Nerbudda Coal being cheaper in the markets of Allahabad and its vicinity than the Singrowlee Coal entirely fail.

I conceive this to be a matter of high importance, inasmuch as the result arrived at in these papers is eminently calculated to deter any private Capitalist or Company from undertaking schemes for the opening out of these valuable Fields of Singrowlee, inasmuch as they seem to lead to the conclusion that 8,000 tons of Coal would be the whole demand from this Field,—a conclusion which appears to me untenable.

Taking Allahabad as the central or ruling point in this question of the supply of fuel, the distances to Allahabad from the several known Coal Fields are as follows :—

Total distance in miles.		*By Railroad.*		*By common road.*	
Raneegunge	... 620	...	620	...	0
Kurhurballie	... 385	...	305	...	80
Nerbudda	. 275	...	0	...	275
Singrowlee (Rewah)	156	...	87	...	93

A mere inspection of these distances will, I think, be sufficient to shew that, while the length of transport for the Raneegunge Coals will be almost prohibitory, and while the distance even of the Kuhurballie Field will be a serious drawback to the free use of Coals from it, the relative lengths of the other two localities (Singrowlee and Mopani) are such that the establishment of improved communication with the former would at once throw the other entirely out of competition. It must also be remembered that it is not supposed even that Mopani can compete with the others until after five years time, when Railroad communication will be completed.

I would not wish it to be supposed that I do not believe in the possibility of transporting Coals profitably for even greater distances than any of these here given. It is not many weeks since I had the opportunity of witnessing the very extensive traffic in Coals which has been developed from the Westphalian Mines, and the admirable system of through-going and quick Trains by which the large produce of that valuable Field is so widely distributed. Coals have been sent in this way from Westphalia even to Munich; and when this can be done, with the difficulties of several different establishments to contend with, even greater distances can be safely attempted in this country when the whole lines are under one and the same management. Still I have no hesitation in saying that it will only be *in extreme cases* that an article like Coal can profitably bear the cost of transport by Rail for several hundred miles, and that any distance beyond 300 miles may safely be considered prohibitory, except under any peculiar circumstances.

I am satisfied, therefore, that within a very brief period means *must* be adopted to facilitate the transport of the Coals from the Kurhurballie Coal Field to the East Indian Railway, and thus to reduce the cost; and I am equally satisfied that means must in like manner be adopted to bring the Coal of Singrowlee more economically into consumption.

Coals may be found in the British Territory to the east of Rewah, but the distance of these will be still greater from Mirzapore than of Singrowlee; and at Palamow still further to the east it has not been found profitable to work the pits, and the Company have in consequence ceased raising Coal. Should the admirable scheme proposed by Colonel H. Dickens for water communication from the Soane to Benares, &c., be carried out, this Palamow Field will be brought into operation again.

With facilities of communication, such as are here contemplated, once in operation, the Raneegunge Field will revert to its natural position as supplying the Railway and other demand in its own vicinity; the Kurhurballie Field will meet the demand of the country near to it (Rajmehal or Bhaugulpore to Benares); the Singrowlee Field will feed Mirzapore, Allahabad and to the West; while the Nerbudda Coals will find a sufficiently large demand in the country nearer to their own pits.

Looking, therefore, on the opening out of some facile means of inter-communication with these Fields as a necessity, and a *public* necessity, it only remains to consider how this necessity can most effectively be met.

His Honor the Lieutenant-Governor of the North Western Provinces also has asked "in what way the East Indian Railway Company can most usefully assist in and promote the search for Coal?"

Now, considering as I do that there is very slight chance of Coal being discovered to any extent in more accessible localities than at present known, and considering also the principle which has been (as I understand) established that the East Indian Railway Company cannot work these Coals themselves, I am quite of opinion that the best way in which both the search for, and the economical working of it, if found, can be promoted, would be to offer a liberal bonus or subvention per mile for the establishment of a line of Railroad communication on an economical system between Mirzapore and Singrowlee, and between Luckeeserai and Kurhurballie.

I am in a position to state that the formation of a Company to make such a road between Mirzapoor and Singrowlee has already progressed far towards completion; that Estimates of costs have been made, &c.; and that the project is only in abeyance at the present. The proposition was for a mineral line of narrow guage with light rails, but of sufficient strength to carry traffic at fifteen miles per hour, and I think the offer of aid would perhaps induce the project being undertaken.

I would add, too, my own conviction that, even supposing that 20,000 tons per annum (the estimated Railway demand for three years) were the maximum, and this supposes that the Railways would be the only consumers of Coal (which obviously is not the fact), I think it would be found exceedingly difficult to procure transport or carriage for this amount over a common road, such as that over the Kymore Range would be; and it certainly could not be obtained at once in a country where wheeled conveyances are little known, but would have to be gradually brought together.

If once opened out in this way, Coal from the Singrowlee Field would be able to bear transport far to the north-west from Allahabad, and would entirely throw out of competition any other Coals now known.

I would briefly recapitulate—

1*st*.—A large portion of the country which was indicated by the Government of the North-Western Provinces as requiring to be explored at once has been examined, and offers no chance of Coal being found.

2*nd*.—Another portion has been visited but not thoroughly explored, but without much prospect of Coal.

3*rd*.—The area within British Territories lying to the east of the known Coal Fields in the Rewah State, and between that and Palamow, is, even geographically, almost unknown, but has been traversed in various directions by parties seeking for Coal and entirely without success. It offers, therefore, little prospect of being productive of Coal, but measures have been taken to examine it geologically.

4*th*.—Even if it should prove productive of Coal, the distance from the markets for this produce will be greater than the distance of the present known Fields.

5. The Palamow Coals are for the present out of the question, owing to their great distance. They will probably come into use if the proposed water communication from the Soane River be established.

6. To these I would add that there is no probability whatever of useful Coal being found nearer to Mirzapore than the present known Fields. The whole northern scarp of the high ground to the south of that place has been examined, and all the country lying between that and the River Soane, and from the River Soane in the east to a distance of more than one hundred miles west of Allahabad, and there is no prospect whatever of Coal. It follows from this that the supply of fuel to all the Stations and markets to the west of Allahabad must be borne in mind as well as the supply of Allahabad itself.

I shall have the honor of submitting a Sketch Geological Map of this country shortly.

I will be obliged by this reply being communicated to the Public Works Department and to the Government of the North-Western Provinces.

Light Railways.

From the Government of India, to Her Majesty's Secretary of State for India,—(No. 48, dated the 20th September 1862.)

We transmit for your information copies of correspondence relating to the proposed operations of the Indian Branch Railway Company and the Indian Tramway Company, regarding which you have lately addressed us.

2. Both of these Companies have been formed with the view of carrying out light, narrow guage, low speed, branch lines of Railway, and both of them seem to look chiefly to existing roads as the basis on which their works are to be laid out. We are of opinion that such a system of light Railways may be carried out with great economy, and with every prospect of fair profit to the constructors; and in dealing with these Companies, we have done all in our power to accord them such terms as should encourage their operations in every way that was practicable, while the interests of the State and of the Public were duly guarded.

3. The Tramway Company having asked for certain direct pecuniary aid, we have determined to offer them a subvention of Rupees 125 per mile per annum, to aid in the maintenance of the road. To avoid complications, it has been thought expedient to make the Company responsible for the repair of the *whole* of the earth-work and masonry works of the road; the Government itself maintaining the metalling of the half not occupied by the Railway as long as it desires to do so.

4. Further, a request was made that the rails might be imported duty free. But this seemed objectionable in some respects, though in a pecuniary point of view the claim was thought reasonable. To avoid all risk of inconvenience or laxity therefore, we have proposed to pay to the Company on the opening of the line for traffic, an amount equivalent to the import duty paid on the actual quantity of permanent way material, rails, chairs, and fixings, certified to be actually used on the Railway when opened for traffic. The amount of this payment may be estimated at about Rupees 500 per mile. It will appear as a Public Works charge, and in no way disturb the Customs receipts.

5. It having been thought essential to insist on the power of the Government to require fencing to be erected, when thought necessary, along the whole line of every Railway, a point which had been overlooked in the original negociations with Mr. Wilson, we have considered it fair to the Branch Railway Company to give them these advantages also as a set-off against the additional expense to which they will be liable by reason of this stipulation.

6. It has been thought expedient to carry on these first negociations under our own immediate direction, but having now determined the general conditions on which we consider that the Government may for the present safely enter into arrangements for *bonâ fide* and definite projects, we have instructed the Governments of Madras and Bombay and the Lieutenant-Governors of Bengal, North-Western Provinces, and the Punjab, that we shall be prepared to give our sanction to any agreements that they may desire to make for such objects, in general accordance with the conditions we have drawn out for these Companies, provided that no financial obstacle interposes. It is however to be hoped that no difficulty of this sort will arise in dealing with projects of the particular character to which we are now alluding. They will refer either to existing roads or to roads under construction; or to lines on which the Local Governments might, under other circumstances, have been disposed to construct ordinary roads, and for which they would have appropriated the ordinary Public Works funds at their disposal.

7. To guard against any erroneous impression on such a subject, we have specifically stated that the whole of the payments of every sort on account of any such line of Railway must be met from the Provincial Public Works funds and entered in the Budget in the ordinary manner, and that no special pecuniary aid from the Government of India is to be anticipated. The transformation of ordinary Roads into Railways is so obviously a legitimate development of the means of communication of the country, that no more proper use can be made of the public money that is generally available for this class of works. If the terms that we have offered are found sufficient to induce Capitalists to embark in these undertakings, and we have reason to hope that they will be the outlay that they would involve in the form of the State subvention, even if applied to a very

large extent of Road, will not be by any means onerous, or likely to cause undue restriction on other classes of works of improvement. The equivalent of the import duty on the rails may be estimated at Rupees 500 per mile, and the allowance towards maintenance Rupees 125 per mile annually. For 1,000 miles of Branch Railway therefore a direct payment of Rupees 5,00,000 (five lakhs) would be necessary; but in fact this would not be a drain on the ordinary income, as the import duty on the rails would not have been received if the Railways had not been constructed. The annual payment would be Rupees 1,25,000 (one and a quarter lakhs), being terminable however when the profits rose to 5 per cent. On the other hand the free transport of the Mails, which we have ordered to be insisted on as a condition binding on all Indian Railways of every description, might be estimated as a gain to the Government of nearly Rupees 250 per mile per annum; that being the approximate cost of a Mail Cart, to which the slowest Railway transport would be superior.

8. We would beg to refer you to the letter addressed in this Department to the Government of Bengal, No. 3609, dated 18th September, for a full statement of the considerations that have guided us in dealing with this matter, and further to observe that a general Act (to which allusion is made in some parts of the correspondence), to meet the numerous points likely to arise in dealing with these and other similar works, is now being prepared under our direction.

From Her Majesty's Secretary of State for India, to the Government of India,—(No. 56, dated 13th November 1862.)

I HAVE received and considered in Council your letter of the 20th September last, No. 48, upon the subject of the negociations which have taken place between your Excellency's Government and the Agents of the Indian Branch Railway and Indian Tramway Companies.

2. I have observed with satisfaction the care which has been bestowed upon these negociations, with the view of affording every proper encouragement to the investment of private capital in laying down and working light lines of Railway in India; and I approve of the general conclusions at which your Excellency has arrived, and which are very clearly expressed in Lieutenant-Colonel Strachey's letter to the Secretary to the Government of Bengal of the 18th September last, and in the draft agreement which accompanied it.

3. Your attention has, I have no doubt, been specially directed to the necessity of providing adequate protection to the public from any danger or inconvenience which might arise from the traffic on those lines of Railway or Tramway which may occupy a portion of the ordinary roads of the country, and it is indispensable that the Local Government should be perfectly satisfied upon this point before any other such lines are sanctioned. I am glad to observe that ample power has been reserved to Government in the draft agreement, to secure the erection of proper fencing where necessary; and I rely upon the Local Authorities in enforcing this condition.

4. It has been properly determined that the pecuniary contributions of Government in aid of Railways of the description proposed shall form part of the ordinary Public Works expenditure, and that, subject to the general rules as to their power of authorizing expenditure, the Local Governments will be competent to accept or reject any particular projects, and to enter into contracts regarding them, subject, however, for the present, to your previous sanction.

5. The further development of this important subject, I commit with confidence to the care of your Excellency's Government. By the course which it is proposed to adopt, great inducements will be held out to the investment of capital in the undertakings in question, and I trust that the success of the first experiments will be such that at no distant time Contractors may be found ready to bear a larger proportion of their cost, and that private enterprize may thus become a most valuable assistance to Government in the improvement of the internal communications of India.

ACT No. I OF 1863.

An Act to define the jurisdiction and to regulate the procedure of the Courts of Civil Judicature in British Burmah, and to provide for the extension of certain Acts to the said Territory.

Preamble.

Whereas it is expedient to define the limits of the jurisdiction of the Courts of Civil Judicature in British Burmah; and whereas it is also expedient that the Code of Civil Procedure should have effect throughout British Burmah subject to certain alterations and provisos, and that provision should be made for extending the operation of certain Acts to the said Territory; It is enacted as follows:—

Pegu Civil Code repealed.

I. The Code called the Civil Code of the Province of Pegu is hereby repealed.

Grades of Civil Courts in British Burmah.

II. There shall be six grades of Courts in British Burmah, which shall be in addition to any Recorders' Courts, Courts of Small Causes, or other Courts established under any Act which may be hereafter passed, namely:—

1. The Court of the Extra Assistant of the third class, or the Myooke's Court.

2. The Court of the Extra Assistant of the second class, or the Tseekay's Court.

3. The Court of the Assistant Commissioner, and the Court of the Extra Assistant of the first class.

4. The Court of the Deputy Commissioner.

5. The Court of the Commissioner, and

6. The Court of the Chief Commissioner

Jurisdiction of Court of Extra Assistant of 3rd class, or Myooke's Court.

III. The Court of the Extra Assistant of the third class, or the Myooke's Court, shall have power to receive, try, and determine suits of every description not exceeding 500 Rupees in value or amount.

Jurisdiction of Court of Extra Assistant of 2nd class, or Tseekay's Court.

IV. The Court of the Extra Assistant of the second class, or the Tseekay's Court, shall have power to receive, try, and determine suits of every description not exceeding 3,000 Rupees in value or amount.

Jurisdiction of Court of Assistant Commissioner and of Court of Extra Assistant of 1st class.

V. The Court of the Assistant Commissioner and the Court of the Extra Assistant of the first class shall have power to receive, try, and determine suits of every description not exceeding 5,000 Rupees in value or amount.

Jurisdiction of Court of Deputy Commissioner.

VI. The Court of the Deputy Commissioner shall have power to receive, try, and determine suits of every description, exceeding 5,000 Rupees in value or amount, and appeals from the decisions, and, where an appeal is allowed by the Code of Civil Procedure, from the orders of the Courts of the Extra Assistants of the third class or the Myooke's Courts, of the Courts of the Extra Assistants of the second class or the Tseekay's Courts, and of the Courts of the Assistant Commissioners and Extra Assistants of the first class, in the District of such Deputy Commissioner.

Jurisdiction of Court of Commissioner.

VII. The Court of the Commissioner shall have power to hear and determine appeals from the original decisions, and where an appeal is allowed by the Code of Civil Procedure or by this Act, from the orders passed by the Courts of the Deputy Commissioners in the Division of such Commissioner. The Commissioner may also receive a second appeal from the decisions of the Courts of the Deputy Commissioners in his Division passed in regular appeal, reversing or modifying the decision of the Court of original jurisdiction, on a point material to the merits of the case if on a perusal of the grounds of appeal and of the judgments of the Courts

below, copies of which judgments shall be filed with the petition of appeal, a further consideration of the case shall appear to him to be requisite for the ends of justice. The decision of the Commissioner on such second appeal, whether for confirming, modifying or reversing the decision of the lower Appellate Court, shall be final, and no special appeal shall be allowed in such case to the Chief Commissioner from the decision either of the Deputy Commissioner passed in regular appeal, or of the Commissioner of the Division passed on such second appeal. The rejection of an appeal by the Commissioner on a second appeal shall have the same effect as a confirmation of the decree of the lower Court.

Jurisdiction of Court of Chief Commissioner.

VIII. The Court of the Chief Commissioner shall, except as provided in the last preceding Section and in Section XVIII of this Act, have power to hear and determine special appeals from the decisions passed in regular appeal by the Deputy Commissioners and by the Commissioners of Divisions.

Court in which suit to be instituted.

IX. Every suit shall be instituted in the Court of the lowest grade competent to try it.

Transfer of suits.

X. It shall be lawful for the Deputy Commissioner to withdraw any suit instituted in any Court subordinate to such Deputy Commissioner, and to try such suit himself or to refer it for trial to any other Court subordinate to his authority and competent, in respect of the value of the suit, to try the same. And it shall be lawful for the Chief Commissioner, or for the Commissioner of a Division, to order that the cognizance of any suit or appeal which shall be instituted in any Court subordinate to such Chief Commissioner or Commissioner shall be transferred to any other Court subordinate to his authority and competent, in respect of the value of the suit or appeal, to try the same.

Suits for immoveable property situate in different Districts.

XI. If the suit be for land or other immoveable property situate within the limits of different Districts within the same Division, the suit may be brought in any Court otherwise competent to try it within the jurisdiction of which any portion of the land or other immoveable property in suit is situate, but in such case the Court in which the suit is brought shall apply to the Commissioner of the Division for authority to proceed with the same. If the suit is brought in any Court subordinate to the Court of the Deputy Commissioner, the application shall be submitted to the Commissioner of the Division through the Deputy Commissioner to whom such Court is subordinate.

Suits for immoveable property situate in Districts subject to different Commissioners.

XII. If the Districts within the limits of which the property is situate are subject to different Commissioners, the application shall be submitted to the Commissioner to which the District in which the suit is brought is subject, and the Commissioner to which such application is made may, with the concurrence of the Commissioner to which the other District is subject, give authority to proceed with the suit.

Appeal to lie from all decisions except when expressly prohibited.

XIII. Except when otherwise provided in any Regulation or Act for the time being in force an appeal shall lie from the decisions of the Courts of original jurisdiction to the Courts authorized by this Act to hear appeals from the decisions of those Courts.

Memorandum of appeal to be presented to the Appellate Court within specified time.

XIV. The Memorandum of appeal prepared in the form, and containing the particulars mentioned in the Code of Civil Procedure, shall be presented in the Court empowered to hear the appeal within the period hereinafter specified, unless the appellant shall shew sufficient cause to the satisfaction of such Court for not having presented the Memorandum of appeal within such period, that is to say, within thirty days if the appeal lie to the Court of a Deputy Commissioner, and six weeks if the appeal lie to a Commissioner of a Division. The period shall be reckoned from and exclusive of the day on which the judgment appealed against was pronounced, and also exclusive of such time as may be requisite for obtaining a copy of the decree from which the appeal is made. Appeals from orders, when such appeal is allowed by the Code of Civil Procedure or by this Act, shall be presented within the same period as appeals from decisions.

Deputy Commissioner and Commissioner may confirm decision of lower Court appealed from without summoning the respondent.

XV. In cases of appeal preferred to a Deputy Commissioner under Section VI, or to a Commissioner under Section VII of this Act, it shall not be necessary to summon the respondent in the first instance, and if, upon the perusal of the judgment of the Court below, of the whole or any part of the record of the original suite, and of the petition of appeal in the presence of the appellant or of his duly constituted agent, the Deputy Commissioner or the Commissioner, as the case may be, shall see no reason to alter the decision appealed from, it shall be competent to him to confirm the same, recording his reasons for rejecting the appeal. In such case the Deputy Commissioner or the Commissioner shall cause the order for confirmation to be made known to the respondent through the Court from whose decision the appeal was made.

Procedure as to second appeals.

XVI. Applications for a second appeal under Section VII of this Act shall be preferred in the manner and within the period prescribed in Section XIV for regular appeals to the Commissioner of a Division, and if the Commissioner shall see fit to admit any such second appeal it shall be heard and determined in every respect as an ordinary regular appeal.

Applications for the admission of special appeals.

XVII. Applications for the admission of a special appeal which the Chief Commissioner is empowered by Section VIII of this Act to receive and determine may be on any of the grounds specified in Section 372 of the Code of Civil Procedure. The application shall be presented within ninety days reckoned from, and exclusive of, the day on which the judgment of the lower Appellate Court was pronounced, and also exclusive of such time as may be requisite for obtaining a copy of the decree appealed against, unless the applicant shall show sufficient cause to the satisfaction of the Chief

Commissioner for not having presented the application within such period. The application shall be subject to all the conditions, whether as regards Stamp duty, remission of a portion thereof when the application is made in *formâ pauperis*, or otherwise, contained in the said Code in cases of application for the admission of a special appeal to the Sudder Court.

No special appeal from decision of any Court in suits cognizable in Small Cause Courts.

XVIII. No special appeal shall lie from any decision or order which shall be passed in regular appeal by any Court after the passing of this Act in any suit of the nature cognizable in Courts of Small Causes under Act XLII of 1860 when the debt, damage, or demand for which the original suit shall be instituted shall not exceed the sum of five hundred Rupees.

Reference of question to the Chief Commissioner.

XIX. If in any case of regular appeal in which under the last preceding Section no special appeal is allowed, or in any case of second appeal admitted under Section VII of this Act, any question of law or usage having the force of law or the construction of a document affecting the merits of the case shall arise, on which the Court trying the appeal shall entertain reasonable doubts, the Court may, either of its own motion, or on the application of either of the parties to the appeal, draw up a statement of the case, and submit such statement, with its own opinion, for the decision of the Chief Commissioner. The provisions contained in Sections 29 to 34 of Act XXIII of 1861 (*to amend Act VIII of 1859, for simplifying the procedure of the Courts of Civil Judicature not established by Royal Charter*) shall be applicable to the statement so submitted, and the Chief Commissioner shall proceed in the case under the rules contained in the said Sections for the direction of the Sudder Court so far as the same are applicable.

Applications to appeal in *formâ pauperis*.

XX. Applications to be allowed to appeal in *formâ pauperis* shall be written on Stamp paper of the value of one Rupee if the appeal lie to the Court of the Deputy Commissioner, and on Stamp paper of the value of two Rupees if the appeal lie to the Court of the Commissioner or to the Court of the Chief Commissioner, and shall be presented in the Court competent to receive the same within the period prescribed by this Act for the presentation of appeals from decisions, or when the application is made to the Chief Commissioner within the period prescribed by this Act for the presentation of an application for the admission of a special appeal.

On what grounds review of judgment may be applied for.

XXI. Any person considering himself aggrieved by a decree of a Court of original jurisdiction from which no appeal shall have been preferred to a superior Court, or by decree passed in appeal from which no second or special appeal shall have been admitted, or by a decree of the Court of the Chief Commissioner from which either no appeal shall have been preferred to Her Majesty in Council, or an appeal having been preferred no proceedings in the suit shall have been transmitted to Her Majesty in Council, and who, from the discovery of new matter or evidence which was not within his knowledge, or could not be adduced by him at the time when such decree was passed, or from any other good and sufficient reason, may be desirous of obtaining a review of the judgment passed against him, may apply for a review of judgment by the Court which passed the decree. Such application shall be presented within the period of ninety days from the date of the decree sought to be reviewed, unless the applicant shall shew good and sufficient reason for not presenting it within such period.

Time for presentation of application for review.

Extension of certain Acts to British Burmah.

XXII. Act XIX of 1841 *(for the protection of moveable and immoveable property against wrongful possession in cases of successions)*, Act XL of 1858 *(for making better provision for the care of the persons and property of Minors in the Presidency of Fort William in Bengal)*, and Act IX of 1861 *(to amend the law relating to Minors)* are hereby extended to British Burmah. All cases or proceedings arising under the said Acts, or under Act XXXV of 1858 *(to make better provision for the care of the estates of Lunatics not subject to the jurisdiction of the Supreme Court of Judicature)* or Act XXVII of 1860 *(for facilitating the collection of debts on successions, and for the security of parties paying debts to the representatives of deceased persons)* shall be received and determined by the Deputy Commissioner of the District subject to the provisions in the said Acts contained respectively as to jurisdiction and otherwise. All orders passed by the Deputy Commissioners in such cases or proceedings shall be open to appeal to the Commissioner of the Division provided that no such appeal shall be allowed unless it be presented within thirty days from the date of the order appealed against, or unless the party making the appeal can shew good and sufficient cause to the satisfaction of the Commissioner for not presenting the appeal within such period. The order of the Commissioner on any such appeal shall be final.

Trial of cases or proceedings under the above and other Acts.

Appeal.

Procedure of Civil Courts in British Burmah to be regulated by Code of Civil Procedure.

XXIII. Except as is in this Act otherwise provided, the proceedings in Civil suits of every description between party and party brought in the Courts of Civil Judicature in British Burmah mentioned in Section II of this Act shall be regulated by the said Code of Civil Procedure, and, except as otherwise provided by this Act or by any Law which may hereafter be passed, by no other Law or Regulation.

Act XIV of 1859 extended to Pegu.

XXIV. Act XIV of 1859 *(to provide for the limitation of suits)*, as amended by Act XIV of 1862, is hereby extended to the Province of Pegu, and shall take effect therein from the date on which this Act comes into operation in British Burmah in supersession of any law of limitation in force in the said Province. Provided that all suits pending in any of the Civil Courts in the said Province upon the date upon which this Act comes into operation in British Burmah shall, so far as regards the provisions in this Section contained, be tried and determined as if this Act had not been passed. Provided also that Clause 15 of Section I of the said Act XIV of 1859 shall not apply to any claim to foreclosure arising under any deed or instrument of mortgage of immoveable property in Pegu

executed before the date aforesaid, but every such claim arising under any such deed or instrument shall, so far as the law of limitation is concerned, be governed by the laws or rules of limitation now in force in that Province.

XXVII. The local jurisdiction of a Deputy Commissioner shall be deemed a District for the purpose of this Act, and the Court of such Deputy Commissioner shall be deemed the District Court within the meaning of the Code of Civil Procedure.

Commencement of Act.

XXVIII. This Act shall come into operation on the 1st day of May 1863.

If a party in a suit is desirous of preferring an appeal to Her Majesty in Council from any final judgment, decree, or order made on appeal or revision by the Court of highest Civil jurisdiction in any Province in British India not subject to the General Regulations, or from any such final judgment, decree, or order made in the exercise of original jurisdiction by the said Court, in any case in which the sum or matter at issue is above the amount or value of 10,000 Rupees, or in which such judgment, decree, or order shall involve, directly or indirectly, any claim, demand, or question to or respecting property amounting to or of the value of 10,000 Rupees, or from any other final judgment, decree, or order made either on appeal or otherwise as aforesaid, when the said Court shall declare that the case is a fit one for appeal to Her Majesty in Council, such Court shall admit such appeal subject to such rules and orders as shall be in force, or shall from time to time be made in that behalf by Her Majesty in Council in respect of such appeals from Her Majesty's High Courts of Judicature in British India.

Appeal from interlocutory judgments.

II. It shall further be lawful for such Court, at its discretion, upon the petition of any party who considers himself aggrieved by any preliminary or interlocutory judgment, decree, or order of such Court in any such proceeding as aforesaid (not being of Criminal jurisdiction), to grant permission to such party to appeal against the same to Her Majesty in Council, subject to such rules, regulations, and limitations, as shall be in force, or as shall from time to time be declared by Her Majesty respecting appeals from final judgments, decrees, and orders, of Her Majesty's said High Courts of Judicature.

IV. The Court, if applied to, may either order the judgment or determination appealed against to be enforced, taking sufficient security for the performance of such order or decree as Her Majesty in Council may make on the appeal; or it may direct, on similar security being found, that no order for enforcing the judgment or determination shall be issued pending the appeal, and that, if any such order has been issued, it shall, so far as it has not been executed, be suspended.

Appellant to find security for costs of appeal.

V. In either of the cases mentioned in the last preceding Section, the Court shall require the appellant to find security for the payment of such costs as it may think likely to be incurred by the appeal.

VI. If a party who is desirous of preferring an appeal to Her Majesty in Council in any of the cases mentioned in Section I or Section II of this Act, shall require the assistance of the said Court for obtaining security from the other party for staying execution of the judgment, decree, or order, that has been passed, or for any other purpose, he shall present his petition to the said Court within six calendar months from the date of the judgment, decree, or order appealed against.

If security be found inadequate, Court may require it to be increased.

VII. If at any time pending an appeal under this Act, the security taken from either party appears inadequate, whether from the increase or improvement of the property forming the subject of appeal, or from the insufficiency of the securities, the Court before which the appeal is pending may, on the application of the other party, require further security.

VIII. In default of such further security being found, if the original security was furnished by the appellant, the Court may issue an order for enforcing the judgment or determination appealed against as if no such original security had been given; and if the original security was furnished by the respondent, the Court, so far as may be practicable, shall compel him to deliver up the property forming the subject of appeal, which shall be disposed of in conformity with such of the rules in force as may be applicable to the particular case.

If additional security be not furnished.

IX. In every case of appeal under this Act the Court shall certify and transmit to Her Majesty in Council under the seal of the Court, two true and correct copies of all evidence, proceedings, judgments, decrees, and orders had or made in the case appealed, so far as the same have relation to the matters of appeal, together with a copy of the reasons given by such Court for or against the judgment or determination appealed against.

Proceedings in the suit appealed to be forwarded to Her Majesty in Council.

X. The expense of preparing the two aforesaid copies, and of translating into English so much of the original documents as may not be in that language, shall be defrayed by the party prosecuting the appeal.

Expense of copying and translating papers in appeals to be paid by Appellants.

XI. The Court shall cause the deposit by the appellant, within the time allowed for furnishing security for costs of appeal, of such a sum as shall be sufficient to cover the expense of making the two aforesaid copies, and when such deposit shall have been made, and not till then, to declare the appeal admitted, and to give notice thereof to the appellant and respondent respectively.

Court to require a deposit from such expense as a preliminary to admission of appeal.

XII. Either party, on application, may obtain one or more authenticated copies of any of the papers in the suit on paying the reasonable expenses incurred in preparing them.

Either party, on paying for the same, may obtain copy of any paper.

XIII. Either party, in like manner, may obtain an authenticated copy of any local regulation or law which he may require in the appeal.

And of any local regulation or law.

XIV. Decrees of Her Majesty in Council how to be executed.

XV. Any party desirous of enforcing or obtaining execution of any such decree or order made in appeal as aforesaid, shall present a petition for that purpose to the Court which made the first decree or order appealed from, and the said petition shall be accompanied by a certified copy of the decree or order made in appeal, and sought to be enforced or executed.

Execution how to be obtained.

XVI. An appeal shall lie from any decree or order made by such last-mentioned Court relating to the enforcement or execution of any such decree or order made in appeal as aforesaid in the same manner and subject to the same laws, rules, and regulations as an appeal from an order or decree made upon a petition for the enforcement of execution of the decree or order first appealed from, would have been.

Appeal from order of enforcement.

XVII. Nothing herein contained shall be construed so as to prevent the said Court of highest Civil jurisdiction from enforcing or obtaining execution of a decree or order made or passed by Her Majesty in Council, if Her Majesty in Council shall think fit to decree or order the said Court to enforce or execute the same.

Court of highest Civil jurisdiction may execute decrees by order of Her Majesty in Council.

XVIII. Nothing in this Act contained, shall be understood to bar the full and unqualified exercise of Her Majesty's pleasure upon all appeals to Her, either in rejecting any she may consider inadmissible, or in receiving any she may judge admissible.

Saving of Her Majesty's power as to receiving or rejecting appeals.

XIX. The words "British India" denote the Territories which are or may become vested in Her Majesty by the said Statute 21 and 22 Vic., c. 106, entitled "An Act for the better Government of India.

THE following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 14th January 1863, and was referred to a Select Committee with instructions to make their report thereon in two weeks :—

No. 1 OF 1863.

A Bill to give effect to certain provisions of a Treaty between His Excellency the Earl of Elgin and Kincardine, Viceroy and Governor-General of India, and His Majesty the King of Burmah.

Preamble.

WHEREAS a Treaty has been negotiated between His Excellency the Earl of Elgin and Kincardine, Viceroy and Governor-General of India and His Majesty the King of Ava, and in the 4th and 8th Articles of the said Treaty it is stipulated and agreed as follows :—

Article 4th.—"When goods are imported into "Rangoon from any British or Foreign Territory, "and declared to be for export by the Irrawaddy "river to the Burmese Territory, the English "Ruler shall, provided bulk is not broken, and he "believes the manifest to be true, charge one per "cent on their value, and if he so desires shall "allow them to be conveyed under the charge "of an Officer until arrival at Maloon and "Menhla. The Tariff value of goods shall be "forwarded yearly to the Burmese Ruler. If such "goods are declared for export to other territories "and not for sale in the Burmese territories, the "Burmese Ruler shall, if he believes the manifest "to be true, not cause bulk to be broken, and such "goods shall be free of duty.

Article 8th.—"Should the British Ruler within "one year after the conclusion of this Treaty "abolish the duties now taken at Thayet Myo "and Tounghoo, the Burmese Ruler with a regard "to the benefit of the people of his country will, "if so inclined, after one, two, three, or four years "abolish the duties now taken at Maloon and "Tounghoo (in the Burmese Territory.)"

And whereas it is necessary to give effect to the stipulations and engagements aforesaid by an Act to regulate the Duties of Customs at the port of Rangoon and elsewhere in conformity to such stipulations and engagements; It is enacted as follows :—

Duty on goods imported into Rangoon from British or Foreign Territory limited to one per cent *ad valorem*.

I. When any goods are imported into Rangoon from any British or Foreign Territory whether under bond or otherwise, and declared by the importer thereof to be for export by the Irrawaddy river to the Burmese Territory for sale therein, or for export through such territory for sale in other territories, such goods may be entered at the Custom House at Rangoon for such export and sale, and thereupon a duty of customs of one per cent *ad valorem* and no more, shall be charged, provided that bulk of such goods is not broken, and the Officer in charge of the Custom House is satisfied of the truth of the entry of such goods in the Manifest of the Vessel wherein such goods are brought to Rangoon.

Conveyance of goods imported as above to Maloon and Menhla.

II. Whenever any goods are entered at the Custom House at Rangoon under the last preceding Section such goods may be conveyed to Maloon and Menhla under charge of an Officer to be appointed for the purpose and the Officer so appointed to the charge of such goods shall be held

to be a public servant within the meaning of Section 186 of the Indian Penal Code.

III. It shall be lawful for the Governor General of India in Council by a notification to be published in the Calcutta Gazette, to order the discontinuance of the duties now levied at Thayet Myo and Tounghoo, and subsequently, if he shall see fit, by a like notification to order that such duties shall be revived and re-imposed, and any order made and published under this Section shall have the force of law.

Governor General may discontinue duties now taken at Thayet Myo and Tounghoo.

IV. This Act shall take effect from the time when the ratifications of the said Treaty are exchanged.

Commencement of Act.

STATEMENT OF OBJECTS AND REASONS.

This Bill has been prepared to give legal effect to a provision in the recent Treaty with the King of Burmah, a copy of which accompanies this paper. A main object in the negotiation, was an improvement of the Commercial relations between the Province of British Burmah and the Kingdom of Burmah, and it is probable that this will be in considerable measure attained through the instrumentality of the Treaty. The 4th Article which provides for a reduction of duty to one per cent. in the case of goods imported into Rangoon for export up the Irrawaddy to the Burmese Territories, and for sale there or other Territories, (as for instance in China), will necessitate a modification of the Laws for the regulation of Customs Duties. This modification might have been introduced into the Consolidated Customs Bill now before the Council, but as that measure is intended for general application, it has been thought better to deal with the present exceptional case by a separate Bill.

Article 8 which contemplates the abolition of the frontier duties now levied at Thyet Myoo and Tounghoo, also appears to require legislative provision, and a short Section is therefore added to authorize the Governor-General by notification to give effect to this part of the Treaty.

STATEMENT OF OBJECTS AND REASONS.

THE Bengal Government having, on the 22nd April last, represented to the Governor General in Council that no appeal was allowed from the decisions of the Superintendent of Darjeeling in Civil cases, and that it was desirable that the Judicial Administration of that Settlement should be placed under the Sudder Court, the Government of India in their reply dated the 22nd May entered into the consideration of the best mode of giving effect to the main object of the Bengal Government without unnecessarily adding to the business of the Highest Court of Appeal. It was stated to be the opinion of the Government of India that the jurisdiction of the Sudder Court, on its Civil side, should be confined as much as possible to settling disputed points of law and practice, or usage having the force of law, leaving the Court, as a rule, to exercise its appellate jurisdiction, in respect of questions of fact, in those cases only in which the amount or value of the property in dispute was comparatively large; and it was suggested that the administration of Civil Justice in Darjeeling "might be placed on a proper and satisfactory footing, if the Superintendent were vested with a final jurisdiction on points of both law and fact in all cases of the nature of those described in Section III, Act XLII of 1860, (the Small Cause Court Act), with power to grant a new trial subject to the provisions contained in Section XIII of that Act, and of stating a case to the Sudder Court under Sections XIV to XIX; and if in all other suits not exceeding Rupees 5,000 in amount or value, a regular appeal were allowed from the decision of the Superintendent to the Judge of Dinagepore, who on the Criminal side of his Court tries commitments of the Superintendent and hears appeals from his orders as Magistrate; and if in the regular appeals so decided by the Judge a special appeal were allowed from his decisions to the Sudder Court at Calcutta under the rules for the admission and decision of special appeals contained in the Code of Civil Procedure. In suits exceeding Rupee 5,000 in amount or value, the rule obtaining in the Regulation Districts might be followed of allowing a regular appeal from the decision of the Superintendent to the Calcutta Sudder Court."

It was also stated to be the opinion of the Governor General in Council that, simultaneously with the introduction of these measures, the Code of Civil Procedure, with any necessery modifications, might be extended to Darjeeling.

The Secretary of State in a Despatch dated the 14th August expressed his concurrence with the Government of India, but intimated his opinion that legislation to extend the jurisdiction of the High Court (the establishment of which he supposed then to have taken place) should be by the Council of the Governor-General.

The Bengal Government having since transmitted a draft Bill drawn in conformity to the views of the Government of India, this Bill, with a few modifications, is now submitted to the Council. The correspondence to which reference has been made will accompany this paper.

It is intended that the Code of Civil Procedure shall be extended to Darjeeling, so as to come into operation contemporaneously with this Bill when passed into a law.

No. 383.

The following Orders passed by the Right Hon'ble the Secretary of State for India are published for general information in continuation of the Notification No. 241, dated the 14th January 1862, published in the *Calcutta Gazette* of the 15th idem:—

Extract from the Secretary of State's Public Despatch No. 46, dated 31st May 1862.

Para. 2.—You will have learned from my Despatch to the Government of Bombay dated the 8th April last, No. 11, that, in connection with the Orders of that Government of the 26th November 1861, relative to the case of Public Officers who might take part in any Company formed for working the Gold Mines in the Dummul Hills, I stated that, "as a general rule, I see no objection to servants of Government holding shares in Mining or other Companies, having for their object the development of the resources of the country; and the only restriction I think it necessary to impose is that Public Servants shall take no part in the management of such Institutions, and shall not be employed in the Districts where the operations of the Company may be carried on."

3. With the exception of the concluding proviso that no Public Officer shall be employed in any District where any Company in which he holds shares may carry on its operations, the sentiments above expressed are in accordance with the opinions recorded by Earl Canning and the several Members of your Council, and, as I think it important that this condition should be maintained, I have to direct that my decision, communicated in the terms above quoted to the Government of Bombay, may be made generally applicable, and may be published for general information.

4. There can be no doubt as to the great evil of Public Servants in India engaging in speculations in the Public Funds, or in the shares of Joint Stock Companies; but I agree in the opinion of Lord Canning that such a practice on the part of any Officer could not long escape the knowledge of Government, and that it would be in the power of Government to mark its sense of such conduct either by withholding promotion, or in any other way it might deem fit.

Extract from the Secretary of State's Revenue Despatch No. 22, dated 25th November 1862.

Para. 3.—In your letter of the 8th May (No. 10) you request to be informed whether a Covenanted Civilian may hold shares in a Joint Stock Company formed for agricultural purposes, such as Tea or Coffee cultivation, in his own Presidency. This question is sufficiently answered in my Public Despatch of the 31st May (No. 46) 1862, which you would have received shortly after the date of your reference.

4. As regards the question whether a Covenanted Madras Civilian may hold land in Mysore, Coorg, Cochin, or Travencore, I agree with your Government in viewing with disapproval the holding by Covenanted Civil Servants of lands in Native States, and I consider that the same objection applies to the holding of such lands by Military Officers in the actual Service of the Crown in India.

5. The right of Officers, Civil or Military, to hold shares in the agricultural Companies operating in Native States may be regulated by the same Rules as apply to their holding shares in similar Companies within the British Territories.

Secy. to the Govt. of India.

"Sales shall be held on the 2nd of each month, or on the 1st day after that date on which the Collector's Office may be open, unless the Collector shall, with the sanction of the Commissioner, for special reasons, fix a later date in the month. When for any reason a sale is deferred from the date originally fixed in the Advertisements notice of the date to which it is deferred will be given by an Advertisement at the Collector's Office."

3. With reference to paragraph 2 of the Government Order 3394, the attention of Commissioners is called to Circular No. 65A., dated 6th November last. In the meantime they will exercise the discretion vested in them by this paragraph, and with this view it is directed that, until the Registers of Reserved Lands are prepared and published, Collectors shall report, for the orders of Commissioners (and the Superintendent of Darjeeling for the orders of the Board), full particulars of all applications which may be made for lands on which Teak or Saul Timber stands.

By Order of the Board of Revenue, Lower Provinces,

H. L. Dampier,
Secretary.

No. 378.

From H. L. Dampier, Esq.,
Secretary to the Board of Revenue,
To the Offg. Secy. to the Govt. of Bengal.

Fort William, the 25th November 1862.

Land Revenue.

Sir,—I am directed by the Board of Revenue to report on a letter from the Secretary to the Landholders' and Commercial Association, to your address, dated 3rd instant, as required by your endorsement No. 2787 of the 13th instant.

W. J. Allen, A. Grote, and E. T. Trevor, Esqrs.

2. The Association has, in the opinion of the Board, shewn good cause for an alteration in Supplementary Rule F. With His Honor's sanction the Board will modify the Rule and direct that sales be held on the 2nd of each month, or on the first day after that date on which the Collector's Office may be open, unless the Collector shall, with the sanction of the Commissioner, for special reasons, fix a later date in the month, notification of which shall be given at least a month before the later date is fixed.

3. The second part of the letter of the Association prays for a modification of Supplementary Rule N. His Honor will observe that the Board have in this Rule adopted the expression made use of in your letter No. 2333, dated 10th ultimo directing the present reservation of "all forest lands, that is to say, lands on which valuable Timber is growing." The arguments advanced by the Association are of much weight and a strict adherence to Supplementary Rule N. as it stands, which interfere to a considerable and unnecessary extent with the immediate allotment of grants. But there is an obvious difficulty in laying down any general Rule defining what lands shall be reserved as being covered with "valuable" Timber until the Local Officers have drawn up their Registers of Waste Lands after full local enquiry. The Superintendent of Darjeeling has already addressed the Board on this difficulty. They recommend that, until the Registers be prepared, a discretion be left to the Commissioner (and in Darjeeling to the Board) to sell land, although covered with the more valuable description of Timber, on their being satisfied that the reservation of the tracts in question is not necessary for the object which the Government have in view.

4. Mr. Grote is of opinion that the guarantee held out by Rule 22 of the Government Notification of the 30th August last does not admit of any exceptional treatment under Supplementary Rule N. of lands which have been applied for, and for which the applications have been duly registered under the Resolution of the Government of India, dated 17th October 1861. His colleagues, however, are clearly of opinion that paragraphs 23 and 24 of the Resolution of the 17th October 1861, and Rule 21 of the Notification of the 30th of August last, leave the Government free to reserve any required land under whatever Rules it may have been applied for.

5. The enclosure of your endorsement is returned.

I have, &c.,

Secretary.

No. 3394.

From the Offg. Secy. to the Govt. of Bengal,

To the Secretary to the Board of Revenue.

Fort William, the 12th December 1862.

Revenue.

Sir,—I am directed to acknowledge the receipt of your letter No. 378, dated the 25th ultimo, submitting the Board's report on the letter from the Secretary to the Landholders' and Commercial Association, dated the 3rd idem, taking exception to the conditions F. and N. of the Board's Supplementary Rules for the sale of unassessed Waste Lands. With reference to your 2nd paragraph I am to state that the Lieutenant-Governor agrees with the Board in the opinion expressed therein and directs that Rule F. may be modified so as to provide for monthly sales.

2. As regards the question of reserving forest lands I am to request that the Board will be good enough to direct the Local Officers to lose no time in submitting a List of the lands which they propose to reserve under Rule 21 of the New Rules. In the meantime the Lieutenant-Governor is pleased to vest the Commissioners generally, and the Board in the case of Darjeeling, with powers to say what are and what are not lands covered with valuable Timber. His Honor is of opinion

that for the present the best practicable definition of valuable Timber forests is forests of Teak or Saul, that is to say, lands in which such trees abound, not tracts in which merely isolated trees or small isolated patches of trees are found, and forests of other Timber now actually valuable or marketable, that is to say, Timber for which there is a present demand.

3. Referring to your 4th paragraph the Lieutenant-Governor concurs entirely with the majority of the Board in considering that there is nothing contained in Rule 22 of the Notification of 30th August last which renders the reservation of forest lands a matter of difficulty when applications for such lands have been registered under the Resolution of 17th October 1861. Rule 22 simply provided that applications registered under that Resolution would be dealt with in the spirit of the Resolution, one of the express conditions of which was that forest, fuel, and grazing reserves were not to be sold; and, as shewn by the majority of the Board, the 21st of the New Rules provides for the exceptional treatment of such lands.

I have, &c.,

Offg. Secy. to the Govt. of Bengal.

SHAHABAD COLLECTORATE,
The 30th August 1862.

REPORT

BY THE

DIRECTORS OF THE BANK OF BENGAL

FOR HALF-YEAR ENDING 31ST DECEMBER 1862.

THE Directors have the pleasure of submitting to the Proprietors their usual periodical Report on the Bank's transactions at the Head Office and Branches.

Throughout the entire period, ending on 31st December last, the money market has been characterised by almost uninterrupted steadiness and ease. The comparatively low rates of interest prevailing at the date of last report were maintained until the end of the following August, when, owing to the extreme inactivity of trade, and the active competition for Banking business consequent on the accumulation of capital in the hands of the Public, loans at short dates were available at rates under those charged by the Bank. On 28th August the rates of interest and discount were reduced one per cent all round. The first decided symptoms of renewed activity in commercial enterprise manifested themselves towards the middle of September, chiefly in connection with the export of Cotton. On the 25th of the last mentioned month rates were raised to the same point at which they stood on the 30th June preceding. No other change occurred during the Half-year. That the closing months of the year were marked by more buoyancy in the money market, and by increased animation in trade, will be apparent when it is stated, that, from a minimum of one Crore and thirty-four Lacs as at 3rd September, the Bank's advances to the Public gradually rose to one Crore and ninety-nine Lacs, with which sum outstanding the Bank's transactions of the Half-year terminate.

After ten months experience of the operation of the New Charter, and of the more intimate relations now subsisting between Government and the Bank, the Directors are in a position to inform the Proprietors that the new arrangements, both at the Head Office and the Branches, have hitherto proved of advantage to Government and the Public, as well as a source of legitimate profit to the Bank. The success attending the establishment of Branches has fully realized the expectations of the Directors. Negotiations have recently been concluded with Government under which additional Agencies will immediately be opened at Nagpore, the Capital and centre of the great Cotton District of Central India; at Allahabad, the seat of the local Government in the North-West; and at Lucknow, the Chief City in Oudh.

The Directors, while fostering by every means in their power, continue to watch with much interest, the progress of the Government Paper Currency. In Districts within the more immediate sphere of the Bank's operations, and familiarised to the use of a Note circulation, its success has been very decided. In the upper portions of the Bengal Circle its progress is, however, less marked; while in Rangoon, where the European population more largely predominates, and where Notes were formerly almost unknown, a considerable amount is in active circulation. As old usages and prejudices are laid aside the Directors do not doubt that the new Currency will expand throughout India and largely economise the use of the precious metals, but its growth in India as elsewhere, must necessarily be gradual. The nett profits for the past Half-year amount to Rupees 6,96,867-1-4, out of which the Directors have declared a dividend at the rate of twelve per cent per annum free of Income Tax, and, since the opening of the Books for the current Half-year, have transferred the balance, amounting to Rupees 37,412-8-8, to the credit of the Reserve Fund, which now stands at Rupees 16,69,982-9-1.

TREATY WITH THE KING OF BURMAH.

The Hon'ble Mr. MAINE introduced the Bill to give effect to certain provisions of a Treaty between His Excellency the Earl of Elgin and Kincardine, Viceroy and Governor-General of India, and His Majesty the King of Burmah, and moved that it be referred to a Select Committee with instructions to report in two weeks. He said that it was extremely desirable that this Bill, to give effect to some of the provisions of the Burmese Treaty, should be passed without delay, and, in the first instance, he had intended to apply to His Excellency to suspend the Rules of business in order that it might be passed at once. But on consideration it appeared to be better, in reference to the great importance of the Commercial interests at stake, to refer it to a Select Committee, on which he hoped that the Members of the Council who were connected with the Commercial community would consent to serve. He proposed that the Committee should be instructed to report in two weeks, and when the Report was presented he would then request permission, under a suspension of the Rules, to move that the Bill be passed.

His Excellency the VICEROY said that, before putting the question to the vote, he must observe that great credit was due to Colonel Phayre for the manner in which he had managed the Treaty. It was a well known fact that the Burmese Government had always manifested a great disinclination to enter into relations, either political or commercial, with the Government of India, and it was his impression that the disinclination had been removed by the tact and good judgment displayed by Colonel Phayre without the use of menace or the application of any undue pressure. The present engagement was hardly sufficiently comprehensive to be called a Commercial Treaty, but it was without doubt a step towards the development of trade by opening up an intercourse, not only between British Burmah and Burmah Proper, but by opening up a similar intercourse between British Burmah and the States on the South-West Frontier of China. The importance of opening up some direct communication with these Provinces of China had been much insisted on of late. Various routes had been spoken of; among others, it had been suggested that a road might be opened up through British Burmah and the Shan States to a Town named Esmoke, in the Chinese Province of Yunan. He had, however, looked much into these matters, and his impression at that moment was that the most practicable route would be up the Irrawaddy to Bamoo, and thence across the Yunan

Frontier. It was true that they were not aware of the nature of the country to be traversed between Bamoo and the Frontier of Yunan, but it was satisfactory to know that the distance was not great, probably not more than 120 or 130 miles, and that the route was one constantly frequented in time of peace by Chinese Traders, and he thought that one of the most flattering prospects connected with the Treaty was, as far as he could gather from conversation with Colonel Phayre, the extreme interest evinced by these men in the success of his negotiations. He need hardly say that, if this enterprising class of persons found it to be their interest to resort to British Burmah or to Assam either as Traders or as Settlers, it would be highly conducive to the interests of those Provinces. The Bill now about to be submitted to a Select Committee would enable the Executive Government to make certain concessions, which would, he hoped, induce the Burmese Government to follow the example thus set them and enter upon a more liberal policy. With reference to these concessions he would merely remark that, with the exception of a certain sacrifice of Revenue, which Colonel Phayre had recommended the Government of India to make on other and independent grounds, they would involve no loss, and that, even in the absence of more perfect reciprocity, they were likely to conduce to a mutually profitable trade; and besides it was intended to reserve with the Executive the power of re-imposing the duties alluded to should the expected reciprocity not be granted. He (His Excellency) would not certainly guarantee that all the advantages he had just mentioned would follow on the Treaty. He had had too much experience of the difficulties of bringing into harmony Oriental Governments and European Traders to speak positively on such a subject; but he had every confidence that, if carried out properly, the engagement now made would result in the development of a vast amount of wealth. He hoped, too, that, by conciliatory conduct and firmness, the Agents of Government in Burmah would be able to remove the difficulties which were always apt to arise in carrying out engagements of this nature with such States, and would repeat his opinion that great advantages would accrue not only to British interests, but to the interests of those States themselves.

The Motion was put and agreed to.

CALCUTTA,
The 14th January 1863.

Government of Bengal.

Waste Lands in Darjeeling.

From H. L. DAMPIER, ESQ., Secretary to the Board of Revenue, to the Under-Secretary to the Government of Bengal,—(No. 349, dated the 28th October 1862.)

IN reply to your letter No. 1402, dated 2nd August last, I am directed by the Board to report that it appears that, although several applications were registered, no lands have been formally assigned by Local Officers in any District under the misapprehension that they were authorized to give effect at once to the Resolution of the Supreme Government, dated 17th October 1861.

2. I am, however, to submit copy of a letter from the Superintendent of Darjeeling No. 960, dated 6th ultimo, reporting in detail on certain cases in which applications were made to Dr. Campbell.

3. In none of these cases was the Advertisement issued, which is required by paragraph 17 of the Resolution of the 17th October; the Board therefore recommend that the Superintendent be

directed to issue the Advertisements at once on each case, and to proceed under Rule XXII. of the Government Notification of August 30th, 1862.

From H.C. WARE, Esq., C.E., Superintendent of Darjeeling, to the Secretary to the Board of Revenue, Lower Provinces,—(No. 960, dated the 6th September 1862.)

IN reply to your Circular No. 916, dated 23rd August, I have honor to inform you that no assignments have been made in this District under the Government of India's Resolution of the 17th October 1861.

2. With reference, however, to Clause 76 of the Despatch of the Secretary of State of the 9th of July 1862, which rules that the orders in question are not to have retrospective effect, and that the Board may be prepared for the claims which will doubtless be preferred on the grounds of "arrangements already concluded," I will detail all the instances in which any arrangements have been made by my predecessor, premising that, as the Board are by this time doubtless aware, an attempt will be made generally to prove that the reception of survey money gives the applicants a title.

3. On the 3rd of January Mr. Dear paid the purchase money of 500 acres of land at Kinchintong, at Rupees 2-8 an acre, in full Rupees 1,250, his application having been made on the 31st December 1861 under the Resolution of the 17th October 1861.

4. On the same date Mr. Rundle paid a similar amount for the same quantity of land in the same place.

5. On the 1st February 1862 Captain C. Murray, Officiating Superintendent, wrote to Captain Cornish, who had applied for 3,000 acres situated at Merick, as follows:—"The usual assignment will be made on the land being surveyed. As there are no other applications made for the same you can commence operations pending the above survey" On the same date he wrote the same to Mr. F. N. Cornish, who had applied for 3,000 acres situated on the Setong Spur.

6. These are the only instances in which the price has been received or positive assurance of assignment given.

7. On the 11th December 1861 Dr. Campbell wrote to Mr. Jennings, who had applied for 2,000 acres situated in the Turrai, that after survey "the land, or as much of it as was available, should be granted."

8. On the 26th November 1861 he wrote to Mr. Lindeman, who had applied for 100 acres situated on the new cart road towards Seelim, your application "to that extent shall be complied with as soon as may be under the new Resolution."

9. On the 23rd of December 1861 Dr. Campbell called upon applicants by Circular to pay in, without delay, 2 annas per acre towards the survey expenses—

And Messrs. David Cowie,
Southby,
Scanlan,
Mohamed Torikoolla,
Troylucko Nath,
Brine,
Donoghue,
Stalkart,

complied with his order. Many other applicants for land paid bills for line-cutting and survey submitted by Major Sherwill, Revenue Surveyor.

10. The grounds on which all these applicants, and particularly those who have received positive assurance of assignment, ground their claims is that they have gone to considerable expense in making arrangements for the cultivation of the land of which they considered themselves the prospective owners.

From the HON'BLE A. EDEN, Officiating Secretary to the Government of Bengal, to the Secretary to the Board of Revenue,—(dated the 2nd December 1862.)

IN reply to your letter Nos. 349 and 350, dated the 28th and 30th October last, on the subject of the Waste Lands at Darjeeling, I am directed to refer the Board to Orders No. 2688, dated the 6th ultimo, and to state that the Lieutenant-Governor sees no reason for making any exceptions at all as regards the Advertisement required by paragraph 17 of the Resolution of the 17th October 1861.

From H. L. DAMPIER, Esq., Secretary to the Board of Revenue, Lower Provinces, to the Secretary to the Government of Bengal,—(No. 412, dated the 23rd December 1862.)

I AM directed by the Board of Revenue to submit, for the consideration of His Honor the Lieutenant Governor, the accompanying letter, No. 1354, dated 3rd instant, from the Superintendent of Darjeeling, with enclosures.

2. The cases of the Messrs. Dear and Rundle and Captain Cornish are among those which were specially mentioned in the Superintendent's letter No. 960, dated 6th September 1862, which was submitted to Government with my No. 349, dated 28th October. With those facts before him His Honor the Lieutenant Governor, in concurrence with the Board's recommendation, ordered that no exception should be made to the Rule that the Advertisements must be issued in all cases.

3. This course was necessary as a distinct assertion of the principle that the Government was in no way bound by the arrangements made, or the expectations raised by the Superintendent of Darjeling in excess of the authority which had been delegated to him. This having been done the Board would now submit, for the Lieutenant-Governor's consideration, whether concessions should not be made to those who were so far misled by the late Superintendent's misapprehension of his authority under the Resolution of the Governor General in Council dated 17th October 1861, as to take actual possession and to commence clearances or other operations on the land.

4. It will be seen that in Captain Cornish's case there was a specific permission from Captain Murray, then Officiating Superintendent, to commence operations at once But the Board do not think that absence of this specific sanction in other cases is of much weight as altering the nature of the case. Possession would hardly have been taken without an implied permission from the Superintendent, and they look upon the written communication of that permission as a mere accident.

5. If the Lieutenant-Governor concurs with the Board in this view, and sees the same difficulty in drawing a line between applicants who have acted in anticipation of a formal assignment of the lands applied for, he will probably also agree with them in the opinion that, if concessions are to be made in favor of Captain Cornish or Mr. Dear, they should embrace the cases of all registered applicants who have actually entered on occupancy and commenced operations on their lands. Such lands might be excluded from sale where the

occupants agreed to pay for them at Rupees 10 an acre, being the higher rate at which they were obtainable before the date of the Resolution, and which, it is hoped, will be realized at auction sale. If these terms be refused the sales might be allowto proceed.

6. Several sales, it will be seen, are fixed for the 4th proximo.

From H. C. WAKE, ESQ., C. S., Superintendent of Darjeeling, to the Secretary to the Board of Revenue, Lower Provinces, —(No. 1354, dated the 3rd December 1862.)

I HAVE the honor to forward the enclosed Protest* addressed to me by Mr. Dear; this is one of the special cases mentioned by me in paragraph 3 of my letter No. 961, dated 6th September last. When His Honor the Lieutenant-Governor was here I brought these cases to his notice, pointing out their hardship, but after the decided reply of the Board on the subject in their letter No. B., dated 26th September last, I had no option but to advertise the lot with the rest.

* To be returned when done with.

2. Having, however, received this Protest, I must request the orders of the Board that I may withdraw it at time of sale.

3. A Protest by Captain Cornish, also enclosed, bei g received before the issue of the Advertisements, I have refrained from advertising the land referred to pending final orders.

From CAPTAIN P. G. CORNISH, Invalid, to H C. WAKE, Esq., C. S., Superintendent of Darjeeling,—(dated Darjeeling, the 26th November 1862.)

HOLDING certain letters, as you are aware, authorizing me to commence operations at Merig and Mahalderam pending survey, &c., and such survey, in the one instance (Merig), having been completed, and believing also you consider my title under such letters as deserving of consideration, may I request you will do me the favor, pending the orders of Government, of not including the lands in question in the Advertisement which, I am given to understand, is about to be forwarded for publication in the *Government Gazette*.

From H. DEAR, ESQ., to H. C. WAKE, ESQ., C. S., Superintendent of Darjeeling,—(No. 234, dated Darjeeling, the 3rd December 1862.)

I HAVE the honor to state that, owing to my friend and partner Mr. C Rundle's severe indisposition I have been unable before now to address you on the subject of our one thousand (1,000) acres of land at Rinchintong for which we applied, and which we hold according to the Governor General's Orders dated the 17th October 1861; but in finding this morning a Notice posted at your Cutcherry, in which the said land is advertised for sale on the 4th proximo, I lose no time in addressing you on the subject.

On behalf of Mr. Rundle and myself I beg most respectfully to protest against the sale of the aforesaid land on the following grounds:—

You are aware that we have already paid the full price of it to your predecessor for which we hold his receipts, and that the money has been credited to Government, and under a firm conviction that we had a clear right and title to the land we are in possession of it.

And, in pursuance of the object with which we applied for the land, we have incurred, and are incurring considerable expense in establishing Tea Plantations thereon. We respectfully submit that, if any of the formalities prescribed in the Governor General's Resolution of the 17th October 1861, or in subsequent orders, have not been strictly carried out by your predecessor, it would be a most hard case indeed that we should suffer for it, who have fulfilled our part of the engagement.

I beg therefore you will have the goodness to treat Mr. Rundle's case and mine as exceptional and peculiar, and make a favorable representation thereof to Government, and meanwhile withdraw the order for sale on the 4th proximo.

From E. H. LUSHINGTON, ESQ., Secretary to the Government of Bengal, to the Secretary to the Board of Revenue,—(No. 3491, dated the 30th December 1862.)

YOUR letter No. 412, dated the 23rd instant, with its enclosures, having been laid before the Lieutenant-Governor, I am directed to state, for the information of the Board, that, in dealing with the present case, it is essential to remember that it was not competent to the Superintendent of Darjeeling to entertain or register applications for Waste Land under the Resolution of the 17th October 1861, much less to allot such land, to receive the estimated cost of its survey, to sell it, or to give possession until Rules of Procedure had been laid down by the Local Government in accordance with paragraph 20 of the Resolution.

2. Even if the Superintentent of Darjeeling had had authority to act under the Resolution, and if the Rules required by paragraph 20 of the Resolution had been laid down, His Honor observes that his proceedings in these cases would have been entirely erroneous, and in several material points opposed to its express provisions, for the applications were not advertised as required by paragraph 17, no opportunity was given to other purchasers to offer to buy the same land, and it is even said that several other persons who applied for these very lands were told that that they had been already disposed of.

3. It is only grants made in conformity with the Rules of Procedure required by paragraph 20 of the Resolution to be laid down by the Local Government that were declared not liable to be disturbed; but no such Rules were ever laid down, and it is clear, therefore, His Honor thinks, that the applicants to whom these lands have been made over by the irregular and unauthorized act of the Superintendent have no title whatever to them. The Government has entirely repudiated the acts of the Superintendent, and does not hold itself bound by them.

4. In like manner the Secretary of State, in declaring that his orders are not to have retrospective effect, exempts from their operation only lands in respect to which arrangements have been

actually completed *under the provisions of the Resolution;* but these arrangements, so far from having been made under the provisions of the Resolution, were made in direct contravention of them, and are certainly not such arrangements as the Government can support or acknowledge. It cannot be allowed that the persons into whose hands the lands have thus irregularly passed shall be allowed to acquire them on the most favorable terms set forth on the Resolution, when none of the conditions on which those terms were sanctioned have been complied with.

5. The Lieutenant-Governor has no objection, however, to allow those who have actually entered on the occupancy of lands for which they were registered applicants to retain the lands on the terms on which the Superintendent was authorized to dispose of them at the time under previously existing Rules. If, therefore, the holders of such lands are willing to pay for them at Rupees 10 an acre they may be permitted to keep them on those terms and the lands will not be put up to auction, otherwise the sales must go on.

6. In conclusion I am to forward herewith, for disposal by the Board, with reference to the above orders, a Memorial,* in original, from certain Landholders and Tea Planters of the District of Darjeeling, addressed to His Excellency the Viceroy and Governor General of India in Council, dated the 10th instant, and to observe that no further relaxation of the Rule can be admitted.

* Dated 10th instant.

It shall further be lawful for such Court, at its discretion, upon the petition of any party who considers himself aggrieved by any preliminary or interlocutory judgment, decree, or order of such Court in any such proceeding as aforesaid (not being of Criminal jurisdiction), to grant permission to such party to appeal against the same to Her Majesty in Council, subject to such rules, regulations, and limitations, as shall be in force, or as shall from time to time be declared by Her Majesty respecting appeals from final judgments, decrees, and orders, of Her Majesty's said High Courts of Judicature.

VIII. In default of such further security being found, if the original security was furnished by the appellant, the Court may issue an order for enforcing the judgment or determination appealed against as if no such original security had been given; and if the original security was furnished by the respondent, the Court, so far as may be practicable, shall compel him to deliver up the property forming the subject of appeal, which shall be disposed of in conformity with such of the rules in force as may be applicable to the particular case.

If additional security be not furnished.

IX. X. The expense of preparing the two aforesaid copies, and of translating into English so much of the original documents as may not be in that language, shall be defrayed by the party prosecuting the appeal.

Expense of copying and translating papers in appeals to be paid by Appellants.

XI. The Court shall cause the deposit by the appellant, within the time allowed for furnishing security for costs of appeal, of such a sum as shall be sufficient to cover the expense of making the two aforesaid copies, and when such deposit shall have been made, and not till then, shall declare the appeal admitted, and give notice thereof to the appellant and respondent respectively.

Decrees of Her Majesty in Council how to be executed.

XV. Any party desirous of enforcing or obtaining execution of any such decree or order made in appeal as aforesaid, shall present a petition for that purpose to the Court which made the first decree or order appealed from, and the said petition shall be accompanied by a certified copy of the decree or order made in appeal, and sought to be enforced or executed.

Execution how to be obtained.

IV. This Act shall take effect from the time when the ratifications of the said Treaty are exchanged.

STATEMENT OF OBJECTS AND REASONS.

This Bill has been prepared to give legal effect to a provision in the recent Treaty with the King of Burmah, a copy of which accompanies this paper. A main object in the negotiation, was an improvement of the Commercial relations between the Province of British Burmah and the Kingdom of Burmah, and it is probable that this will be in considerable measure attained through the instrumentality of the Treaty. The 4th Article which provides for a reduction of duty to one per cent. in the case of goods imported into Rangoon for export up the Irrawaddy to the Burmese Territories, and for sale there or other Territories, (as for instance in China), will necessitate a modification of the Laws for the regulation of Customs Duties. This modification might have been introduced into the Consolidated Customs Bill now before the Council, but as that measure is intended for general application, it has been thought better to deal with the present exceptional case by a separate Bill.

Article 8 which contemplates the abolition of the frontier duties now levied at Thyet Myoo and Tounghoo, also appears to require legislative provision, and a short Section is therefore added to authorize the Governor-General by notification to give effect to this part of the Treaty.

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 14th January 1863, and was referred to a Select Committee with instructions to make their Report thereon in three weeks:—

I. Every decision or order passed by the Superintendent of the Settlement of Darjeeling in suits of the nature cognizable in Courts of Small Causes under Act XLII of 1860, shall be final, and no appeal shall lie from such decision or order. Provided that it shall be competent to the Superintendent, if he shall think fit, to grant a new trial, if applied for, within the period of thirty days from the date of

the decision; but no new trial shall be granted unless the party applying for the same shall, with his application, deposit the amount for which judgment shall have been given against him, including the costs (if any) of the opposite party.

Superintendent may refer questions of Law, &c., to High Court.

II. If in the trial of any suit any question of Law or usage having the force of Law, or the construction of a document affecting the merits of the decision, shall arise, on which the Superintendent shall entertain reasonable doubt, the Superintendent may, either of his own motion, or on the application of any of the parties to the suit, draw up a statement of the case and submit it with his own opinion for the decision of the High Court.

Superintendent may pass Decree contingent upon the opinion of the High Court, pending which, execution not to issue.

III. The Superintendent may proceed in the case notwithstanding a reference to the High Court, and may pass a decree contingent upon the opinion of the High Court on the point referred; but no execution shall be issued in any case in which a reference shall be made to the High Court until the receipt of the order of that Court.

Full bench of the High Court to decide cases referred under this Act.

IV. Cases referred for the opinion of the High Court shall be dealt with by two or more Judges of that Court.

High Court to fix an early day for the hearing of the case.

Proclamation thereof.

V. The High Court shall fix an early day for the hearing of the case, and shall notify the same by a proclamation to be fixed up in the Court House of that Court.

Parties may appear and be heard in person or by pleader.

VI. The parties to the case may appear and be heard in the High Court in person or by pleader.

Decision of High Court how to be transmitted.

VII. The High Court, when it has heard and considered the case, shall transmit a copy of its judgment, under the seal of the Court and the signature of the Register, to the Superintendent, and the Superintendent shall, on the receipt thereof, proceed to dispose of the case conformably to the decision of the High Court.

Costs of reference to High Court.

VIII. Costs, if any, consequent on the reference of a case for the opinion of the High Court shall be costs in the suit.

In suits other than those referred to in Section I, and of an amount or value not exceeding 5,000 Rupees, a regular appeal to lie.

IX. In all suits other than those mentioned in Section I of this Act, in which the amount or value of the suit shall not exceed Rupees 5,000, an appeal from the decision of the Superintendent shall lie to the Judge of Dinagepore, subject to the rules contained in the Code of Civil Procedure regarding regular appeals.

Special appeal to High Court in certain cases.

X. A special appeal shall lie to the High Court of Judicature at Fort William from all decisions passed in regular appeal by such Judge, on the ground of the decision being contrary to some Law or usage having the force of Law, or of a substantial error or defect in Law in the procedure or investigation of the case, which may have produced error or defect in the decision of the case upon the merits, and upon no other ground, and such special appeal shall be subject to the rules contained in the Code of Civil Procedure regarding special appeals.

In suits above 5,000 Rupees regular appeal to lie to High Court.

XI. In all suits heard and determined by the Superintendent in which the amount or value of the suit shall exceed Rupees, 5,000, an appeal shall lie to the said High Court, subject to the rules contained in the Code of Civil Procedure regarding regular appeals.

Statement of Objects and Reasons.

The Bengal Government having, on the 22nd April last, represented to the Governor General in Council that no appeal was allowed from the decisions of the Superintendent of Darjeeling in Civil cases, and that it was desirable that the Judicial Administration of that Settlement should be placed under the Sudder Court, the Government of India in their reply dated the 22nd May entered into the consideration of the best mode of giving effect to the main object of the Bengal Government without unnecessarily adding to the business of the Highest Court of Appeal. It was stated to be the opinion of the Government of India that the jurisdiction of the Sudder Court, on its Civil side, should be confined as much as possible to settling disputed points of law and practice, or usage having the force of law, leaving the Court, as a rule, to exercise its appellate jurisdiction, in respect of questions of fact, in those cases only in which the amount or value of the property in dispute was comparatively large; and it was suggested that the administration of Civil Justice in Darjeeling "might be placed on a proper and satisfactory footing, if the Superintendent were vested with a final jurisdiction on points of both law and fact in all cases of the nature of those described in Section III, Act XLII of 1860, (the Small Cause Court Act), with power to grant a new trial subject to the provisions contained in Section XIII of that Act, and of stating a case to the Sudder Court under Sections XIV to XIX; and if in all other suits not exceeding Rupees 5,000 in amount or value, a regular appeal were allowed from the decision of the Superintendent to the Judge of Dinagepore, who on the Criminal side of his Court tries commitments of the Superintendent and hears appeals from his orders as Magistrate; and if in the regular appeals so decided by the Judge a special appeal were allowed from his decisions to the Sudder Court at Calcutta under the rules for the admission and decision of special appeals contained in the Code of Civil Procedure. In suits exceeding Rupee 5,000 in amount or value, the rule obtaining in the Regulation Districts might be followed of allowing a regular appeal from the decision of the Superintendent to the Calcutta Sudder Court."

It was also stated to be the opinion of the Governor General in Council that, simultaneously with the introduction of these measures, the Code of Civil Procedure, with any necessary modifications, might be extended to Darjeeling.

The Secretary of State in a Despatch dated the 14th August expressed his concurrence with the Government of India, but intimated his opinion that legislation to extend the jurisdiction of the High Court (the establishment of which he supposed then to have taken place) should be by the Council of the Governor-General.

The Bengal Government having since transmitted a draft Bill drawn in conformity to the views of the Government of India, this Bill, with a few modifications, is now submitted to the Council. The correspondence to which reference has been made will accompany this paper.

It is intended that the Code of Civil Procedure shall be extended to Darjeeling, so as to come into operation contemporaneously with this Bill when passed into a law.

Government of Bengal.

Sale of Waste Lands.

Rules for the sale of unassessed Waste Lands, and for the redemption of the Revenue of such lands already granted for a term of years, in the Lieutenant-Governorship of Bengal, issued by Notification of Government of Bengal, dated 30th August 1862.

SUPPLEMENTARY RULES.

A. THERE is no prohibition against the same person applying for two or more lots of land, provided that each application comprises no more than 3,000 acres, or such other maximum as may be prescribed.

B. If it should appear from the Survey or otherwise that the application does not comply with these conditions, the Collector may call for an amended application; and, in the event of a revised application not being given in within fifteen days, the application shall be held to be cancelled and the deposit shall be returned to the applicant less the amount of expense actually incurred for Advertisement, Survey, and the like.

RULES.

RULE 1. All unassessed Waste Lands in which no right of proprietorship or exclusive occupancy is known to exist, or to have existed and to be capable of revival, are available for purchase under these Rules, unless specially reserved under Rule 21.

2. No greater quantity of land than three thousand acres shall be sold in one lot except with the express sanction of the Government. If for special reasons, in particular localities, a lower maximum area than three thousand acres should be determined upon, it will be duly notified hereafter.

3. Every lot shall be compact, and shall include no more than one tract of land in a ring-fence; and when the land touches a public road or a navigable river, the length of the road or river frontage shall not exceed one-half the depth of the lot. No lot will be sold unless it has been previously surveyed and demarcated, or until it shall have been surveyed and demarcated in consequence of an application for purchase. The Survey need only be in sufficient detail to ensure the ready identification of the boundaries of the lot, and to ascertain its gross area. If on completion of the Survey it shall appear that the area of the lot applied for exceeds the prescribed maximum the excess shall be excluded.

C. In Darjeeling the Superintendent, and in Assam, Chota Nagpore, and the Sonthal Pergunnahs, the Deputy Commissioners in charge of Districts, will perform the duties of Collectors under these Rules. Applications shall immediately be entered in a Register in the Form A. attached to these Rules.

D. An Advertisement shall also be published in the *Government Gazette*. The Form of Advertisement is given in annexure C. A sum of 16 Rupees to cover all estimated expenses connected with advertising shall be paid by the applicant in advance at the time of application.

E. The sum to be deposited will include the estimated cost of clearing the boundaries for Survey, but is not, under any circumstances, to exceed four annas an acre.

F. Until the 1st of May 1860 sales of Waste Lands shall be held not less often than once a month; after that date sales shall be held Quarterly, on the 2nd of May, 2nd of August, 2nd of November, and 2nd of January, or on the first day after those dates on which the Collector's Office may be open. Where a sale is deferred, the notice of the date fixed for it will be given by an Advertisement at the Collector's Office. If the day to which the sale is postponed be more than fifteen days after the date originally fixed, the date to which it is deferred shall be published in the manner prescribed by Rule 5 for the original Notification of the day of sale. In this case all expense of Advertisement shall be borne by the Government.

G. The cost of Survey and Advertisement will be payable by the highest bidder in addition to the upset price. Immediately on the conclusion of the sale the highest bidder (if he be not the original applicant) shall deposit a sum equal to four annas an acre on the whole area of the lot. In default of immediate payment of this deposit the Collector may at once re-sell the lot. If he think it necessary he may refuse to recognize any bid which is not supported by the deposit of the amount required by this Rule. Immediately a sale is made it shall be entered in a Register in the Form B. annexed.

H. Forms of Deed of Sale will be prepared and forwarded as soon as possible.

4. Applications for the purchase of Waste Land shall be made to the Collector of the District, and every application shall contain the following particulars:—

1*st*.—The estimated area of the land applied for.

2*nd*.—The situation of the land and its boundaries as accurately as can be ascertained.

5. If the Collector be satisfied that the land applied for is available for purchase and within the conditions prescribed in Rules 2 and 3, and if it had been previously surveyed and demarcated, he shall advertise the lot for sale on a given day at an upset price of not less than two Rupees eight annas an acre on the whole area. The Advertisement shall be published in the Collector's Office, in the Court of the Principal Judicial Officer of the District, and at the Moonsiff's Court (if there be one) and Police Station within the limits of which the lands are situated.

6. If the Collector be satisfied as above, and if the land have not been surveyed, he shall cause it to be surveyed, and its boundaries demarcated, the estimated cost of such Survey and demarcation being first deposited by the applicant. On the completion of the Survey the Advertisement of sale shall be published as above.

7. The day of sale to be named in the Advertisement shall not be less than thirty days from the date of publication, and the sale shall be held at the Collector's Office. The sale may be postponed if in the Collector's judgment it should be necessary, due notice being always given of the date on which the sale will be held.

8. If before the day of sale no claim of proprietary or occupative right in the land be preferred, the lot shall be sold by Auction to the highest bidder above the upset price, or to the applicant at the upset price if there be no higher bid.

9. On payment of one-tenth of the purchase money, and of all expense of Survey, demarcation, Advertisement, and sale, the purchaser shall receive a Deed (in a Form which will hereafter be issued by the Board of Revenue) signed by the Collector, conveying him the lot, in full hereditary and transferable proprietory right, free for ever from all demand on account of Land Revenue, but subject, nevertheless, to all general taxes and local rates imposed by law, and to any other claim, whether of the Government or otherwise, that may have been or may hereafter be established in any Court of competent jurisdiction.

10. If before the day of sale a claim of proprietary or occupative right in any part of the land be preferred, the Collector shall investigate the claim, and, if satisfied that it is groundless, shall reject it and proceed with the sale.

11. If on investigation any such claim should appear to be well grounded, the Collector may either reject the application for purchase of the lands, or refer it for the orders of the Commissioner. In the former case the applicant may appeal to the Commissioner.

12. The Commissioner may direct the Collector either to reject the application or to proceed with the sale of the land either unreservedly on the conditions prescribed in Rule 9, or, if any claim to right of proprietorship, occupancy, or use in any part of the lands be established to the satisfaction of the Commissioner, with a special reservation of such right, or exclusive of the area in which such right exists. If the application for purchase of the land be rejected, the amount deposited as cost of Survey will be forfeited.

13. On being put in possession of the lot the purchaser shall be bound to erect as many substantial boundary marks of masonry as the Collector may think necessary.

14. If the land be purchased by any person other than the applicant, the estimated cost of Survey deposited by the applicant shall be returned to him.

I. The interest due for any year or part of a year under this Rule shall be payable on or before the 15th of May, and, if the amount be not paid on that date, the Collector may realize the amount by sale of the lot under the Rules in force at the time being for the sale of Estates on account of arrears of Revenue due from other Estates. Any balance of the purchase money which may not have been paid up before the 15th of May of the tenth year following that of the sale may be realized in the same manner as an arrear of interest outstanding on that date. The proceeds of the sale shall be applied, in the first instance, to the payment of the costs of sale, and to the satisfaction of the demand of Government; the surplus shall be payable to the late registered proprietor or proprietors on their joint receipt.

15. The purchaser may, if he choose, pay the whole of the purchase money when the lot is sold or the Deed delivered to him. Or, if he choose, he may pay a portion, not being less than ten per cent., at the time of sale, and the remainder in instalments at any future time not being more than ten years from the date of sale. In the latter case simple interest at the rate of ten per cent. a year will be charged on the unpaid portion of the purchase money, and the whole lot will remain hypothecated as security for the full discharge of the amount including principal and interest, and be liable to sale by order of the Collector if the said amount be not paid within the stipulated period.

16. If the purchaser fails to pay one-tenth of the purchase money and all other expenses within three months from the day of sale, the lot will be put up to sale again on the same conditions as before, and sold at the risk of the first purchaser, whose deposit will also be forfeited.

J. *Vide* Supplementary Rule G. above. Where the Collector is of opinion that for special reasons a higher upset price that Rupees 2-8 an acre should be put upon the lot, he will immediately the application is made submit a Report for the orders of the Commissioner. From Darjeeling such Reports will be made to the Board. In considering the upset price to be fixed Collectors will not overlook the value of the trees on the land applied for.

17. The upset price will be calculated on the whole area of the lot without any deduction on any account whatever. Ordinarily the upset price will be two Rupees eight annas an acre, but in special cases the Collector, with the sanction of the Commissioner, may put a higher upset price on any lot, provided that the upset price of available Waste Lands shall in no case exceed ten Rupees an acre.

K. The sum to be refunded will be calculated on the average price paid per acre, excluding the cost of Survey and Advertisement.

18. If it should at any time be found that the same land has been included in more than one lot it shall be held to belong to the lot first sold, and all subsequent sales shall, as regards such land, become null and void. In the event of any dispute regarding the boundary of two or more adjoining lots, the Collector may on the application of any one of the parties re-adjust the boundaries of the lots, and his decision shall be final. The price paid by any subsequent purchaser for land thus excluded from his lot will be refunded to him with simple interest at ten per cent.

L. Tables illustrating the mode of computing the value of future payments will be issued hereafter.

M. The Report will be in the form of an Extract of the entry from Register B. prescribed in Supplementary Rule G. above.

N. Until the list be pul strict Officers will reserve all Forest Lands, that is, lands on which valuable timber is growing.

O. All proceedings taken in conformity with the Resolution of 17th October 1861 will be recognized, and pending proceedings will be continued under the provisions of that Resolution. Where the application has only been made and registered, the next step will be the issue of the Advertisement required by paragraph 17 of the Resolution; if the Advertisement have already been issued, and the term of it have expired, the Collector will proceed to give the applicant a Certificate of allotment under paragraph 18, unless others have come forward with offers to purchase the land, in which case the lot must be put up to Auction under paragraph 30 of the Resolution. In all such cases the sales will be regulated by the Rules laid down in the present Notification.

19. All grants of Waste Land already made for a term of years, under previously existing Rules, in which no right of occupancy or proprietorship exists, except that of the grantee or that derived from him, will be treated for the purposes of this Rule as if the land were permanently settled; and the grantees, or their representatives may redeem the future Land Revenue of such grants or of any compact part of them in perpetuity for an amount equal to the present value of all future stipulated annual payments calculated at five per cent. interest, provided the said amount is not less than two Rupees eight annas an acre on the whole area of which the Revenue is redeemed.

20. All sales of Waste Land, and all redemptions made under these Rules in each Division, will be reported immediately to the Board of Revenue in such form as the Board may direct, but no sale of Waste Lands once made by a Collector in conformity with these Rules will be disturbed by any higher executive authority.

21. Reserves of grazing and forest land, of land for the growth of firewood near Towns and Stations, of building sites, parks, recreation grounds, and the like, and of land required for other special purposes, are not to be sold, under these Rules, without the express sanction of the Government. A list of these lands is under preparation by the Board of Revenue, and when it has been approved by the Government it will be published in the *Gazette*.

22. Lands for the purchase of which application has been made under the Resolution of the 17th October 1861 will, if such application were duly registered, be dealt with in accordance with the terms of the said Resolution so far as the Law allows.

23. From and after the date of the promulgation of these Rules no fresh applications for grants of Waste Land under any previous Rules will be entertained.

From J. Beckwith, Esq., Secretary to the Landholders' and Commercial Association, Calcutta, to the Hon'ble A. Eden, Officiating Secretary to the Government of Bengal,—(dated the 3rd November 1862)

Sir,—This Association has been favored with a Circular Order of the Board of Revenue, No. 63 of the 14th October, circulating the Rules for the sale of unassessed Waste Lands with certain Rules supplementary to those issued by the Government of Bengal on the 30th August last, and I am directed by the Committee to submit, for the consideration of His Honor the Lieutenant-Governor, remarks on two of these Supplementary Rules, to which it appears to them that there are objections.

Supplementary Rule F. directs that, until the 1st May 1863, sales of Waste lands shall be held not less often than once a month, and after that date quarterly, on the 2nd May, 2nd August, 2nd November, and 2nd January.

In the present state of the Districts of Assam and Cachar the exploration required for the selection of land can only be made at a particular time of the year with much personal exposure and great expenditure of time, and after a selection has been made a further delay of considerable extent will occur before the land selected has been surveyed and marked off, as required by the Rules, and should this process be completed, as will often happen, within thirty days of a quarterly sale day, a fresh delay of three months will intervene before the Lot can be put up to sale.

It is thought that six months is not too long to calculate on for the selection and survey of Grants, and that the system of quarterly sales will very often add three months to this period, so that it will frequently be nine months before an intending settler can have his selected piece of land put up to sale, and he will then be liable to be outbid, and will therefore to the last have no certainty of obtaining any result to his labors.

Extract of letter from Darjeeling.

I have spoken personally about it both to Captain Murray and to Mr. Ivey, the Surveyor.

The former informed me that in consequence of the great number of applications received it was impossible to say what land was available, and the latter expressed himself totally unable to fix a time for the Survey. He gave me to understand, however, that with the present very inadequate staff of Surveyors it could not take place for years.

The uncertainty and great part of the delay are inseparable from the changes introduced in the Rules of the 17th October 1861, by order of the Home Government, and we are aware cannot be obviated by His Honor the Lieutenant-Governor; but the infrequency of sales will add greatly to the delay, and the Committee therefore beg to suggest that the monthly sales, instead of ceasing after the 1st of May 1863, should be continued, at all events, until a Survey of the country has rendered the selection of Grants, and the other steps preliminary to the advertising for sale, more easy.

The other Supplementary Rule to which I am directed to call attention is N., with regard to the reserves of forest lands, and is as follows:—"Until the list is published, District Officers will reserve all forest lands, that is, lands on which valuable timber is growing." Applying this Rule to Assam and Cachar as before, it is believed that the whole of the lands in these Provinces available for purchase are covered with a growth of jungle, and that it is scarcely possible to select any block of 3,000 acres of average quality on some part of which large trees are not growing, trees which are really of no value from the impossibility of conveying them from the place of their growth to a market, but still trees which would be valuable timber but for want of that facility of getting them moved to where they would be saleable.

It appears to the Committee that Local Officers may very probably consider themselves directed to reserve all lands on which large trees are growing without making enquiry to ascertain whether the site of growth is such that they are of no value as timber, nor likely to become of value, or the reverse, and thus the Supplementary Rule will, as regards the two Provinces to which the attention of settlers is at present directed, practically place in abeyance the Rules issued by the Government of Bengal on the 30th August until the list of reserves provided for in Rule 21 has been published.

Where timber is scarce, as in some parts of India, great precautions to preserve existing forests may be advisable, but in Provinces which are *all* forest, and where scarcely any timber can be got to market, it cannot be necessary to issue instructions which virtually suspend all the Rules, the prompt publication of which has been considered so gratifying.

In conclusion, I am directed to express the hope of the Committee that the Tables referred to in Supplementary Rule L, for computing the value of payments required to commute Leasehold into Freehold Grants, may be made public as early as practicable.

From H. L. Dampier, Esq., Secretary to the Board of Revenue, to the Officiating Secretary to the Government of Bengal,—(No. 378, dated the 25th November 1862.)

Sir,—I am directed by the Board of Revenue to report on a letter from the Secretary to the Landholders' and Commercial Association, to your address, dated 3rd instant, as required by your Endorsement No. 2787 of the 13th instant.

2. The Association has, in the opinion of the Board, shewn good cause for an alteration in Supplementary Rule F. With His Honor's sanction the Board will modify the Rule, and direct that sales be held on the 2nd of each month, or on the first day after that date on which the Collector's Office may be open, unless the Collector shall, with the sanction of the Commissioner, for special reasons, fix a later date in the month, notification of which shall be given at least a month before the later date is fixed.

3. The second part of the letter of the Association prays for a modification of Supplementary Rule N. His Honor will observe that the Board have in this Rule adopted the expression made use of in your letter No. 2383, dated 10th ultimo, directing the present reservation of "*all* forest lands, that to say, lands on which valuable timber is growing." The arguments advanced by the Association are of much weight, and a strict adherence to Supplementary Rule N., as it stands, would interfere to a considerable and unnecessary extent with the immediate allotment of Grants. But there is an obvious difficulty in laying down any general Rule defining what lands shall be reserved as being covered with "valuable" timber, until the Local Officers have drawn up their Registers of Waste Lands after full local enquiry. The Superintendent of Darjeeling has already addressed the Board on this difficulty. They recommend that until the Registers be prepared, a discretion be left to the Commissioner, (and in Darjeeling to the Board,) to sell land although covered with the more valuable description of timber, on their being satisfied that the reservation of the tracts in question is not necessary for the object which the Government have in view.

4. Mr. Grote is of opinion that the guarantee held out by Rule 22 of the Government Notification of the 30th of August last does not admit of any exceptional treatment under Supplementary Rule N. of lands which have been applied for, and for which the applications have been duly registered under the Resolution of the Government of India, dated 17th October 1861. His colleagues, however, are clearly of opinion that paragraphs 23 and 24 of the Resolution of 17th October 1861, and Rule 21 of the Notification of the 30th of August last, leave the Government free to reserve any required land under whatever Rules it may have been applied for.

5. The enclosure of your Endorsement is returned.

From the Hon'ble A. Eden, Officiating Secretary to the Government of Bengal, to the Secretary to the Board of Revenue,—(No. 3394, dated the 12th December 1862.)

Sir,—I am directed to acknowledge the receipt of your letter No. 378, dated the 26th ultimo, submitting the Board's Report on the letter from the Secretary to the Landholders' and Commercial Association, dated the 3rd idem, taking exception to the conditions F. and N. of the Board's Supplementary Rules for the sale of

unassessed Waste Lands. With reference to your 2nd paragraph, I am to state that the Lieutenant-Governor agrees with the Board in the opinion expressed therein, and directs that Rule F. may be modified so as to provide for monthly sales.

2. As regards the question of reserving forest lands, I am to request that the Board will be good enough to direct the Local Officers to lose no time in submitting a list of the lands which they propose to reserve under Rule 21 of the new Rules. In the meantime the Lieutenant-Governor is pleased to vest the Commissioners generally, and the Board in the case of Darjeeling, with powers to say what are, and what are not, lands covered with valuable timber. His Honor is of opinion that for the present the best practicable definition of valuable timber forests is forests of Teak or Saul, that is to say, lands in which such trees abound, not tracts in which merely isolated trees or small isolated patches of trees are found; and forests of other timber now actually valuable or marketable, that is to say, timber for which there is a present demand.

3. Referring to your 4th paragraph, the Lieutenant-Governor concurs entirely with the majority of the Board in considering that there is nothing contained in Rule 22 of the Notification of 30th August last which renders the reservation of forest lands a matter of difficulty, when applications for such lands have been registered under the Resolution of 17th October 1861. Rule 22 simply provided that applications registered under that Resolution would be dealt with in the spirit of the Resolution, one of the express conditions of which was that forest, fuel, and grazing reserves were not to be sold; and, as shewn by the majority of the Board, the 21st of the new Rules provides for the exceptional treatment of such lands.

Execution how to be obtained.

Wife deserted by her husband may apply to the High Court for protection.

X. A wife deserted by her husband may, at any time after such desertion, apply to the High Court, for an order to protect any money or property she may acquire by her lawful industry, and property which she may become possessed of after such desertion, against her husband or his credi-

tors or any person claiming under him; and the said Court, if satisfied of the fact of such desertion, and that the same was without reasonable cause, and that the wife is maintaining herself by her own industry or property, may make and give to the wife an order protecting her earnings and property acquired since the commencement of such desertion from her husband and all creditors and persons claiming under him, and such earnings and property shall belong to the wife as if she were *Feme sole*. Provided that it shall be lawful for the husband, and any creditor or other person claiming under him, to apply to the Court by which such order was made, for the discharge thereof. Provided also, that if the husband or any creditor of or person claiming under the husband shall seize or continue to hold any property of the wife after notice of any such order, he shall be liable, at the suit of the wife (which she is hereby empowerd to bring), to restore the specific property, and also for a sum equal to double the value of the property, so seized or held after such notice as aforesaid. If any such order of protection be made, the wife shall during the continuance thereof be, and be deemed to have been during such desertion of her, in the like position in all respects, with regard to property and contracts, and suing and being sued, as she would be under this Act if she obtained a decree of judicial separation.

Decree of separation obtained during the absence of husband or wife may be reversed.

XI. Any husband or wife, upon the application of whose wife or husband, as the case may be, a decree of judicial separation has been pronounced, may, at any time thereafter, present a petition to the Court by which the decree was pronounced praying for a reversal of such decree on the ground that it was obtained in his or her absence, and that there was reasonable ground for the alleged desertion, where desertion was the ground of such decree; and the Court may, on being satisfied of the truth of the allegations of such petition, reverse the decree accordingly, but the reversal thereof shall not prejudice or affect the rights or remedies which any other person would have had in case such reversal had not been decreed, in respect of any debts, contracts, or acts of the wife incurred, entered into, or done between the times of the sentence of separation and of the reversal thereof.

On adultery of wife or incest, &c., of husband, petition for dissolution of marriage may be presented.

XII. It shall be lawful for any husband to present a petition to the High Court, praying that his marriage may be dissolved, on the ground that his wife has since the celebration thereof been guilty of adultery; and it shall be lawful for any wife to present a petition to the said Court, praying that her marriage may be dissolved on the ground that since the celebration thereof her husband has been guilty of incestuous adultery, or of marriage with another woman with adultery, or of rape, or of sodomy or bestiality, or of adultery coupled with such cruelty as without adultery would have entitled her to a divorce *a mensâ et thoro*, or of adultery coupled with desertion, without reasonable excuse, for two years or upwards; and every such petition shall state, as distinctly as the nature of the case permits, the facts on which the claim to have such marriage desolved is founded. Provided that, for the purposes of this Act, incestuous adultery shall be taken to mean adultery committed by a husband with a woman with whom, if his wife were dead, he could not lawfully contract marriage by reason of her being within the prohibited degrees of consanguinity or affinity; and marriage with another woman shall be taken to mean marriage of any person being married to any other person during the life of the former wife, whether the second marriage shall have taken place within the dominions of Her Majesty or elsewhere.

As to "incestuous adultery."

A lulterer to be a co-respondent.

XIII. Upon any such petition presented by a husband the petitioner shall make the alleged adulterer a co-respondent to the said petition, unless on special grounds, to be allowed by the Court, he shall be excused from so doing; and on every petition presented by a wife for dissolution of marriage, the Court, if it see fit, may direct that the person with whom the husband is alleged to have committed adultery be made a respondent.

Court to be satisfied of absence of collusion.

XIV. Upon any such petition for the dissolution of a marriage, it shall be the duty of the Court to satisfy itself, so far as it reasonably can, not only as to the facts alleged, but also whether or no the petitioner has been in any manner accessory to or conniving at the adultery, or has condoned the same, and shall also inquire into any counter-charge which may be made against the petitioner.

Dismissal of petition.

XV. In case the Court, on the evidence in relation to any such petition, shall not be satisfied that the alleged adultery has been committed, or shall find that the petitioner has, during the marriage, been accessory to or conniving at the adultery of the other party to the marriage, or has condoned, the adultery complained of, or that the petition is presented or prosecuted in collusion with either of the respondents, then and in any of the said cases the Court shall dismiss the said petition.

Power to Court to pronounce decree for dissolving marriage.

XVI. In case the Court shall be satisfied on the evidence that the case of the petitioner has been proved, and shall not find that the petitioner has been in any manner accessory to or conniving at the adultery of the other party to the marriage, or has condoned the adultery complained of, or that the petition is presented or prosecuted in collusion with either of the respondents, then the Court shall pronounce a decree declaring such marriage to be dissolved in the manner and subject to all the provisions and limitations in the next following Section of this Act made and declared. Provided always, that the Court shall not be bound to pronounce such decree if it shall find that the petitioner has during the marriage been guilty of adultery, or if the petitioner shall, in the opinion of the Court, have been guilty of unreasonable delay in presenting or prosecuting such petition, or of cruelty towards the other party to the marriage, or of having deserted or wilfully separated himself or herself from the other party before the adultery complained of, and without reasonable excuse, or of such wilful neglect or misconduct as has conduced to the adultery.

XVII. Every decree for a Divorce shall, in the first instance, be a *Decree Nisi*, to be made absolute till after the expiration of such time, not less than three months from the pronouncing thereof, as the Court shall by general or special order from time to time direct; and during that period any person shall be at liberty, in such manner as the Court shall by general or special order in that behalf from time to time direct, to show cause why the said decree should not be made absolute by reason of the same having been obtained by collusion or by reason of material facts not brought before the Court, and, on cause being so shown, the Court shall deal with the case by making the decree absolute, or by reversing the *Decree Nisi* or by requiring further inquiry, or otherwise as justice may require; and at any time during the progress of the cause or before the decree is made absolute, any person may give information to the Solicitor to Government at the place where the said Court is established of any matter material to the due decision of the case, who may thereupon take such steps as the Advocate-General at the said place may deem necessary or expedient; and if from any such information or otherwise the said Solicitor shall suspect that any parties to the suit are or have been acting in collusion for the purpose of obtaining a Divorce contrary to the justice of the case, he may, under the direction of the Advocate-General, and by leave of the Court, intervene in the suit, alleging such case of collusion, and retain Counsel, and subpœna witnesses to prove it; and it shall be lawful for the Court to order the costs of such Counsel and witnesses and otherwise arising from such intervention, to be paid by the parties or such one or more of them as it shall see fit, including a wife if she have separate property; and in case the said Solicitor shall not thereby be fully satisfied his reasonable costs, he shall be entitled to charge and to be re-imbursed the difference as part of the expenses of his Office.

XVIII. The Court may, if it shall think fit, on any decree absolute declaring a marriage to be dissolved, order that the husband shall to the satisfaction of the Court secure to the wife such gross sum of money, or such annual sum of money for any term not exceeding her own life, as having regard to her fortune (if any), to the ability of the husband, and to the conduct of the parties, it shall deem reasonable, and for that purpose may cause a proper deed or instrument to be executed by all necessary parties; and the said Court may in such case, if it shall see fit, suspend the pronouncing of its decree until such deed shall have been duly executed: and upon any petition for dissolution of marriage, the Court shall have the same power to make interim orders for payment of money, by way of alimony or otherwise, to the wife, as it would have in a suit instituted for judicial separation.

Husband may claim damages from adulterers.

XIX. Any husband may, either in a petition for dissolution of marriage or for judicial separation, or in a petition limited to such object only, claim damages from any person on the ground of his having committed adultery with the wife of such petitioner, and such petition shall be served on the alleged adulterer and the wife, unless the Court shall dispense with such service or direct some other service to be substituted; and the claim made by every such petition shall be heard and tried on the same principles, in the same manner, and subject to the same or the like rules and regulations as actions for criminal conversation may now be tried and decided in the High Court sitting as a Court of ordinary original Civil jurisdiction; and the damages to be recovered on any such petition shall be ascertained by the said Court, although the respondents or either of them may not appear; and after the decision has been given, the Court shall have power to direct in what manner such damages shall be paid or applied, and to direct that the whole or any part thereof shall be settled for the benefit of the children (if any) of the marriage, or as a provision for the maintenance of the wife.

Power given to Court to order adulterer to pay costs.

XXII. Every person seeking a decree of nullity of marriage, or a decree of judicial separation, or a dissolution of marriage, or a decree in a suit of jactitation of marriage, shall, together with the petition or other application for the same, file an affidavit verifying the same so far as he or she is able to do so, and stating that there is not any collusion or connivance between the deponent and the other party to the marriage.

XXIII. Every such petition shall be served on the party to be affected thereby, either within or without British India, in such manner as the Court shall by any general or special order from time to time direct. Provided always, that the Court may dispense with such service altogether in case it shall seem necessary or expedient so to do.

Court may order settlement of property for benefit of innocent party and children of marriage.

XXIV. In any case in which the Court shall pronounce a sentence of divorce or judicial separation for adultery of the wife, if it shall be made to appear to the Court that the wife is entitled to any property either in possession or reversion, it shall be lawful for the Court, if it shall think proper, to order such settlement as it shall think reasonable to be made of such property or any part thereof, for the benefit of the innocent party, and of the children of the marriage or either or any of them. And any instrument executed pursuant to any order of the Court at the time of or after the pronouncing of

Commencement of Act.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to place the Matrimonial Law administered by the High Courts, in the exercise of their original jurisdiction, on the same footing as the Matrimonial Law administered by the Court for Divorce and Matrimonial Causes in England.

The 9th Section of the Act of Parliament for establishing High Courts of Judicature in India (24 and 25 Vic., Ch. 104) provides that the High Courts shall exercise such Matrimonial Jurisdiction as Her Majesty by Letters Patent shall grant and direct. Under the authority thus conferred by Parliament, the 35th Section of the Letters Patent, constituting the High Courts of Judicature, provides as follows —

"And we do further ordain that the said High Court "of Judicature at Fort William in Bengal shall have "Jurisdiction in matters Matrimonial between our "subjects professing the Christian religion, and that "such Jurisdiction shall extend to the local limits "within which the Supreme Court now has Ecclesi- "astical Jurisdiction. Provided always that nothing "herein contained shall be held to interfere with "the exercise of any Jurisdiction in matters Matri- "monial by any Court not established by Royal "Charter within the said Presidency lawfully possess- "ed thereof."

In the Despatch of the Secretary of State transmitting the Letters Patent, the 33rd and 34th paragraphs are to the following effect:—

Letter from Secretary of State, Judicial, No. 24, dated 14th May 1862.

33. "Her Majesty's Government are desirous of "placing the Christian subjects of the Crown within "the Presidency in the same position under the High "Court, as to matters Matrimonial in general, as they "now are under the Supreme Court, and this they "believe to be effected by Clause 35 of the Charter. "But they consider it expedient that the High Court "should possess, in addition, the power of decreeing "divorce which the Supreme Court does not possess, "in other words, that the High Court should have "the same Jurisdiction as the Court for Divorce and "Matrimonial Causes in England, established in virtue "of the Act 20 and 21 Vic., C 85 and in regard to "which further provisions were made by 22 and 23 "Vic, C. 61, and 23 and 24 Vic, C 144. The Act "of Parliament for establishing the High Courts, "however, does not purport to give to the Crown the "power of importing into the Charter all the provisions "of the Divorce Court Act, and some of them, the "Crown clearly could not so import, such, for instance, "as those which prescribe the period of re-marriage, "and those which exempt from punishment clergymen "refusing to re-marry adulterers. All these are, in "truth, matters for Indian legislation, and I request "that you will immediately take the subject into your "consideration, and introduce into your Council a Bill "for conferring upon the High Court, the Jurisdiction "and Powers of the Divorce Court in England, one of "the provisions of which should be to give an appeal "to the Privy Council in those cases in which the "Divorce Court Act gives an appeal to the House of "of Lords."

34. "The object of the provision at the end of "Clause 35 is to obviate any doubt that may possibly "arise as to whether, by vesting the High Court "with the powers of the Court for Divorce and Matri- "monial Causes in England, it was intended to take "away from the Courts within the division of the "Presidency, not established by Royal Charter, any "Jurisdiction which they might have in matters "matrimonial, as for instance in a suit for alimony "between Armenians or Native Chirtians With any "such Jurisdiction it is not intended to interfere."

In addition to the Act of Parliament mentioned by the Secretary of State as regulating the Jurisdiction of the English Divorce Court the Statute 25 & 26 Vic. Ch. 81 has been passed in the year just expired (1862). The object of this Statute is to render perpetual 23 and 24 Vic Ch. 144 the duration of which had been originally limited to two years.

The Draft of a Bill has been prepared to give effect to the Secretary of State's instructions, but some variations from the English Statutes in respect of Procedure have been adopted.

With a view to uniformity in practice in the several branches of Jurisdiction, the Bill provides that the Procedure of the the Code of Civil Procedure shall be followed, instead of the Rules of Her Majesty's Court for Divorce and Matrimonial Causes in England, and it omits the provision in 20 and 21 Vic., Ch. 85 respecting the occasional trial of questions of fact by Juries.

In respect of fees, it has been considered that the Act XX of 1862, (lately continued by the Governor-General in Council for another year), renders special legislation unnecessary.

The power of intervening in suits, given by 23 and 24 Vic, Ch. 144, to the Attorney General and the Queen's Proctor is, in this Bill, given to the Advocate General and the Solicitor to Government.

There are also other variations of a minor and verbal character.

The Draft Bill having been submitted to the Judges of the several High Courts, with a request that they would favour the Government with their opinions on it, communications have been received, and will be laid before the Council, from the Judges at Calcutta and Bombay. In these letters there are several important suggestions, and the Honorable the Chief Justice of the High Court at Calcutta has intimated that he considers it doubtful whether decrees by the High Court under the proposed Act, dissolving the marriages of persons who have been married in England, would have legal effect there. The question is one of considerable difficulty as well as of great importance, and has been stated to the Secretary of State, with the view of obtaining the opinion of Her Majesty's Law Officers, and, if necessary, some legislative measure to remove all doubt.

REVENUE DEPARTMENT.—*The 13th January* 1863.—*Appointment.*—No. 23.—Mr. R. Perreau to be an Assistant Patrol, Indus Line, in the room of Mr. Gouldsbury, deceased.

The 14th January 1863.—*Notification.*—No. 25.—The following Rules regarding sale of waste lands are hereby published for general information, in amendment of the Rules published in the *Supplement to the Punjab Gazette* of 25th January 1862, which are hereby cancelled:—

RULES OF PROCEDURE.

For carrying out the orders of the Government of India, in the Home Department, contained in Resolution, dated 17th October 1861, *regarding sale of Waste Lands, the property of Government.*

I.—All waste lands, the property of Government, will be saleable by auction, unless specially reserved.

II.—Lands situated in the vicinity of towns, or, for any other reason, bearing an exceptional value, will be specially reserved, and will not be sold under these rules, without the express sanction of the local Government. A list of these lands will be hereafter published in the *Punjab Gazette.*

III.—All applications for waste lands shall be made in writing to the Deputy Commissioner of the District in which they are situated, or to one of his Assistants. The application should specify the locality of the land as far as may be practicable, the estimated area desired, and the name of the applicant; and it will be the duty of the Deputy Commissioner, or his Assistant, as the case may be, to afford, if desired, either verbally or in writing, to the applicant or his representative delivering the document, such information regarding the circumstances of the land as the records of his Office, or his own personal knowledge, may enable him to supply.

IV.—The area of a single grant is not ordinarily to exceed 3,000 acres. It will usually be optional with the applicant to choose such portion of the available waste as he may consider best to suit his purpose, but no parcel of land shall be sold in such a shape as shall, by its abstraction, seriously detract from the value of the remainder available land. Every lot shall be compact, and shall include no more than one tract of land in a ring fence; and, when the land touches a public road, navigable river, or canal, the length of the road, river, or canal frontage shall not exceed one-half the depth of the lot.

V.—On receipt of the application, the Deputy Commissioner shall, within one month, cause the land applied for to be surveyed, and its boundaries demarcated, the estimated cost of the survey and demarcation being first deposited by the applicant.

VI.—If no valid objection to the proposed grant be apparent; and if the land is ordinary waste, the Deputy Commissioner will issue, simultaneously with the order for survey, a notification in the form marked A. This notification is to be published in the *Punjab Government Gazette*, and a translation of it in the *Surkári Akhbar*, copies of both English and Vernacular versions being suspended in the Deputy Commissioner's Office, and that of the Tehseeldar or Sub-Collector of the Pergunnah in which the land is situated. The intended sale is also to be proclaimed by beat of drum at both places, and in the villages to which the land adjoins, on three Court days, at intervals of ten days. If deemed requisite or advisable, the Deputy Commissioner will also adopt any other measures that may be practicable for bringing it to the knowledge of parties likely to be interested.

VII.—Simultaneously with the issue of the notification, the Deputy Commissioner will report the circumstance with all needful particulars to the Commissioner, whose duty it will be, should he deem any further information to be necessary, to call for it and adopt such measures as he may deem expedient previous to the expiration of the term of notification.

VIII.—During the term in question, the Deputy Commissioner, or one of his Assistants or Extra Assistants is required to inspect the land and estimate upon the spot the upset price; which price, however in the case of ordinary waste, is not to exceed 2½ Rupees per acre of the whole area. The applicant or applicants, or their representatives, should be invited, in every case, to

accompany the Inspecting Officer; and in the event of their doing so the demarcation of boundaries shall be performed, as far as possible, in their presence.

IX.—On the expiration of the period named in the notification, if no valid objections have been raised to the sale, the Deputy Commissioner shall put the land up to auction, at the upset price, in the manner prescribed for sale of land by Collectors, awarding it to the highest bidder. It is to be understood that all claims or objections advanced have been previously disposed of; and on the sale being completed, and the purchaser paying down the estimated cost of survey and erection of substantial boundary pillars, a certificate of transfer, in the form marked B, is to be given him;—the proceedings of the Deputy Commissioner under these rules, if allowed thus far by the Commissioner, being final, and not liable to be over-ruled for any informality not attributable to act or default of the grantee. All sales will be public.

X.—In Districts which have undergone scientific survey, it is possible that the Surveyor's village maps may shew with precision the limits of the plot applied for; in which case it will suffice to supply the purchaser with a transcript of this. Such will, however, rarely be the case, and accordingly re-survey will, in almost all cases, be indispensable, both to determine and exhibit the precise area and boundaries, and to indicate the main features and characteristics of the various portions of the tract. It is not probable that in any District of the Punjab applications will be sufficiently numerous to justify or require the entertainment of special Establishments for this purpose; but as the Putwaries have almost everywhere been instructed in the use of the Plane-table, the Deputy Commissioner should always be able, by employing the most skilful of these under the guidance of the Qânungo and Tehseeldar, to have a tolerably correct map prepared,—for which the Putwari should be moderately remunerated. If the applicant should be dissatisfied with a map thus prepared, every effort should be made to procure the services of a more scientific Surveyor. If the land be purchased by any other person than the applicant, the estimated cost of survey deposited by the applicant shall be returned to him.

XI.—If, before the day of sale, a claim of proprietary or occupative right in any part of the land be preferred, the Deputy Commissioner shall investigate the claim, and, if satisfied that it is groundless, shall reject it and proceed with the sale. But if on investigation, and such claim should appear to be well grounded, the Deputy Commissioner should either reject the application for purchase of the land, or refer it for the orders of the Commissioner. In the former case the applicant may appeal to the Commissioner. The Commissioner may direct the Deputy Commissioner either to reject the application, or to proceed with the sale of the land either unreservedly on the conditions prescribed in Rule XII., or, if any claim to right of proprietorship, occupancy, or use in any part of the lands be established to the satisfaction of the Commissioner, with a special reservation of such right, or exclusion of the area in which such right exists.

XII.—On completion of the survey of the land the purchaser is to be required to pay at least ten per cent. of the price of the land, and any balance that may remain due of the actual cost of the survey, advertisement and sale; after which a Deed in English, in the form marked C, signed by the Secretary to Government, Punjab, is to be given to him It will of course be optional with the purchaser to pay up the whole of the purchase money at once, but if he do not, a period of three months from the date of the Deed is to be allowed, during which interest shall not be charged. But from and after the expiry of this period, interest at ten per cent. shall begin to run. Provided that if the whole purchase money, principal and interest, be not paid within ten years from the date of sale, the land shall be liable to sale by order of the local Government, and during such period shall remain hypothecated as security for the amount. The amount of this interest shall be regarded and treated as the Revenue demand upon the land for the time being, and shall be realized in the same mode by the same periodical kists or instalments as are prescribed for the realization of the ordinary land revenue; accounts being adjusted by the Tehseeldar in the last month (April) of each year, and the instalments for the ensuing year being then determined and entered at the foot of the Pergunnah Touzee. All realizations shall, in the first instance, be credited to these instalments; any surplus receipts only being credited as payment of the principal.

XIII.—There is no prohibition against the same person applying for two or more lots of land, provided that each application comprises no more than the area prescribed in Rule IV.

XIV.—Every appropriated grant is to be reported to Government so soon as the Certificate B has been given to the applicant; and a Deed is to be submitted, with the report, through the usual channels, for the Secretary's signature. A Register of all grants thus completed shall be kept by the Deputy Commissioner in the form noted below; and all Maps and other proceedings appertaining to each shall be numbered and filed in the order entered therein, and no transfer of a grant will be recognized by the Civil or Revenue Courts unless registered in due form and entered in this Register.

The land will remain hypothecated as security for the discharge of the principal and interest of the purchase money, and be liable to sale if the said amount be not discharged within the stipulated period.

Circular Order of the Board of Revenue, L. P.

No. 63½.

Dated 23rd December 1862.

TO ALL COMMISSIONERS AND DISTRICT REVENUE OFFICERS.

Land Revenue.

THE following should be substituted for Supplementary Rule L. to Rule 19 of the Board's Circular Order No. 63, dated 14th October 1862:—

W. J. ALLEN, A. GROTE, and E. T. TREVOR, Esqrs.

SUPPLEMENTARY RULE L.

"A Table is annexed for use in commuting existing Soonderbuns, Assam, and Cachar Grants to rent-free tenures. The Grants are treated as if they were permanently-settled at the highest specified annual rate payable under the stipulations of the lease under which they are given, *viz.*, in the Soonderbuns at two annas a beegah, and in Assam and Cachar at six annas an acre. The Table shews the actual sum payable in any year of the currency of a Grant in order to redeem all future payments, and to convert the Grant into an absolutely rent-free tenure. The sum payable will be the same, whether the commutation be made early or late in any given year of the currency of a lease, that is, assuming a lease to have been given on the 1st of March, the amount payable for redemption will be the same, whether the commutation be made on the 1st of March of any given year or on the 28th of the following February, or at any intermediate date. It will be at the option of Grantees to pay the full amount due on the commutation at once, or in instalments under the conditions given in Rule 15 and Supplementary Rule I. The permission to redeem accorded by these Rules does not in any way affect the obligation of the Grantees to fulfil, up to the date of commutation, the conditions on which grants of land in the Soonderbuns or in Assam and Cachar have been made under the old Rules. Before a Grantee can establish a right to redeem future payments of revenue of the whole or any part of his Grant, he is bound to shew that he has complied with the conditions on which the Grant was made, by having cleared the required proportion of the lands comprised in it. Local Officers are therefore not authorized to allow commutations, except in cases in which it has been ascertained that the full area required had been cleared up to the period when the lot was last subject to inspection under the terms of the lease. The Board are however vested with a discretion to shew consideration to Grantees who may have been prevented from clearing their lots by circumstances beyond their control, or by difficulties which could not have been foreseen; and they will be prepared, on the reports of local Officers, to waive the strict fulfilment of the conditions of the Grant where the circumstances are such as would have induced them, under the old Rules, to abstain from enforcing the penalty either by total or by partial resumption."

2. The following alteration will be made in the form of Notice marked C., referred to in Supplementary Rule D., and annexed to Circular Order 63:—

For "having been applied for by———under the Notification," &c., read "having been applied for under the Notification," &c. The name of the applicant will not be given in these Notices.

By Order of the Board of Revenue, L. P.

H. L. DAMPIER,
Secretary.

NOTE.—The Circular Order should be bound up next to No. 63, and references should be made to it in manuscript against Supplementary Rule L., and Form of Notice C. of Circular Order No. 63.

TABLE shewing the amount to be paid for the redemption of the future Land Revenue of Grants of Waste Land in the Soonderbuns and in Assam and Cachar in any year during the currency of the Grants, according to paragraph 19 of the Rules of the 30th August 1862.

ARTICLES OF WAR (NATIVE OFFICERS AND SOLDIERS) AMENDMENT BILL.

The Hon'ble MR. MAINE presented the Report of the Select Committee on the Bill to amend Act XXIX of 1861 (to consolidate and amend the Articles of War for the Government of the Native Officers and Soldiers in Her Majesty's Indian Army).

CONSOLIDATED CUSTOMS BILL.

The Hon'ble MR. ERSKINE presented the Report of the Select Committee on the Bill to consolidate and amend the laws relating to the administration of the Department of Sea Customs in India.

MAHOBA AND JEITPORE BILL.

The Hon'ble MR. HARINGTON moved for leave to introduce a Bill to bring the Pergunnahs of Mahoba and Jeitpore, in the District of Humeerpore, under the operation of the General Regulations. He said that the Pergunnahs of Mahoba and Jeitpore, the former of which was ceded to the late East India Company in the year 1817, and the latter of which lapsed to the British Government in the year 1849, have hitherto been administered on what is called the Non-Regulation system. Both Pergunnahs are now attached to the District of Humeerpore, which is subject to the General Regulations. That District has lately been transferred from the Jhansi Division, which is Non-Regulation, to the Allahabad Division, throughout which the General Regulations are in force, and it was thought desirable that the two Pergunnahs in question should also be brought under the operation of the General Regulations and Acts in Civil, Criminal, and Revenue matters, in order that they may be administered according to the system which is followed generally in the District and Division in which they are now included. This was the object of the present Bill.

The Motion was put and agreed to.

DIVORCE COURT BILL.

The Hon'ble MR. MAINE introduced the Bill for conferring upon the High Courts of Judicature in India the jurisdiction and powers vested in the Court for Divorce and Matrimonial Causes in England, and moved that it be referred to a Select Committee. He said that, in introducing this Bill, he ventured to think that he anticipated the wishes of the Council by offering no arguments in support of the principle upon which it was founded. Whatever were the difficulty of the questions involved in the establishment of a tribunal having power to decree a divorce *a vinculo matrimonii*, (and he would be the first to admit that the difficulty of those questions was only

equalled by the difficulty of discussing them satisfactorily in a deliberate assembly), he assumed that the Council would be of opinion that, so far as they related to principle, they had been solved in England for good or for evil. He imagined that those who had the strongest doubts of the policy of this measure, whether on grounds of public morality, or expediency, would still feel that the privilege of suing for a dissolution of marriage should not depend on an accident of locality, and that nobody would wish to perpetuate the exceptional disabilities under which the Queen's subjects in India were placed in respect of matrimonial law. There were, it should be stated, some reasons why the Council should approach the subject with less misgiving than they would probably have felt if they had been asked to legislate within a shorter period after the creation of the English Divorce Court. They came to it with the advantage of English experience. It would be vain to deny that some of the earlier effects of the establishment of the new tribunal were such as to distress, and perhaps to alarm, the public feeling of England. The number of applications for relief on the files of the Court seemed at first enormous; the scandal occasioned by the publication of its proceedings was far beyond all previous anticipations. These evils, however, at least in their excess, proved to be only temporary It was shortly proved that the multitude of cases submitted to the Divorce Court arose from the accumulations of past years, and that the earlier petitioners were almost invariably persons whom the costliness and cumbrousness of the old procedure in Divorce had discouraged and debarred from relief. It was only quite recently that, what might be called the normal statistics of the English tribunal, had been disclosed, and there was much reason to believe that the annual growth of cases of this description would not be extraordinary, and that, though greater than could be wished, it was not greater than might be expected. The other evil, the scandal attendant on publicity had been, it was only just to say, very greatly abated by the good taste and good feeling of English Newspapers, which, co-operating with general sentiment, had reduced the reports of these cases within the narrowest limits compatible with publication. It was probably well known to the Council that the public scandal it occasioned was, for a long time, considered to be the most unfortunate incident of the Court, and an amendment to one of the supplemental Bills, providing that it should sit with closed doors, was, if he remembered rightly, lost by a narrow majority in the House of Commons. It might be asked why, with English experience to guide them, they had not thought of engrafting some such provision on this Bill. He was, however, one of those who thought that there was always the strongest presumption in favor of that perfect publicity, which was the oldest characteristic of the administration of English justice, and in this case experience had, to a great extent, borne out the antecedent presumption. For the publicity given to those cases, though it no doubt had its questionable aspect, had been the means of protecting society in England against one of the dangers with which it was menaced by the change in the law. It had rendered connivance or collusion between the petitioner and respondent in a Divorce suit, if not impossible, at all events, excessively difficult. However carefully and dexterously the plot might have been laid, it rarely happened that some one was not cognizant of a circumstance which showed the understanding betewen the conspirators, and the chances were that the attention of the person so cognizant was attracted to the report of the proceedings. It soon became known in England that information of the kind was easily procurable, and to take advantage of this information one of the last and most valuable of the Divorce Acts was framed. By this Act it was provided that the original decree of the Matrimonial Court was to be only provisional; in technical phrase, a decree *nisi*, and before it was made absolute, the Queen's Advocate and the Queen's Proctor were permitted to intervene in the proceedings, shewing cause why it ought not to be passed. The ground of their intervention was to be connivance, or collusion, and, for the information which caused them to move, they were indebted to the publication of the proceedings on the first hearing. The Government had incorporated this Act with this Bill, substituting only the Advocate General, and the Solicitor to Government, for the Queen's Advocate, and Queen's Proctor. The Bill, he might now mention, followed very closely the English Acts, consolidating into one measure the body of English statutory matrimonial law. In one point only it was proposed to depart from the tenor of the English Acts. In conformity with the practice of the High Courts when exercising original Jurisdiction, and with the approval of the great majority of the Judges of those Courts, it was proposed to omit the provision of the English Acts for the trial of questions of fact by Jury at the option of the parties to a Divorce suit. There did not seem to be sufficient reason for placing Matrimonial suits on a different footing from other Civil proceedings in India. He would not have adverted to the point if one of the Judges of the High Court of Bombay,—the only Judge, he might remark, who was opposed to the Bill on principle—had not stated that he saw no reason why the English system of trial by Jury in Divorce cases should not be adopted in India. He Mr. (Maine) must observe, however, that in adopting the system of inquiry practised by the Indian Supreme Courts, they certainly, if he might so speak, anticipated the results towards which English experience in this matter seemed to be pointing. It was true that the English Divorce Acts conferred on either of the parties the power of demanding a Jury if they thought proper, but the reason of this probably was that the English Judge of the Divorce Court had no power of assessing damages. The proceedings before the Divorce Court took the place, under the recent Statutes, not only of the investigation which used to take place before the House of Lords, and of the inquiry before the Ecclesiastical Court, but also of the action for criminal conversation in which damages were recoverable. Still, though the Judge of the Divorce Court in England had no power of assessing damages without a Jury, the fact was that the demands for Juries on the part of the litigants were steadily diminishing, and the vast majority of cases were probably now tried by the Judge solely. Nor was it an immaterial consideration that the duty of serving on Juries in the Divorce Court was regarded with the utmost repugnance by the gentlemen liable to it, and no small difficulty was practically

experienced in completing the requisite number. He was disposed also to attach great weight to that stricter decorum which it was always possible to observe when these cases were tried before a Judge than when they were investigated, necessarily with much greater fullness, before a popular tribunal. These reasons would, he trusted, be thought by the Council to justify the Government in taking the course recommended by the majority of the Judges rather than that suggested by the Chief Justice of Bombay. There were many other points on which opinions were expressed by the learned Judges of the various High Courts, but these were points of detail which would more fitly be considered by the Select Committee. The only remaining observation he had to offer was that the scheme of the Bill was this; it was accommodated to the existing Matrimonial jurisdiction. Whatever were the limits of the Matrimonial jurisdiction which the High Courts had inherited from the Supreme Courts to those limits would extend the new power of decreeing dissolution of Marriage. The Bill would necessarily be delayed on account of the legal difficulties which he mentioned on a former occasion.

The Motion was put and agreed to.

Humeerpore Bill.

The Hon'ble Mr. Harington moved that the Select Committee on the Bill to remove the District of Humeerpore, in the North-Western Provinces, from the operation of the General Regulations be discharged, and that the Bill be withdrawn. He said that the District of Humeerpore, in the Province of Bundlekund, formed, for many years, part of the Division of Allahabad; but in 1858, owing to events arising out of the Mutiny, it was severed from that Division and transferred to the Division of Jhansi, which is a Non-Regulation Province. It was then considered that it would be inconvenient that that District should be administerted on a system different from that which prevailed in the rest of the Province, and a Bill was accordingly introduced to remove the District of Humeerpore from the operation of the General Regulations. It was then supposed that the annexation of Humeerpore to the Jhansi Division would be permanent. But circumstances had since arisen which had rendered it expedient to transfer the District again to the Allahabad Division, which, including Humeerpore, as originally formed, was administered under the Regulations. No necessity therefore any longer existed for special legislation in reference to the subject. The Committee might consequently be discharged, and the Bill withdrawn.

The Motion was put and agreed to.

The following Select Committee was named:—

On the Bill for conferring upon the High Courts of Judicature in India the jurisdiction and powers vested in the Courts for Divorce and Matrimonial Causes in England: His Honor the Lieutenant-Governor of Bengal, the Hon'ble Mr. Harington, the Hon'ble Sir Charles Trevelyan, and the Hon'ble Mr. Erskine.

And to be a *Feme sole* for purposes of contract and suing.

VIII. In every case of a judicial separation under this Act, the wife shall, whilst so separated, be considered as a *Feme sole* for the purposes of contract and wrongs and injuries, and suing and being sued in any Civil proceedings; and her husband shall not be liable in respect of any engagement or contract she may have entered into, or for any wrongful act or omission by her, or for any costs she may incur as plaintiff or defendant; provided that where, upon any such judicial separation, alimony has been decreed or ordered to be paid to the wife, and the same shall not be duly paid by the husband, he shall be liable for necessaries supplied for her use; provided also that nothing shall prevent the wife from joining, at any time during such separation, in the exercise of any joint power given to herself and her husband.

Application for restitution of conjugal rights or judicial separation may be made by husband or wife by petition to Court, &c.

IX. Application for restitution of conjugal rights or for judicial separation on any one of the grounds aforesaid may be made by either husband or wife, by petition to the High Court, and the said High Court on being satisfied of the truth of the allegations contained in such application, and that there is no legal ground why the same should not be granted, may decree such restitution of conjugal rights or judicial separation accordingly, and where the application is by the wife, may make any order for alimony which shall be deemed just.

Wife deserted by her husband may apply to the High Court for protection.

X. A wife deserted by her husband may, at any time after such desertion, apply to the High Court, for an order to protect any money or property she may acquire by her lawful industry, and property which she may become possessed of after such desertion, against her husband or his creditors or any person claiming under him; and the said Court, if satisfied of the fact of such desertion, and that the same was without reasonable cause, and that the wife is maintaining herself by her own industry or property, may make and give to the wife an order protecting her earnings and property acquired since the commencement of such desertion from her husband and all creditors and persons claiming under him, and such earnings and property shall belong to the wife as if she were *Feme sole*. Provided that it shall be lawful for the husband, and any creditor or other person claiming under him, to apply to the Court by which such order was made, for the discharge thereof. Provided also, that if the husband or any creditor of or person claiming under the husband shall seize or continue to hold any property of the wife after notice of any such order, he shall be liable, at the suit of the wife (which she is hereby empowerd to bring), to restore the specific property, and also for a sum equal to double the value of the property, so seized or held after such notice as aforesaid. If any such order of protection be made, the wife shall during the continuance thereof be, and be deemed to have been during such desertion of her, in the like position in all respects, with regard to property and contracts, and suing and being sued, as she would be under this Act if she obtained a decree of judicial separation.

Decree of separation obtained during the absence of husband or wife may be reversed.

XI. Any husband or wife, upon the application of whose wife or husband, as the case may be, a decree of judicial separation has been pronounced, may, at any time thereafter, present a petition to the Court by which the decree was pronounced praying for a reversal of such decree on the ground that it was obtained in his or her absence, and that there was reasonable ground for the alleged desertion, where desertion was the ground of such decree; and the Court may, on being satisfied of the truth of the allegations of such petition, reverse the decree accordingly, but the reversal thereof shall not prejudice or affect the rights or remedies which any other person would have had in case such reversal had not been decreed, in respect of any debts, contracts, or acts of the wife incurred, entered into, or done between the times of the sentence of separation and of the reversal thereof.

On adultery of wife or incest, &c., of husband, petition for dissolution of marriage may be presented.

XII. It shall be lawful for any husband to present a petition to the High Court, praying that his marriage may be dissolved, on the ground that his wife has since the celebration thereof been guilty of adultery; and it shall be lawful for any wife to present a petition to the said Court, praying that her marriage may be dissolved on the ground that since the celebration thereof her husband has been guilty of incestuous adultery, or of marriage with another woman with adultery, or of rape, or of sodomy or bestiality, or of adultery coupled with such cruelty as

without adultery would have entitled her to a divorce *a mensâ et thoro*, or of adultery coupled with desertion, without reasonable excuse, for two years or upwards; and every such petition shall state, as distinctly as the nature of the case permits, the facts on which the claim to have such marriage desolved is founded. Provided that, for the purposes of this Act, incestuous adultery shall be taken to mean adultery committed by a husband with a woman with whom, if his wife were dead, he could not lawfully contract marriage by reason of her being within the prohibited degrees of consanguinity or affinity; and marriage with another woman shall be taken to mean marriage of any person being married to any other person during the life of the former wife, whether the second marriage shall have taken place within the dominions of Her Majesty or elsewhere.

As to "incestuous adultery."

XIII. Upon any such petition presented by a husband the petitioner shall make the alleged adulterer a co-respondent to the said petition, unless on special grounds, to be allowed by the Court, he shall be excused from so doing; and on every petition presented by a wife for dissolution of marriage, the Court, if it see fit, may direct that the person with whom the husband is alleged to have committed adultery be made a respondent.

Adulterer to be a co-respondent.

XIV. Upon any such petition for the dissolution of a marriage, it shall be the duty of the Court to satisfy itself, so far as it reasonably can, not only as to the facts alleged, but also whether or no the petitioner has been in any manner accessory to or conniving at the adultery, or has condoned the same, and shall also inquire into any counter-charge which may be made against the petitioner.

Court to be satisfied of absence of collusion.

XV. In case the Court, on the evidence in relation to any such petition, shall not be satisfied that the alleged adultery has been committed, or shall find that the petitioner has, during the marriage, been accessory to or conniving at the adultery of the other party to the marriage, or has condoned, the adultery complained of, or that the petition is presented or prosecuted in collusion with either of the respondents, then and in any of the said cases the Court shall dismiss the said petition.

Dismissal of petition.

XVI. In case the Court shall be satisfied on the evidence that the case of the petitioner has been proved, and shall not find that the petitioner has been in any manner accessory to or conniving at the adultery of the other party to the marriage, or has condoned the adultery complained of, or that the petition is presented or prosecuted in collusion with either of the respondents, then the Court shall pronounce a decree declaring such marriage to be dissolved in the manner and subject to all the provisions and limitations in the next following Section of this Act made and declared. Provided always, that the Court shall not be bound to pronounce such decree if it shall find that the petitioner has during the marriage been guilty of adultery, or if the petitioner shall, in the opinion of the Court, have been guilty of unreasonable delay in presenting or prosecuting such petition, or of cruelty towards the other party to the marriage, or of having deserted or wilfully separated himself or herself from the other party before the adultery complained of, and without reasonable excuse, or of such wilful neglect or misconduct as has conduced to the adultery.

XVII. Every decree for a Divorce shall, in the first instance, be a *Decree Nisi*, to be made absolute till after the expiration of such time, not less than three months from the pronouncing thereof, as the Court shall by general or special order from time to time direct; and during that period any person shall be at liberty, in such manner as the Court shall by general or special order in that behalf from time to time direct, to show cause why the said decree should not be made absolute by reason of the same having been obtained by collusion or by reason of material facts not brought before the Court, and, on cause being so shown, the Court shall deal with the case by making the decree absolute, or by reversing the *Decree Nisi* or by requiring further inquiry, or otherwise as justice may require; and at any time during the progress of the cause or before the decree is made absolute, any person may give information to the Solicitor to Government at the place where the said Court is established of any matter material to the due decision of the case, who may thereupon take such steps as the Advocate-General at the said place may deem necessary or expedient; and if from any such information or otherwise the said Solicitor shall suspect that any parties to the suit are or have been acting in collusion for the purpose of obtaining a Divorce contrary to the justice of the case, he may, under the direction of the Advocate-General, and by leave of the Court, intervene in the suit, alleging such case of collusion, and retain Counsel, and subpœna witnesses to prove it; and it shall be lawful for the Court to order the costs of such Counsel and witnesses and otherwise arising from such intervention, to be paid by the parties or such one or more of them as it shall see fit, including a wife if she have separate property; and in case the said Solicitor shall not thereby be fully satisfied his reasonable costs, he shall be entitled to charge and to be re-imbursed the difference as part of the expenses of his Office.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to place the Matrimonial Law administered by the High Courts, in the exercise of their original jurisdiction, on the same footing as the Matrimonial Law administered by the Court for Divorce and Matrimonial Causes in England.

The 9th Section of the Act of Parliament for establishing High Courts of Judicature in India (24 and 25 Vic., Ch. 104) provides that the High Courts shall exercise such Matrimonial Jurisdiction as Her Majesty by Letters Patent shall grant and direct. Under the authority thus conferred by Parliament, the 35th Section of the Letters Patent, constituting the High Courts of Judicature, provides as follows:—

"And we do further ordain that the said High Court "of Judicature at Fort William in Bengal shall have "Jurisdiction in matters Matrimonial between our "subjects professing the Christian religion, and that "such Jurisdiction shall extend to the local limits

"within which the Supreme Court now has Ecclesi-
"astical Jurisdiction. Provided always that nothing
"herein contained shall be held to interfere with
"the exercise of any Jurisdiction in matters Matri-
"monial by any Court not established by Royal
"Charter within the said Presidency lawfully possess-
"ed thereof."

Letter from Secretary of State, Judicial, No. 24, dated 14th May 1862.

In the Despatch of the Secretary of State transmitting the Letters Patent, the 33rd and 34th paragraphs are to the following effect:—

33. "Her Majesty's Government are desirous of "placing the Christian subjects of the Crown within "the Presidency in the same position under the High "Court, as to matters Matrimonial in general, as they "now are under the Supreme Court, and this they "believe to be effected by Clause 35 of the Charter. "But they consider it expedient that the High Court "should possess, in addition, the power of decreeing "divorce which the Supreme Court does not possess, "in other words, that the High Court should have "the same Jurisdiction as the Court for Divorce and "Matrimonial Causes in England, established in virtue "of the Act 20 and 21 Vic., C 85 and in regard to "which further provisions were made by 22 and 23 "Vic., C. 61, and 23 and 24 Vic, C 144. The Act "of Parliament for establishing the High Courts, "however, does not purport to give to the Crown the "power of importing into the Charter all the provisions "of the Divorce Court Act, and some of them, the "Crown clearly could not so import, such, for instance, "as those which prescribe the period of re-marriage, "and those which exempt from punishment clergymen "refusing to re-marry adulterers. All these are, in "truth, matters for Indian legislation, and I request "that you will immediately take the subject into your "consideration, and introduce into your Council a Bill "for conferring upon the High Court, the Jurisdiction "and Powers of the Divorce Court in England, one of "the provisions of which should be to give an appeal "to the Privy Council in those cases in which the "Divorce Court Act gives an appeal to the House of "of Lords."

34. "The object of the provision at the end of "Clause 35 is to obviate any doubt that may possibly "arise as to whether, by vesting the High Court "with the powers of the Court for Divorce and Matri-"monial Causes in England, it was intended to take "away from the Courts within the division of the "Presidency, not established by Royal Charter, any "Jurisdiction which they might have in matters "matrimonial, as for instance in a suit for alimony "between Armenians or Native Chirtians. With any "such Jurisdiction it is not intended to interfere."

In addition to the Act of Parliament mentioned by the Secretary of State as regulating the Jurisdiction of the English Divorce Court the Statute 25 & 26 Vic. Ch. 81 has been passed in the year just expired (1862). The object of this Statute is to render perpetual 23 and 24 Vic Ch. 144 the duration of which had been originally limited to two years.

The Draft of a Bill has been prepared to give effect to the Secretary of State's instructions, but some variations from the English Statutes in respect of Procedure have been adopted.

With a view to uniformity in practice in the several branches of Jurisdiction, the Bill provides that the Procedure of the the Code of Civil Procedure shall be followed, instead of the Rules of Her Majesty's Court for Divorce and Matrimonial Causes in England and it omits the provision in 20 and 21 Vic. Ch. 85 respecting the occasional trial of questions of fact by Juries.

In respect of fees, it has been considered that the Act XX of 1862, (lately continued by the Governor-General in Council for another year), renders special legislation unnecessary.

The power of intervening in suits, given by 23 and 24 Vic., Ch. 144, to the Attorney General and the Queen's Proctor is, in this Bill, given to the Advocate General and the Solicitor to Government.

There are also other variations of a minor and verbal character.

The Draft Bill having been submitted to the Judges of the several High Courts, with a request that they would favour the Government with their opinions on it, communications have been received, and will be laid before the Council, from the Judges at Calcutta and Bombay. In these letters there are several important suggestions, and the Honorable the Chief Justice of the High Court at Calcutta has intimated that he considers it doubtful whether decrees by the High Court under the proposed Act, dissolving the marriages of persons who have been married in England, would have legal effect there. The question is one of considerable difficulty as well as of great importance, and has been stated to the Secretary of State, with the view of obtaining the opinion of Her Majesty's Law Officers, and, if necessary, some legislative measure to remove all doubt.

Provided that in detached situations beyond the Sea, or out of the British Territories in India, or when on service in the field, or in cases where an immediate example is necessary, and reference cannot be made to such Commanding or Superior Officer without detriment to the service, the Officer Commanding such Detachment may exercise the powers relating to Court Martial which are vested in an Officer Commanding a Regiment or Corps.

The proceedings of such summary trial shall be conducted, so far as may be practicable, and shall be recorded in the same manner as is provided in Article 81 for summary trials by an Officer Commanding a Regiment or Corps, and shall, in like manner, be signed and forwarded to the Officer Commanding the Division within which such Detachment shall be at the time, who is hereby authorized to set aside the trial for the same reasons that an Officer Commanding a Division is authorized by Article 81 to set aside a trial by an Officer Commanding a Regiment or Corps. Provided that every sentence so awarded by an Officer Commanding any such Detachment or by any other Officer holding a trial under this Article may be carried out without waiting for its approval by the Reviewing Officer.

When any person subject to these Articles of War shall have been found guilty by a Court Martial of any Military offence, such Court Martial shall enquire into and receive evidence of any previous conviction of such person before a Court Martial or a Court of Justice, and shall enquire into the general character of such person, if a Soldier, for the purpose of apportioning the punishment to which he is liable to be sentenced for the offence of which he has been so found guilty. And it shall not be necessary to give any notice to such person, previously to his trial that such evidence will be received.

ARTICLE 166.

Regulations respecting Bazar and Cantonment Police, and Punchayets, declared in force.

The Regulations by which in any Presidency the Office and powers of Commissariat Officers, or Officers in charge of the Police in any Cantonments, or Superintendents of Military Bazars, are at present defined and controlled; or by which Punchayets are constituted and guided, shall continue to be in full force, and to be observed at the several Presidencies respectively.

THE following Bill was introduced into the Council of the Governor General of India, for the purpose of making Laws and Regulations on the 28th January 1863, and was referred to a Select Committee with instruction to make their report thereon in two weeks:—

No. 3 OF 1863.

A Bill to bring the Pergunnahs of Mahoba and Jeitpore, in the District of Humeerpore, under the operation of the General Regulations.

Preamble.

WHEREAS the District of Humeerpore in Bundlekund is, with the exception of the Pergunnahs of Mahoba and Jeitpore, subject to the General Regulations, and whereas it is expedient that the said Pergunnahs should, for the sake of uniformity and public convenience, be administered on the same system as prevails in the rest of the District; It is enacted as follows:—

Laws and Regulations for internal administration of Humeerpore to have full force in Mahoba and Jeitpore.

1. The Laws and Regulations established for the internal administration of the District of Humeerpore shall have full force and effect in the Pergunnahs of Mahoba and Jeitpore, and the administration of Civil and Criminal Justice, and the superintendence of the settlement and realization of the public revenue, and of all matters relating to rent in the said Pergunnahs, are hereby vested in the Officers who are, or may hereafter be, appointed by the Lieutenant Governor of the North-Western Provinces for the said District of Humeerpore.

Saving as suits pending at the time of passing of this Act.

II. All suits and proceedings arising in the said Pergunnahs which, at the time of the passing of this Act, shall be pending in any Court, or before any Officer, shall be heard and determined in the same manner as if the said Pergunnahs had not been brought under the operation of the General Regulations.

III. Any suit which, before the passing of this Act, had been determined and which has been or shall be remanded by any Appellate Court, shall be tried before the Court which, for the time being, would be competent to try such a suit if instituted after the passing of this Act.

Suits remanded by any Appelate Court.

IV. All appeals or proceedings now pending in the Court of the Commissioner of Jhansie shall be determined by such Commissioner in the same manner as if this Act had not been passed; and all applications for execution of decrees or orders which, but for the passing of this Act, would have been made to any Court or Officer existing at the time of the passing of this Act shall be made to the Court or Officer that would have had jurisdiction in respect of the matter in dispute, had the suit or proceeding been instituted after the passing of this Act.

Appeals pending in Jhansie Commissioner's Court, and execution of Decrees.

V. All appeals from decrees or orders passed before the passing of this Act shall be received, heard, and determined by the Court or Officer who would have had jurisdiction over such appeals, had the decrees or orders to which they relate been passed after the passing of this Act.

Appeals from Decrees or orders passed before the passing of this Act.

STATEMENT OF OBJECTS AND REASONS.

THE Pergunnahs of Mahoba and Jeitpore, the former of which was ceded to the late East India Company in the year 1817, and the latter of which lapsed to the British Government in the year 1849, have hitherto been administered on what is called the Non-Regulation system. Both Pergunnahs are now attached to the District of Humeerpore, which is subject to the General Regulations. That District has lately been transferred from the Jhansie Division, which is Non-Regulation, to the Allahabad Division, throughout which the General Regulations are in force, and it is thought desirable that the two Pergunnahs in question should also be brought under the operation of the General Regulations and Acts in Civil, Criminal, and Revenue matters, in order that they may be administered according to the system which is followed generally in the District and Division in which they are now included. This is the object of the present Bill.

TREATY WITH THE KING OF BURMAH.

The Hon'ble MR. MAINE presented the Report of the Select Committee on the Bill to give effect to certain provisions of a Treaty between His Excellency the Earl of Elgin and Kincardine, Viceroy and Governor-General of India, and His Majesty the King of Burmah.

EMIGRATION TO SAINT CROIX.

Also the Report of the Select Committee on the Bill relating to Emigration to the Danish Colony of St. Croix.

MAHOBA AND JEITPORE BILL.

The Hon'ble MR. HARINGTON introduced the Bill to bring the Pergunnahs of Mahoba and Jeitpore, in the District of Humeerpore, under the operation of the General Regulations, and moved that it be referred to a Select Committee with instructions to report in two weeks.

The Motion was put and agreed to.

ARTICLES OF WAR (NATIVE OFFICERS AND SOLDIERS) AMENDMENT BILL.

The Hon'ble MR. MAINE moved that the Report of the Select Committee on the Bill to amend Act XXIX of 1861 (to consolidate and amend the Articles of War for the government of the Native Officers and Soldiers in Her Majesty's Indian Army) be taken into consideration.

The Motion was put and agreed to.

The Hon'ble MR. MAINE also moved that the Proviso recommended by the Select Committee to be added to the second paragraph of Clause 2 of Article 82 be omitted, and that the following Proviso be substituted in lieu thereof:—"Provided "that, if reference can be made to any other "superior Officer holding a Command not less "than that of a Regiment, such reference shall be "made, and such Officer thereupon shall have "authority summarily to try, and, in case of con- "viction, to sentence the offender, and to carry "out such sentence as if the offender had been "under his Command." He explained that the object of the Clause was to give to Officers in Command of Detachments summary powers, but it was obvious that those powers should not be exercised if reference could be made, without detriment to the Service, to a superior Officer. The Select Committee had amended the Clause with the view of giving the requisite powers subject to that restriction; but as it had since appeared to the Members of that Committee that the Proviso did not impose the necessity of a reference if

it could be conveniently made, he would propose the amendment of which he had given notice, and he might state that it had the concurrence of the Government of India, in the Military Department.

The Motion was put and agreed to.

The Hon'ble Mr. Maine also moved that the Bill be passed with the amendments recommended by the Select Committee, subject to the foregoing amendment.

The Motion was put and agreed to.

Consolidated Customs Bill.

The Hon'ble Mr. Erskine moved that the Report of the Select Committee on the Bill to consolidate and amend the laws relating to the administration of the Department of Sea Customs in India be taken into consideration. He said that, in making this Motion, he need only remind the Council that, after the Bill had been revised by the Select Committee to which it was first referred, and after it had been re-published in its revised form for general information, many suggestions for its further amendment had been revised from the several local Governments and Chambers of Commerce. That had rendered it expedient that the Bill, together with the communications in which those suggestions were made, should be referred back to a Select Committee, the Report of which was now before the Council. It would be found, he believed, that most of the suggestions intermediately offered —most of those which seemed to be of any considerable moment—had been incorporated into the Bill as now reported. It could hardly be expected that every suggestion emanating from a local source, and adapted in some cases to purely local circumstances, and even to local peculiarities, should be suitable for insertion in its entirety in a Bill like this, which was to be of general application. But the number of instances in which the Select Committee had felt unable to adopt a recommendation of any moment was certainly small. And in some of those instances, when the Committee did not feel at liberty to go in a particular direction as far as was desired, they had inserted provisions which would enable the Government to go, in that direction, as far as seemed to be consistent with the character and scope of the Bill, as a general Bill, and with the principles on which it was founded. With these explanatory remarks he begged to move that the Report of the Select Committee be taken into consideration.

The Hon'ble Mr. Cowie said that he thought this might be deemed a fitting opportunity for recording his opinion of the great zeal, ability, and patience with which the Hon'ble Mr. Erskine had conducted this important Bill to a successful issue. It had been under his especial charge for more than twelve months, and during that time he had been engaged in the proverbially difficult task of pleasing all parties, and, he (Mr. Cowie) thought, with very considerable success. He considered that the Government and the Public were alike indebted to the Hon'ble Gentleman for the mode in which he had preserved the rights of the one without trenching on the convenience of the other.

His Excellency the President said that Mr. Cowie had anticipated the observations which he had intended to make. He entirely concurred with Mr. Cowie in this sense of the obligation under which the Council lay to Mr. Erskine for the zeal and ability which he had manifested in his charge of this Bill. By far the most laborious part of the work of the Council in legislation was performed not in that room but in the Select Committees, and he (His Excellency) thought that the public should be made aware of the fact. In this instance a great deal of labor had been devoted to the consideration of the numerous suggestions which had been made for amendments in the Bill, and it was through the admirable judgment and conscientious perseverance of Mr. Erskine and the other Gentlemen who formed the Select Committee that the Bill had been brought to its present state. He could only express his hope that their zeal would be rewarded by seeing the perfect working of the measure which they had brought to so satisfactory a conclusion.

The Hon'ble Sir C. Trevelyan said it might have been expected that, as the Member of the Governor-General's Council specially charged with the Financial Business, he should have given his particular attention to the details of this Bill; but, finding that it had *practically* reached its last stage, and that great pains had been bestowed upon it by the Select Committee, and having been assured by Mr. Erskine that it was strictly a *consolidation* Bill with the exception of certain limited alterations which he was so good as to explain, and in which he (Sir C. Trevelyan) entirely concurred, he considered that his time would be better employed in attending to other matters which required immediate attention. The consolidation of the various laws relating to the Customs was a work of great public value, and in accepting it on trust in the way he had described he had given the highest proof of his confidence in the faithful and able manner in which it had been effected.

The Hon'ble Mr. Erskine said that as his friend Mr. Cowie and His Excellency the Viceroy had, in a very kind manner, ascribed to him (Mr. Erskine) more credit in connection with this measure than he could fairly claim, he might perhaps be allowed to make one or two observations which he had intended to reserve until he moved that the Bill should be passed. It was impossible that a Bill of this kind, a first attempt to consolidate and expand into something like a Code rules of practice which had hitherto been different, and, in some respects, discordant in different parts of India, should be anything but a tentative, and, indeed, a very imperfect measure. He was sure however that, imperfect as it must be, many defects which would otherwise have adhered to the Bill had been removed owing to the aid which had been so kindly given by some of those who were most competent to give it. He had already alluded to the valuable suggestions which had been received from the Local Governments and Chambers of Commerce. In like manner two of the Gentlemen, who, with Mr. Spooner, composed the Customs Committee by whom the original draft of this Bill had been prepared two years ago, were still in Calcutta—Mr. Eden and Mr. Bullen—who was now again, as he had then been, the President of the Chamber of Commerce. They had been most ready on all occasions to furnish information and advice—sometimes he feared at considerable personal inconvenience. And, although the Bill was a very long, and not a very inviting one, it had been carefully revised and re-discussed by more than one Select Committee, the presence in which of their

friends, Mr. Fitzwilliam and Mr. Cowie, had brought to bear on the consideration of some of the questions most important to the mercantile community a degree of practical knowledge and practical interest which otherwise it might have been difficult to secure. That being the case; and as it seemed that, whatever might be the imperfections of the Bill, all those who had expressed an opinion in regard to it concurred in viewing it as a decided improvement upon any that had previously been in force; he hoped they might believe that it would be really acceptable, and really advantageous, to those whose interests in such matters it was most desirable to consult.

The Motion was put and agreed to.

The Hon'ble MR. ERSKINE then applied to His Excellency the President, under Rule 26 of the Rules for the Conduct of Business, for permission to move a verbal amendment of which he had not given notice; and then moved that, in Section CLXVIII, the following words be inserted at the end of line 6, after the word "lawful"—"on the "conditions and under the rules prescribed from "time to time under Section CLXIII of this Act."

The Motion was put and agreed to.

The Hon'ble MR. ERSKINE then moved that the Bill as amended be passed.

The Motion was put and agreed to.

TREATY WITH THE KING OF BURMAH.

The Hon'ble MR. MAINE applied to His Excellency the President to suspend the Rules for the Conduct of Business; and, on the suspension of the Rules, moved that the Report of the Select Committee on the Bill to give effect to certain provisions of a Treaty between His Excellency the Earl of Elgin and Kincardine, Viceroy and Governor-General of India, and His Majesty the King of Burmah, be taken into consideration. He read the Report of the Select Committee, and said that, as it only recommended a slight verbal amendment, he concluded that the Council would not object to take the Report into consideration at once.

The Motion was put and agreed to.

The Hon'ble MR. MAINE then moved that the Bill be passed with the amendment recommended by the Select Committee.

The Motion was put and agreed to.

The following Select Committee was named on the Bill to bring the Pergunnahs of Mahoba and Jeitpore, in the District of Humeerpore, under the operation of the General Regulations:—The Hon'ble Messrs. Harington and Roberts.

Provided that in detached situations beyond the Sea, or out of the British Territories in India, or when on service in the field, or in cases where an immediate example is necessary, and reference cannot be made to such Commanding or Superior Officer without detriment to the service, the Officer Commanding such Detachment may exercise the powers relating to Court Martial which are vested in an Officer Commanding a Regiment or Corps.

Provided that, if reference can be made to any other Superior Officer holding a command not less than that of a Regiment, such reference shall be made, and such Officer thereupon shall have authority summarily to try, and in case of conviction to sentence the offender, and to carry out such sentence as if the offender had been under his command.

The proceedings of such summary trial shall be conducted, so far as may be practicable, and shall be recorded in the same manner as is provided in Article 81 for summary trials by an Officer Commanding a Regiment or Corps, and shall, in like manner, be signed and forwarded to the Officer Commanding the Division within which such Detachment shall be at the time, who is hereby authorized to set aside the trial for the same reasons that an Officer Commanding a Division is authorized by Article 81 to set aside a trial by an Officer Commanding a Regiment or Corps. When any person subject to these Articles of War shall have been found guilty by a Court Martial of any Military offence, such Court Martial shall enquire into and receive evidence of any previous conviction of such person before a Court Martial or a Court of Justice, and shall enquire into the general character of such person, if a Soldier, for the purpose of apportioning the punishment to which he is liable to be sentenced for the offence of which he has been so found guilty. And it shall not be necessary to give any notice to such person, previously to his trial that such evidence will be received.

ARTICLE 166.

Regulations respecting Bazar and Cantonment Police, and Punchayets, declared in force.

The Regulations by which in any Presidency the Office and powers of Commissariat Officers, or Officers in charge of the Police in any Cantonments, or Superintendents of Military Bazars, are at present defined and controlled; or by which Punchayets are constituted and guided, shall continue to be in full force, and to be observed at the several Presidencies respectively.

THE following Bill was introduced into the Council of the Governor General of India, for the purpose of making Laws and Regulations on the 28th January 1863, and was referred to a Select Committee with instruction to make their report thereon in two weeks:—

No. 3 OF 1863.

A Bill to bring the Pergunnahs of Mahoba and Jeitpore, in the District of Humeerpore, under the operation of the General Regulations.

Preamble.

WHEREAS the District of Humeerpore in Bundlekund is, with the exception of the Pergunnahs of Mahoba and Jeitpore, subject to the General Regulations, and whereas it is expedient that the said Pergunnahs should, for the sake of uniformity and public convenience, be administered on the same system as prevails in the rest of the District; It is enacted as follows:—

Laws and Regulations for internal administration of Humeerpore to have full force in Mahoba and Jeitpore.

I. The Laws and Regulations established for the internal administration of the District of Humeerpore shall have full force and effect in the Pergunnahs of Mahoba and Jeitpore, and the administration of Civil and Criminal Justice, and the superintendence of the settlement and realization of the public revenue, and of all matters relating to rent in the said Pergunnahs, are hereby vested in the Officers who are, or may hereafter be, appointed by the Lieutenant-Governor of the North-Western Provinces for the said District of Humeerpore.

Saving as suits pending at the time of passing of this Act.

II. All suits and proceedings arising in the said Pergunnahs which, at the time of the passing of this Act, shall be pending in any Court, or before any Officer, shall be heard and determined in the same manner as if the said Pergunnahs had not been brought under the operation of the General Regulations.

III. Any suit which, before the passing of this Act, had been determined and which has been or shall be remanded by any Appellate Court, shall be tried before the Court which, for the time being, would be competent to try such a suit if instituted after the passing of this Act.

Suits remanded by any Appellate Court.

IV. All appeals or proceedings now pending in the Court of the Commissioner of Jhansie shall be determined by such Commissioner in the same manner as if this Act had not been passed; and all applications for execution of decrees or orders which, but for the passing of this Act, would have been made to any Court or Officer existing at the time of the passing of this Act shall be made to the Court or Officer that would have had jurisdiction in respect of the matter in dispute, had the suit or proceeding been instituted after the passing of this Act.

Appeals pending in Jhansie Commissioner's Court, and execution of Decrees.

V. All appeals from decrees or orders passed before the passing of this Act shall be received, heard, and determined by the Court or Officer who would have had jurisdiction over such appeals, had the decrees or orders to which they relate been passed after the passing of this Act.

Appeals from Decrees or orders passed before the passing of this Act.

STATEMENT OF OBJECTS AND REASONS.

THE Pergunnahs of Mahoba and Jeitpore, the former of which was ceded to the late East India Company in the year 1817, and the latter of which lapsed to the British Government in the year 1849, have hitherto been administered on what is called the Non-Regulation system. Both Pergunnahs are now attached to the District of Humeerpore, which is subject to the General Regulations. That District has lately been transferred from the Jhansie Division, which is Non-Regulation, to the Allahabad Division, throughout which the General Regulations are in force, and it is thought desirable that the two Pergunnahs in question should also be brought under the operation of the General Regulations and Acts in Civil, Criminal, and Revenue matters, in order that they may be administered according to the system which is followed generally in the District and Division in which they are now included. This is the object of the present Bill.

3. Commissions on the Veteran Establishment have been granted, on the recommendation of the respective Governments in India, to Warrant Officers of Ordnance, or other Departments, considered deserving of such reward on account of long and meritorious service. The promotion of these Officers from grade to grade has also been sanctioned in cases of unusual merit or length of service.

4. It has been determined that Commissions of this class shall be discontinued, and that Honorary Commissions for the future be granted in their place. Commissions of this kind will also be granted, in special cases, to Non-Commissioned Officers employed on detached Civil or Military duty in India, who are eminently distinguished by long and faithful service.

5. It is to be understood that Commissions of this nature will not carry pay, or increase of pay, on attaining advanced rank. The remuneration of the individuals must be dependent on their position in the Department or post in which they may be serving.

6. Unattached Commissions may still be conferred on Warrant and Non-Commissioned Officers employed on Staff or detached duty, who may distinguish themselves in Action, in the same manner as has hitherto been done under the sanction given in Despatch dated 22nd April 1846, No. 11*.

Government of India, Public Works Department.

Report of the operations of the Engineer's Department of the Great Indian Peninsula Railway Company.

From R. W. GRAHAM, ESQ., Acting Chief Resident Engineer, to W. R. HOARE, ESQ., Secretary, Great Indian Peninsula Railway Company,—(dated Bombay, the 11th November 1862.)

SIR,—I HAVE the honor to report upon the state and progress of the works during the Quarter ending 30th September 1862.

2. The line and works on the Concan have been maintained in good order throughout the rains without any interruption to the traffic.

3. The embankment at the Goolbun Ravine was rapidly approaching completion notwithstanding the occurrence of some heavy slips, which delayed its being opened for traffic till after the rains.

4. The Station works extension at Kussara was all but finished, and the Goods' Office in progress.

5. On the South-East Line, Deccan Division, the permanent way and works have been kept in good order without difficulty, and the amount of damage done by the high floods to the bridges and culverts was very trifling.

6. The large division of the Kuroodee Nullah and the raising of the line near Sholapoor, which were sanctioned last season, have both been entirely successful, and no stoppage has occurred to any Trains from the effects of the heavy rains.

7. On the Bhore Ghaut Incline the operations have, in consequence of the monsoon, been confined to the Tunnels, which have progressed rapidly; 226 lineal yards only remain to be done on the whole length.

8. On the Thull Ghaut Incline 58 yards of Heading and 209 yards of Tunnelling have been driven, which may be considered a very satisfactory result of a monsoon working.

9. During the Quarter, the road between Deolalee and Challisgaum, on the North-Eastern Deccan Division, has been well ballasted and the embankments made up to the full width. The spoil removed from the cess of the cuttings and the line generally put into good order by the Contractors previous to the transfer of the line to the Company, which was made on the 24th of September last.

10. The line from Challisgaum to Julgaom was ready for opening on the 15th of September, the date of the Government inspection, but it was not opened for public traffic till the 6th of October, when it was expected that the Goolbun Embankment on the correspondent division of the Concan Line would have been ready for the passage of Trains.

11. Beyond Julgaom the Wangoor Viaduct is the only important obstacle to the opening of the line to Bhosawul, and during the monsoon the works there were necessarily suspended, but after the rains the Contractor will be enabled to prosecute this work with energy.

12. On Contract (No. 13) 21,511 cubic yards have been put into the embankments during the Quarter, bringing the amount executed up to 98½ per cent. of the total quantity of earth-work in embankments.

The rock cuttings between the 11th and 16th miles are now well advanced, and I expect the Contractors will have a road through in the course of the next two months.

14. The masonry on the first 20 miles has made good progress during the Quarter, but between the 40th and 60th miles the Contractors' arrangements have been entirely upset by the want of fodder for cattle during the months of

July and August, and by the heavy fall of rain in September.

15. On Contract (No 14) 2,48.577 cubic yards have been put into embankments, making the amount executed up to the end of the Quarter 76 per cent. of the total quantity on the Contract.

16. The cuttings are well advanced, about 89 per cent having been completed.

17. The value of masonry executed during the Quarter was Rupees 32,750.

18. On Contracts Nos. 15, 16 and 17, the works have all been more or less checked by the season, and the total absence of roads for the carriage of stone and of other materials. This has been more especially the case on Contracts 16 and 17, but the preparations made by the Contractors for prosecuting the largest works are such as to give promise of greatly increased activity on these Contracts during the next working season.

I have, &c.,

(Sd.) R. W. GRAHAM,

Acting Chief Resident Engineer.

Memorandum dated 29th November 1862.

A REPORT of the operations of the Engineer's Department of the Great Indian Peninsula Railway Company during the Quarter ending 30th September last is submitted to Government.

2. The open portions of line were maintained in good order during that time.

3. Owing to the rains the work of construction was necessarily much impeded.

4. Fifty-eight and a half miles of new line between Challisgaum and Julgaom were opened.

5. The completion of the remaining portion between Julgaom and Bhosawul, 15 miles, is expected to be effected shortly after the beginning of the new year.

6. There is also a prospect of a portion of the Nagpoor Branch Line between Bhosawul and Mulkapoor, 29½ miles, being ready to be opened before next rainy season.

7. In the present Report no mention is made of the completion of the Bhore Ghaut.

8. It is therefore necessary here to mention that on the representation of Mr. Graham the time of the Contract for that work has lately been extended to the 31st March 1863.

9. There is still a considerable amount of earthwork and tunnelling to be finished towards the bottom of the Ghaut Incline, and an outbreak of Cholera or a strike of the laborers would certainly prevent the works being ready for traffic at that date.

Report on the present condition and prospects of the Ganges and Darjeeling Road.

Memorandum by the Officiating Superintending Engineer, Northern Circle.—(dated 12th January 1863.)

THIS road, considered as a whole between its termini at Caragola Ghat on the Ganges and the Bazar at Darjeeling, is 180 miles in length, of which forty-four are in the hills. For convenience of supervision, while under construction, the road has been divided into two separate Engineering charges; the portion in the hills being under the Executive Engineer, Dinagepore Division, whose Head-Quarters are at Darjeeling, and that in the plains under an Executive Engineer in special charge, with his Head-Quarters at Purneah, the principal station on the line.

The state of the work generally at this date is as follows:—

The earth-work and turfing of 130 out of the 136 miles of the plains road are completed. Timber bridges, aggregating 5,500 running feet in length, have been built, and three more are in progress, whose united lengths will amount to 1,200 running feet; twenty-three masonry bridges and culverts are finished and nine are in progress. The metalling of the thirty miles of road between Caragola and Purneah, which was sanctioned last year, is being pushed rapidly on, and is now about half done.

By the end of the present working season all the works sanctioned for this Division of the road will have been finished, and the line permanently opened to the foot of the hills with only two unbridged rivers to break its continuity. One of these, the Mahanundee, it is not at present in contemplation to bridge on account of the heavy expense attending a work of such magnitude; the bridging of the other, the Sowra, has been hitherto delayed on a question of navigation, but this is being now disposed of, it is expected that sanction will shortly be granted, and the work put in hand.

For the accommodation of travellers a temporary Staging Bungalow of superior construction has been built at Caragola, with six suits of apartments; another (but a permanent one) having only two suits exists at Purneah, and a third, on the ordinary First Class standard design, is in progress at Dingra Ghat, and will soon be ready.

A First Class Dak Bungalow was completed last year at Kissengunge and at Titalyah and Silligoree, the old Bungalows on the Dinagepore line have been brought into use.

Besides the buildings above enumerated, permanent Inspection Bungalows for the use of Departmental Officers have been built at Caragola, Purneah, Dingra Ghat, Kissengunge, Illawabarree, and Titalyah, as also temporary Bungalows at intermediate stations The permanent Bungalows at Titalyah and Dingra Ghat are still reported incomplete.

The plains road may be said to terminate at a point eleven miles north of Silligoree, of which distance the greater part of the earth-work of five miles has been completed. The remaining six miles will be undertaken as soon as the alignment of the hill road below Kursiong is indefinitely fixed.

The Mahanundee has to be crossed a second time about two miles and a half north of Silligoree, and not far from its source. A bridge 800 feet long will be necessary, should it hereafter be considered advisable to build one.

The formation width of the roadway of the 130 miles already made is uniformly thirty feet, with slopes of 2' to 1'. The masonry bridges and culverts on this line are all of the full width of the road, but the timber bridges have not been made more than sixteen feet wide between hand rails, for economical reasons. The greater number of

these timber bridges are of a light and simple construction, the spans of their openings being restricted to twenty feet. Those over navigable rivers have necessarily some bays of greater span for the passage of large boats, but the largest opening in any bridge on this road does not exceed forty feet. The roadway in the former case is supported on beams laid directly from pier to pier in the latter on transverse sleepers supported on trussed girders.

With a view to its conversion ultimately into a line of Light Railway, the plains portion of this road has been aligned with easy* curves at each change of direction, and the gradients have been kept under 1' in 150'. These comparatively stiff inclines, however, occur only in the approaches to bridges at the crossings of navigable rivers.

* The sharpest have a radius of above 1500 feet.

The metalling also between Caragola and Purneah has been laid at one side of the roadway, so as to admit of a single line of rails being laid on it without interference with the ordinary cart traffic of the country.

The question of waterway on many parts of this road has been a most difficult one to deal with, on account of the heavy floods which periodically sweep over the Districts north of the Ganges.

The range and magnitude of these inundations are equally uncertain, and in the absence of any reliable data for calculation, it has been necessary to feel our way with great caution. Timber bridges capable from their designs of almost indefinite longitudinal extension were therefore chosen for construction in the first instance, with a view to testing practically the conditions affecting each locality during a succession of seasons before venturing on a heavy expenditure for works of a more substantial nature. The experience of three rainy seasons would warrant us in supposing that we now know the proper amount of waterway required in the parts most dangerously affected by these floods. By degrees as they decay and require renewal, the woooden bridges on this road will most probably be replaced by others of a more permanent character. In the meanwhile, they are capable of easy adaptation for light railway purposes at a trifling outlay.

The hill division of this road has its terminus in the Darjeeling Bazar at an elevation of 6,850 feet above the sea level. This point was selected by the late Lieutenant-Governor of Bengal, as the position of greatest commercial importance in the Darjeeling District and the focus of the local trade with Bootan, Sikhim, and Nepaul.

About nineteen out of the forty-four miles of this division of the road are now being worked at. Twelve of these nineteen are practically finished, but it is to be regretted that the completed portions are not continuous, as no immediate advantage results from their comparatively early completion. The tracing or alignment of the remaining twenty-five miles is at present being pushed on with all possible speed, and though it cannot yet be said that the choice of the precise route to be followed has been definitely and finally made throughout this length, the greater portion of the distance has been already marked out after a careful examination of the ground. The remainder is delayed only on account of the extremely malarious climate of the lower ranges of hills immediately after the rains. Sanitary considerations prevent the despatch of the necessary Departmental Establishment to carry on the trace until sufficient time has elapsed for the swamps of the Terrai to dry up. It is expected, however, that a practical trace to the plains will have been cut by March next, and direct communication established with Silligoree.

Between Kursiong and the Saddle (sixteen miles) the road will, I hope, be opened to the public, though possibly not quite completed, before the close of the year 1863; and by the end of 1864 the entire line will, it is expected, be generally practicable for carts.

The elevation of the Terrai above the sea at the point where the hill road may be said to commence is 600 feet, and the greatest height attained in any part of the road is 7,480 feet, which is the elevation of the Goom Pahar Saddle, a point distant about four miles from Darjeeling by the new route. There is a descent either way from this ridge at a gradient not sensibly varying from 2 in 30, except for the last mile into Darjeeling, where it is only a little over 1 in 60.

The width of the hill road is not uniform, and indeed it is not at all desirable that it should be so, but the least width of any part has been fixed at twenty feet, of which sixteen will be metalled with stone. To ensure safety in rapid travelling there will be no turns of sharper curvature than a radius of sixty feet will give, and all narrow and dangerous places will be provided with protective parapets.

No new staging accommodation for European travellers has yet been erected in the hill section, but the existing Dak Bungalows at Silligoree and Kursiong (thirty-five miles apart) are still available for use, being as conveniently situated to the new road as to the old one on which they were originally built. Several new staging sheds for the use of Natives have been built between Kursiong and Darjeeling, but as yet the general question of accommodation for travellers, whether European or Native, has not been brought before Government, being dependent on and subsidiary to the completion of the road itself.

It is to be regretted that at the commencement of this great undertaking, its cost and difficulty should have been so much underrated as the result; so far has been disappointing to all interested in its progress

The character of the work is now, however, much better understood, and it is pleasant to add that the greatest obstacle in the way of progress during past operations no longer exists to impede our efforts.

Labor is now comparatively abundant, and the work to be done also has been materially simplified, if not reduced by re-alignments of the road in parts where the original trace was found to present serious engineering difficulties likely to retard the completion of the work. It is now estimated that two more years of labor and an outlay of five lakhs inclusive of past expenditure will give us a road from the foot of the hills to Darjeeling generally practicable for carts, though possibly as an engineering work it may not be quite finished in all its details till later.

Surveys of the revised line are now under preparation, and as soon as it is possible for the Engineers in charge of the work to draw up the necessary Plans and Sections a corrected Estimate will be submitted for the orders of Government.

In the meanwhile it is important to state that the work is being carried on with vigour under the sanctions provisionally accorded for it.

The provisions of these Articles of War which relate to a Court Martial held in a Regiment or Corps shall, in all practicable cases, be taken to apply to a Court Martial held in a Detachment.

No Officer on detached command of less than three Troops or Companies, or of a Detachment not numerically equal to three Troops or Companies, and not being on the line of march or on board a ship or other vessel, shall carry into effect any punishment awarded by a Court Martial held by his order, until the sentence shall have been confirmed by the Officer Commanding the Regiment or Corps to which the offender belongs, or by the nearest Superior Officer holding a command of not less than a Regiment, who is hereby authorized to confirm every such sentence in like manner as an Officer Commanding a Regiment or Corps might do. Provided that in detached situations beyond the Sea, or out of the British Territories in India, or when on service in the field, or in cases where an immediate example is necessary, and reference cannot be made to such Commanding or Superior Officer without detriment to the service, the Officer Commanding such Detachment may exercise the powers relating to Court Martial which are vested in an Officer Commanding a Regiment or Corps.

Clause 2.

The Commanding Officer of any Detachment of not less than three Troops or Companies, or of any Detachment numerically equal to or greater than three Troops or Companies; and the Commanding Officer of any European Detachment to which native details are attached (of whatever strength or number such European Detachments, or such native details may be); and any Commissary of Ordnance being a Commissioned Officer or other Commissioned Officer in charge of any Arsenal, Ordance Establishment, or any Camp Equipage Depôt may summarily try any offence against these Articles of War, committed by any person under his command or who is subject to such Articles (not being a Commissioned Officer); and may on conviction sentence such offender and carry out such sentence without confirmation or any further authority; provided that such sentence shall not exceed the powers of a Regimental Court Martial.

In detached situations beyond the Sea, or out of the British Territories in India, or when on service in the field, or in cases where an immediate example is necessary, and a Court Martial cannot be convened under Clause 1 of this Article without detriment to the service, and reference cannot be made without such detriment to the Officer Commanding the Regiment or Corps to which the offender belongs, or to any other Superior Officer holding a command not less than that of a Regiment; the Officer Commanding any Detachment though of less than three Troops or Companies or not numerically equal to three Troops or

Companies, may exercise the powers, of summary trial, of sentencing the offender and of carrying out such sentence which might have been exercised by the Officer Commanding the Regiment or Corps to which the offender belongs. Provided that, if reference can be made to any other Superior Officer holding a command not less than that of a Regiment, such reference shall be made, and such Officer thereupon shall have authority summarily to try, and in case of conviction to sentence the offender, and to carry out such sentence as if the offender had been under his command.

Any Commanding Officer or other Officer holding a trial under this Article shall be deemed a Court Martial, and the words "Court Martial" in these Articles of War, shall be deemed to include such Commanding Officer or other Officer holding a trial.

The proceedings of such summary trial shall be conducted, so far as may be practicable, and shall be recorded in the same manner as is provided in Article 81 for summary trials by an Officer Commanding a Regiment or Corps, and shall, in like manner, be signed and forwarded to the Officer Commanding the Division within which such Detachment shall be at the time, who is hereby authorized to set aside the trial for the same reasons that an Officer Commanding a Division is authorized by Article 81 to set aside a trial by an Officer Commanding a Regiment or Corps Provided that every sentence so awarded by an Officer Commanding any such Detachment or by any other Officer holding a trial under this Article may be carried out without waiting for its approval by the Reviewing Officer.

ARTICLE 117.

No person who shall have been acquitted or convicted by a Court Martial of any offence, shall be liable to be tried a second time by the same or any other Court Martial for the same offence. Provided that any person may be tried for the offence of murder, and punished for that offence, notwithstanding he may have been tried and punished for the act which caused death, if at the time of his conviction for the said act death shall not have resulted, or shall not have been known by the Court which passed sentence to have resulted.

No person to be tried a second time for the same offence.

When any person subject to these Articles of War shall have been found guilty by a Court Martial of any Military offence, such Court Martial shall enquire into and receive evidence of any previous conviction of such person before a Court Martial or a Court of Justice, and shall enquire into the general character of such person, if a Soldier, for the purpose of apportioning the punishment to which he is liable to be sentenced for the offence of which he has been so found guilty. And it shall not be necessary to give any notice to such person, previously to his trial that such evidence will be received.

ARTICLE 166.

The Regulations by which in any Presidency the Office and powers of Commissariat Officers, or Officers in charge of the Police in any Cantonments, or Superintendents of Military Bazars, are at present defined and controlled; or by which Punchayets are constituted and guided, shall continue to be in full force, and to be observed at the several Presidencies respectively.

Regulations respecting Bazar and Cantonment Police, and Punchayets, declared in force.

III. The following additional Clause shall be read as the second paragraph of Article 103 of the said Act XXIX of 1861:—

Every witness during attendance on a Court Martial, and during the time necessary for going and returning, shall be privileged from arrest in any Civil proceeding, and if arrested in any such proceeding, may be discharged by order of such Court Martial.

IV. This Act shall be read and taken as part of the said Act XXIX of 1861.

BENGAL CIVIL FUND.

At a Half-yearly General Meeting of Subscribers to the Bengal Civil Fund held on Wednesday, the 28th January 1863.

PRESENT:—Messrs. J. I. Harvey, W. J. Allen, A. Grote, R. Abercrombie, E. C. Bayley, S. Wauchope, V. H. Schalch, W. S. Seton-Karr, G. Campbell, C. P. Hobhouse, H. Monckton, E. F. Harrison, A. M. Monteath, E. V. Westmacot.

THE HON'BLE GEORGE CAMPBELL *in the Chair.*

Read the following Report submitted by the Managers:—

"The Managers submit their Proceedings for the past Half-year for the consideration and sanction of the Meeting.

"Subject to the approval of the Subscribers they have admitted to the benefits of the Fund the following Families:—

Mrs. Richards yearly .. ... Less 1-6th under Rule 7 ...	£ 300 „ 50 £ 250	"The Widow of the late Mr. G. J. Richards, who died at Calcutta on the 1st August 1862.
Mrs. Lowe yearly . Two children „	£ 300 „ 60 £ 360	"The Widow and two Children (a son and a daughter) of the late Mr. W. H. Lowe, who died at Boolundshuhur on 30th July 1862.
Less 1-6th under Rule 7	„ 60 £ 300	
Miss Smith yearly	£ 100	"The Daughter of the late Mr. G. H. Smith (Annuitant of May 1854), who died in England on 20th May 1862.
Mrs. de Lautour yearly ... Five Children „ ...	£ 300 „ 390 £ 690	"The Widow and five children (three sons and two daughters) of the late Mr. Edward de Lautour, who died in England on the 26th November 1862.

"The Managers beg to submit to the Meeting the case of the Widow of the late Mr. S. F. Davis, who died at Arrah on the 21st June 1862. Mr. Davis was married on the 3rd June 1861 (one year and eighteen days prior to his death), but never reported his marriage as required by Article VI., and was consequently not assessed with the additional subscription under Rule 4. The Managers were first officially made aware of his marriage by the application of his Widow, on the 12th of August 1862, for admission to the benefits of the Fund. Mrs. Davis was requested to furnish any explanation which she might have to offer in regard to the omission of her late husband to report his marriage. In her reply, which is herewith submitted to the Meeting, Mrs. Davis has stated her willingness to 'satisfy all demands 'in respect of fines, &c., including arrears of subscription, with interest,' to which, by her husband's oversight, she may be liable, and as regards the suggested explanation of her husband's omission has brought forward two points—

1. That Mr. Davis was absent on Furlough when the new Rules were passed, and that, so far as she can learn, he was never furnished with a copy of Article VI., and remained, to the best of her belief, "in utter ignorance of its provisions and purport, and even existence ... to his dying day."

2. That from 1857 Mr. Davis was overwhelmed with official duties and suffered from repeated attacks of illness.

"In respect of the first point it is to be remarked that not only did Mr. Davis record his vote in favor of the new Rules circulated in July 1849 (in which Article VI. stood as it stands now), but since that date a Circular calling special attention to the provisions of Article VI. has been addressed to Mr. Davis (among others) in March 1855, February 1856, March 1857, and March 1861.* The last of the above Circulars was sent to him three months before his marriage.

* From December 1857 to January 1861 Mr. Davis was absent from India.

Mrs. Davis' statements in respect of the second point (*viz.*, over-work and prostration of health) are substantiated, so far as the alleged state of her husband's health is concerned by copies of Medical Certificates ranging in date from October 1857 to February 1862. Of them three, dated respectively the

2nd December 1861, 25th December 1861, and 24th February 1862, refer to the period between Mr. Davis' marriage and death, and shew that during that time he suffered, more or less, constantly from attacks of fever and other symptoms of disease.

"The Managers have had before them two different views as to the mode in which the Meeting should be recommended to deal with the case.

"On one side it was argued that the application for admission to the benefits of the Fund should be submitted to the Meeting under Article VI. of the Rules, which provides that, in the event of a Subscriber failing to intimate the date of his marriage within six months, 'the admission of the wife ... 'to the benefits of the Fund will be dependant on the decision of a General Meeting, subject to such 'penalty, not being less than .. Rupees (500) five hundred ... besides arrears of subscription with interest 'at 8 per cent., as the Meeting may determine upon.'

"On the other side it was argued that the portion of Article VI. which provides for the admission to benefits by a General Meeting of a *wife* whose marriage has not been reported within six months from the date thereof cannot be held to apply to the case of a *widow*. The Article, it was observed, contemplates only applications made by Subscribers during their lifetime for the admission of their families to the contingent benefits of the Fund which, it was argued, is essentially different from the admission to actual benefits of the widow of a Subscriber dying under default. Mrs. Davis' case should, it was thought, be submitted under Article XVIII., which provides for the consideration, after due notice by advertizement, of every case not distinctly provided for under the Rules. The case, if so submitted, might, it was observed, be dealt with by the Meeting and the Subscribers at large entirely according to its merits unfettered by any prescribed procedure. The distinction drawn above between the admission of a wife and a widow was, it was argued, substantial as well as technical. That the widow of a member who had died without reporting his marriage, and who had furnished no evidence in his lifetime of an intention to conform to the Rules of the Fund in that respect, should be admitted to benefits under the same provisions as the wife of a Subscriber whose application for admission (carrying with it concurrent obligations and advantages) was in itself satisfactory evidence of the absence of any intention to defraud the Fund, was observed to be a principle by no means so obvious as to justify the assumption that a Rule, the terms of which were restricted to *wives*, should be held, by implication, to include *widows*. It was pointed out, moreover, that *practically* it was in the power of a Subscriber, by not reporting his marriage, to escape the levy of the additional subscription under Rule 4, and that in the event, under these circumstances, of the Subscriber out-living his wife, the fact of his default would, in all probability, never come to the knowledge of the Managers of the Fund. If a widow left under these circumstances were to be placed under the same provisions, in regard to admission, as are provided for the wife of a living Subscriber, an incentive to intentional or careless omission would obviously be afforded. Finally, on this side it was pointed out that no widows or orphans had ever been admitted under the provisions of Article VI., but that on the contrary a precedent existed in the case of a son of Mr. Torrens, whose birth was not reported within six months of its occurrence or prior to the father's death. The admission of the son in that case was submitted to the Meeting of January 1853, when it was resolved 'that the Managers be instructed to bring this case forward formally under Rule 18 'after due notice.' The same procedure ought, it was argued, to be followed in the present case.

"In support, however, of the views on the first side previously noticed, and with reference to the above objections, it was argued that under Article IV. of the Rules additional subscription on the part of married men was compulsory not optional, and that under Article IX. it was the duty of the Managers of the Fund to cause to be levied, and the Civil Pay-Master to levy their subscriptions, the Subscriber's Membership and his wife's beneficiary interest being in no way affected by the failure to levy them, *except in so far as was provided by Article VI.* under which, therefore, the present case of default necessarily fell to be considered. By their covenants, as well as by the Rules, married Subscribers were liable to compulsory assessment by the Officers of Government and the Fund, and if the Subscribers failed to render the required information for this purpose their failure subjected them to the provisions of Article VI., under which it was the province of a General Meeting to adjudicate. Subject to the provisions of that Article, it was observed, Mrs. Davis, as the widow of a Member of, and Subscriber to, the Fund, is entitled *as of right* to its benefits. Under these circumstances, it was remarked that the use of the term 'wife' as distinguished from 'widow' could not be deemed a material point; it could never have been intended that a lady who had the misfortune to lose her husband should be placed as regards admission in a worse position than if he had lived. Such an argument would be a mere quibble on the word 'wife.' It was further remarked that the more confined construction of the Rule would equally exclude the case of a widow whose husband died before the expiry of the time allowed for the report of marriage.

"On the whole it has been decided by a majority of the Managers to recommend Mrs. Davis' application to the favorable consideration of the Meeting under Article VI.; and, adverting to the explanation tendered by Mrs. Davis as to the probable cause of her late husband's omission owing to his health being completely broken, to the fact that the marriage, though not officially reported, was advertized in the daily Papers and was un-officially known to some of the Managers and to many Members of the Civil Service, and, to the well known careless habits of Mr. Davis, they are of opinion that the case may be viewed as one of purely unintentional omission. Coupling this with the fact, as they have every reason to believe, that Mrs. Davis has been left without any private means of support, the imposition of a minimum fine of Rupees 500 or Rupees 1,000, with arrears of subscription with

interest at 8 per cent. is recommended to the Meeting. Mrs. Davis, if admitted to benefits under Article VI. will, subject to the payment of the fine, &c., be entitled to the usual allowances regulated by Articles VII. and XXVI.

"Mr. A. Shank (annuitant of May 1856) has incurred the penalty under Rule 6 of exclusion from the benefits of the Fund of five children born since his retirement, but not reported within the prescribed six months. Mr. Shank on retirement compounded for the future subscriptions required for the then Members of his family, and now explains that he 'concluded that, having once com-'pounded for the amount required to be paid, any children that were born afterwards would also be 'entitled to all the advantages of the Fund without a report being made of their birth.' As the ommission appears to have been quite unintentional, the Managers recommend the admission of the children on payment of such a fine as the Meeting may fix, and of all arrears of subscription with interest at 8 per cent.

"The Resolution of the last General Meeting for the amendment of the last Clause of Rule 21, so as to provide for the Auditor and Accountant-General to the Government of India when a Member of the Covenanted Civil Service in any Presidency being an ex-Officio Manager, has been affirmed by 54 votes to 4 against it.

"Mr. H. W. Hammond proposes to submit an amendment of Rule 37, to the effect that Subscribers 'unavoidably absent through ill-health and in the receipt of no allowance shall be required 'to contribute the prescribed percentage on a sum not exceeding the usual subsistence allowance of 'their rank.' Under the existing Rule (Article XXXVII.) an absentee in the circumstances above described has to pay the prescribed percentage on an assumed Furlough allowance. Mr. Hammond's proposed amendment has been advertized.

"The Managers desire to inform the Meeting that they have altered, with effect from the 1st October last, the proportion in which pensions are discharged from the Ordinary and Additional Funds. The previously existing proportion, *viz.*, two-thirds from 'Ordinary,' and one-third from 'Additional,' was fixed by the Managers in 1852; but it has been found to operate injuriously on the Fund by creating comparatively too great a drain on the ordinary Capital. The Managers have accordingly adopted the proportion calculated by Mr. Davis in paragraph 5 of his Report, and have caused 53 per cent. of pension payments to be debited in future to the Ordinary, and 47 per cent. to the Additional branch.

"With reference to the recent Memorial, in which, as regarded the Civil Fund, 'the guarantee by Government to all existing Subscribers of the benefits secured to them by the present Rules at rates not higher than the present' was solicited, the Government of India have transmitted to the Managers, with a request that the sense of the Service may be taken thereon, the following Extract from the Secretary of State's Despatch of the 25th November 1862, No. 193 :—

"Her Majesty's Government have no intention of withdrawing the aid which has been hitherto granted, and they see no reason for increasing it. If the Subscribers prefer it there would apparently be no objection to granting, in lieu of the present indirect aids,* an annual sum equal to the average of the donations during the past five years, the future interest on the balance of the Funds being in that case fixed at 5 per cent, and the remittance of the sums required by the Fund in England being made at the same rate of exchange as that fixed annually for the adjustment of transactions with the British Exchequer."

*The Ordinary Capital stands at 8 per cent, interest of which, 4 per cent is regarded as a donation.

"The adoption of the above suggestion would involve the acceptance of a fixed annual donation equal to 4 per cent on the average capital of the Ordinary branch for the last five years in lieu of the difference between interest at 8 per cent (as at present) and 5 per cent (as proposed) *i. e.*, in lieu of interest at 3 per cent, on the amount at which the capital in question will stand in future years. The Managers observe that the Capital of the Ordinary branch is rapidly increasing and will necessarily increase for years to come while the Fund is under approach to maturity.

They regard the suggested measure, therefore, as obviously disadvantageous and do not recommend its adoption.

"The Managers beg to inform the Meeting that the Accountant-General has very recently placed Rupees 1,24,106-10-8 of outstanding dues of the Ordinary branch belonging to periods prior to May 1850 at the disposal of the Fund. This addition to the Capital of the Fund will appear in the Accounts of 1862-63. The Managers have directed a close investigation to be made of the Accounts of the Fund in past years with the view, partly of examining the cause of so large an outstanding having remained uncredited, and partly of ascertaining whether the present system of accounts affords sufficient security for the due credit of all the Assets of the Fund.

"The accounts of the past year, 1861-62, are submitted."

Note.—Of the sum of Rupees 1,24,106-10-8, placed recently at the disposal of the Fund by the Accountant General, Rupees 1,19,333-5-4 at 8 per Cent interest represents an addition to the above Balance of 30th April 1862.

Proposed by Mr. Campbell, seconded by Mr. Monteath, and resolved that the admission of the Families of Messrs. Richards, Lowe, Smith, and De Lautour be confirmed.

Proposed by Mr. Harvey, and seconded by Mr. Grote, that the Meeting admit Mrs. Davis under Article VI. to the benefits of the Fund, subject to a penalty of Rupees 500, besides the arrears due by her late husband, with interest at 8 per cent.

Proposed as an amendment by Mr. Monteath, and seconded by Mr. Campbell, that the Managers be instructed to bring the case forward after due notice under Article XVIII.

The amendment having been put to the vote was lost, 3 votes (including one proxy) being recorded for it, and 12 votes (including one proxy) being recorded against it.

Mr. Harvey's proposition was then put to the Meeting and carried, 12 votes (including one proxy) being recorded for it, and 3 votes (including one proxy) being recorded against it.

Proposed by Mr. Wauchope, and seconded by Mr. Seton-Karr, that Mr. Shank's five children be admitted to the benefits of the Fund, subject to the payment of a fine of Rupees 200 for each child, or Rupees 1,000 for the five, together with arrears of subscription, with interest at 8 per cent.

An amendment was proposed by Mr. Harrison to the effect that, in accordance with the ordinary practice of the Fund, the minimum fine only, *viz.*, Rupees 100 for each child, together with arrears of subscription, with interest at 8 per cent, should be levied.

The amendment was unsupported and the original proposition having been put to the Meeting was carried, 13 votes being recorded for it, and one against it.

Proposed by Mr. Bayley, seconded by Mr. Wauchope, and resolved that this Meeting record its opinion with reference to Mr. Hammond's proposal for the amendment of Rule 37 that all questions involving alteration of rates of subscription be postponed pending the decision of an Actuary on the state of the Fund.

Proposed by Mr. Harvey, seconded by Mr. Wauchope, and resolved that the suggestion of the Secretary of State relative to the acceptance of a fixed annual donation in lieu of the indirect aid of a high rate of interest be referred, together with the remarks of the Managers, for consideration and report by the same Committee which may be appointed for the consideration of the new Annuity Scheme, the Report, when received, being circulated for the information of Subscribers, and steps being taken for convening a Special General Meeting for its consideration.

Proposed by Mr. Grote, seconded by Mr. Harrison, and resolved that the accounts be passed, it being understood, as stated in the Managers' Report, that the outstanding balance which for many years has not been brought to account, but the existence of which has been recently brought to notice by the Accountant-General, shall appear in the Accounts of 1862-63.

The following Gentlemen were elected Managers for the ensuing years :— .

The Hon'ble H. B. Harington, Mr. Wauchope, the Hon'ble W. S. Seton-Karr, the Hon'ble A. Eden, and Mr. Harrison.

A vote of thanks was passed to the Chairman.

BENGAL CIVIL FUND;

GEORGE CAMPBELL,
Chairman.

BENGAL CIVIL SERVICE ANNUITY FUND.

At an Annual General Meeting of Subscribers to the Civil Service Annuity Fund, held on the 28th January 1863.

PRESENT :—Messrs. J. I. Harvey, W. J. Allen, A. Grote, R. Abercrombie, E. C. Bayley, S. Wauchope, V. H. Schalch, W. S. Seton-Karr, G. Campbell, C. P. Hobhouse, H. Monckton, E. F. Harrison, A. M. Monteath, E. V. Westmacot.

THE HON'BLE GEORGE CAMPBELL *in the Chair.*

Read the following Report by the Managers :—

"The Managers have received from the Government of India the annexed extract, paragraphs 1 to 9, of a Despatch, No. 193, dated 25th November 1862, from the Secretary of State for India, conveying the remarks of Her Majesty's Government on the Memorial from the Service of the 4th February 1862.

"With reference to the scheme of Annuities proposed in the first eight paragraphs, the Managers observe that the effect on existing provisions will be as follows :—

I. Instead of the scale of Annuities *at present* in force, *viz.* :—

	Minimum Annuity. £.			*Maximum Annuity.* £.
(a) To a Subscriber of 25 *years' service and* 22 *years' residence*	500	Increased by such amount as his Subscriptions (supplemented on retirement if he likes) will purchase, subject to the limit of the total Annuity to		1,000
(b) To a Subscriber retiring on Medical Certificate having completed 15 *years' residence*	250	Ditto	Ditto ..	500
(c) To a Subscriber retiring on Medical Certificate having completed 10 *years' residence and under* 15 *years*. .	125	Ditto	Ditto ..	250

(d) To a Subscriber retiring on Medical Certificate and not having completed ten years' residence a donation of £500.

The scale under the proposals of Her Majesty's Government will be—

	Minimum Annuity. £.		*Maximum Annuity.* £.
(a) To a Subscriber of 25 *years service and* 22 *years' residence*	600	Increased by such amount as his Subscription (supplemented on retirement if he likes) will purchase, subject to the limit of the total Annuity to	1,000
(b) To a Subscriber retiring on Medical Certificate having completed 20 *years' service and under* 25	450		
(c) To a Subscriber retiring on Medical Certificate having completed 15 *years' service and under* 20	350		
(d) To a Subscriber retiring on Medical Certificate having completed 10 *years' service and under* 15	250		
(e) To a Subscriber retiring on Medical Certificate having completed 5 *years' service and under* 10	150		

(f) To a Subscriber retiring on Medical Cetificate and not having completed 5 years' service a grant of £ 500.

II. Instead of a limited number of Annuities and a fixed date of retirement (1st May) the number will be unlimited and the Annuities may be granted "on application at any time" to qualified applicants.

III. The term "residence" is to include "one year's sick leave, if such has been taken," but not "any future special leave of absence from India on private affairs."

"The Managers observe that no maximum amounts have been fixed for invalid pensions, and a doubt may perhaps arise as to whether the amounts mentioned are or are not intended to be fixed amounts to which no additions are to be made on account of individual subscriptions. Having regard to the obvious intention of Her Majesty's Government to provide more liberally for those 'who having 'devoted a portion of their lives and energies, and especially those years during which men qualified 'for a profession to the service of Government, are deprived of the fruits of their labor by sickness, 'which may compel them to resign the Service before they have become entitled to an Annuity;' looking also to the fact that if the amounts mentioned in the Despatch are taken as fixed amounts to which no increase can be made from individual subscriptions, the maximum pension of an Invalid retiring after 15 years' residence would be reduced from £500 (as at present) to £450; and observing that the scale of fixed invalid pensions seems to follow, in a regularly decreasing ratio, the £600 allowed as a fixed minimum to ordinary Annuitants, the Managers are inclined to think that the amounts mentioned by the Secretary of State for the fixed pensions of Invalids were intended to be subject to *similar* conditions, in respect of increase by individual subscriptions, as have been indicated in respect of the fixed minimum of £600 for ordinary Annuitants.

"With reference to the 9th paragraph of the Despatch, the Government of India have requested the Managers to ascertain and report the opinion of the Subscribers generally on the subject. The Managers observe that the alterations proposed in the scale of Annuities involve no change in the system of management or independent constitution of the Fund, the continuance of which will be attended with the same advantages as heretofore. The Managers are unable to see any advantage which could accrue to the Service by a relinquishment of the separate constitution and management of the Fund, and do not therefore recommend any change.

"The Managers think that if adopted the new scheme should have retrospective effect from the date of the Despatch, 25th November. This will provide for the cases of all those* who, having retired on allowances in anticipation of Annuities, should, the Managers think, in the spirit of the Secretary of State's Despatch, be admitted to Annuities from the 25th November. It will also provide for all those who, pending the final adoption of the Rules by the Subscribers at large, may retire in anticipation of having the benefits extended to them from the date of retirement.

* Messrs. A. Littledale.
F. A. Lushington.
F. B. Gubbins.
A. H. Young.
G. Edmonstone.

"It will not, however, provide for the cases of Subscribers who retired on Annuities subsequent to the date of the submission of the Memorial, but before the date of the Despatch. In respect to these cases the Secretary of State has expressly suggested that they should be 'admitted from this date '(25th November) to the benefit of the arrangement now sanctioned.' The Managers think therefore that in connection with the adoption of the new scheme, if that be decided on, special authority should be given for carrying out this suggestion. There are three Annuitants† who will benefit to the extent of £100 per annum each under the arrangement, and a fourth, Mr. C. H. Lushington, who, the Managers think, is equally entitled to benefit thereby, although, having paid up the sum required to make up his full annuity, there is a technical difference in his case. The Managers would refund to him the payment so made (Rupees 1,083) less the amount by which his pension payments may have been increased in consequence prior to the 25th November.

† J. S. Dumergue.
G. P. Leycester.
H. G. Astell.

"The Managers beg to submit to the Meeting a draft revision of the Rules framed so as to carry out the new scheme. They would suggest that the draft, with the above remarks, be referred by the Meeting for consideration and report by a Special Committee; the report when received being circulated to the Subscribers at large, and a day fixed for a Special General Meeting for the purpose of considering it."

No. 1216.

To the Managers of the Bengal Civil Service Annuity Fund.

Financial Department.

Gentlemen,—I am directed to forward a copy of paragraphs 1 to 9 of a Despatch from the Right Hon'ble the Secretary of State, No. 193, dated 25th November 1862, of which the last questions the necessity of maintaining the existing machinery of the Civil Service Annuity Fund, and to request that you will be good enough to ascertain and report the opinion of the Subscribers generally on this subject.

I have, &c.,
Edmd. Drummond,
Secretary to the Government of India.

Council Chamber,
The 14th January 1863.

Extract from a Despatch from the Right Hon'ble the Secretary of State for India, addressed to the Government of India, in the Financial Department, No. 193 *of* 1862, *dated the 25th November.*

1. The Memorials from the Covenanted Civil Servants of the several Governments in India on the subject of their retiring Annuities, and of the Pensions of their Widows and Orphans, together with your Financial letter, dated the 7th March 1862, No. 40 the Financial letter from Madras, dated the 8th February 1862, No. 2, the Public letter from Bombay dated the 12th April 1862, No. 13, and the several Minutes of Members of the respective Governments in India in reference thereto have been considered by me in Council.

2. It does not appear to be necessary to give a detailed reply to the observations of your Government, or to the requests contained in the several Memorials, as the result of the consideration by Her Majesty's Government of those observations and Memorials will be apparent from the decision which I have now to communicate.

3. In regard to the period of service which is in future to be required as a qualification for an Annuity, Her Majesty's Government see no reason for altering the period of 25 years' service and 22 years' residence (including one year's sick leave, if such has been taken, as at present); but they cannot allow any future special leave of absence from India on private affairs to count as residence.

4. No sufficient ground appears to have been assigned for increasing or altering the amount of the full Annuity, which must therefore remain at £1,000, or of the amount of the percentage of deduction from salaries, which will continue at four per cent, the amount of subscriptions to accumulate, as at present, at six per cent interest.

5. Her Majesty's Government are of opinion that there is ground for making some alteration in the terms on which Annuities are granted, and they have decided that a Civil Servant who has completed the prescribed period of service and residence shall be granted by Government an Annuity of £600, and that he shall have the option of taking in addition an Annuity of the amount, not exceeding £100, which his accumulated subscriptions, with interest, will purchase according to the Table now in force, or of adding to his subscriptions such a sum as will purchase an Annuity of any amount which, added to the £600 granted by Government, will not exceed the full Annuity of £1,000. They have also decided that Annuities, without limitation as to number, may be granted, on application, at any time to Covenanted Civil Servants who have completed the prescribed periods of service and residence, and whose resignations of the Service have been accepted, and that those Civil Servants who have obtained Annuities since the Memorials were sent in be admitted from this date to the benefit of the arrangement now sanctioned.

6. It must be clearly understood that, in the event of the death of a Subscriber, his accumulated subscriptions will lapse, and that no refund of subscriptions can, under any circumstances, be allowed.

7. Her Majesty's Government are also disposed to make some provision for Covenanted Civil Servants who, having devoted a portion of their lives and energies, and especially those years during which men qualify for a profession to the service of Government, are deprived of the fruits of their labor by sickness, which may compel them to resign the Service before they have become entitled to an Annuity. In any such cases, when clearly proved by Medical Certificate, the following Pensions may be granted :—

If under 5 years' service, a grant of £500.
Of 5 years' service and under 10, an Annuity of £150.
Of 10 years' service and under 15, an Annuity of £250.
Of 15 years' service and under 20, an Annuity of £350.
Of 20 years' service and under 25, an Annuity of £450.

8. Her Majesty's Government are willing to sanction the payment of all the Annuities quarterly and to the date of decease, with the same option as to payment in India or England as at present.

9. These changes will inevitably derange the calculations on which the Civil Service Annuity Funds were constituted. It is therefore important to consider whether any advantage could attend retaining Boards of Managers and the Machinery of the Funds. Practically, all that will be required under the changes now sanctioned will be an account shewing the amount deducted from the salary of each Civil Servant and the interest thereon, and for that object the maintenance of the Funds does not appear to be necessary.

(A True Copy,)
Edmd. Drummond,
Secretary to the Government of India.

Read also the following letter from Mr. Harvey to the Chairman of the Meeting:—

To the Chairman of the General Meeting of the Bengal Civil Service Annuity Fund to be held at the Town Hall on the 28th January 1863.

Sir,—With reference to that part of the Despatch of the Secretary of State, No. 193, dated 25th November 1862, which bars refund for the future as one of the conditions on which the more favorable terms of Annuities are to be sanctioned for the future, I, as the only remaining original Subscriber to the Fund still in the Service, and one to whom an Annuity having been assigned previous to the date of the Despatch in question, cannot be effected by the said Despatch, beg to put on record at this Meeting my own claim and that of all past Annuitants to the grant of refund above the half value of my and their Annuities, as a right to which we are entitled before our accumulated Funds now in deposit can be diverted to provide for more Annuities and on better terms to future Annuitants at our expense.

These our claims being conceded, and the guarantee of the Right Hon'ble the Secretary of State granted for the payment of our Annuities and the refund of our excess subscriptions with interest, I, as an original Subscriber to the Fund, am prepared to acquiesce in the terms proposed by Government; but unless these rights of all original Subscribers to the Fund, who established the Fund on certain favorable terms, to a fulfilment of which they are entitled, are guaranteed to us, I beg respectfully to protest against any measure which, either now or hereafter, may entail pecuniary loss or damage on us, or which may deprive us of these our rights, and which have already been guaranteed to us by Her Majesty's Proclamation on assuming the Government of India.

I have, &c.,
J. I. Harvey.
